

Arkansas Healthcare Transparency Initiative

Board Meeting
July 12, 2016

Agenda

- Review of Minutes
- Background and Overview
- Sustainability Review
- Existing/Future Reporting
- AR Healthfacts Website (PCG)
- Status—Data Intake/Data Submission Guide Updates
- Meeting Schedule

Partnership with Arkansas Insurance Department (AID)

- AID HIRRD opened a competitive bid process to fulfill Cycle III federal requirements
 - Awarded \$1.7 million over 18 months to establish a voluntary APCD
 - RFP awarded to ACHI in March 2014
 - Contract authorized June 2014
- ACHI contracted with AID HIRRD for Cycle IV federal funding
 - \$1.05 million over 18 months for additional APCD development and reporting
 - Contract authorized June 2015

Healthcare Transparency Initiative

- Expands APCD scope and institutes governance structure
- Establishes a mandate for certain entities to submit claims information
- Provides authority for the Arkansas Insurance Department to develop rules for data collection and use requirements, including penalties
- Names ACHI as APCD administrator
- Ensures data protection—Freedom of Information Act, trade secrets, re-identification
- Establishes fund for operations and makes board staffing and data availability contingent on available funds

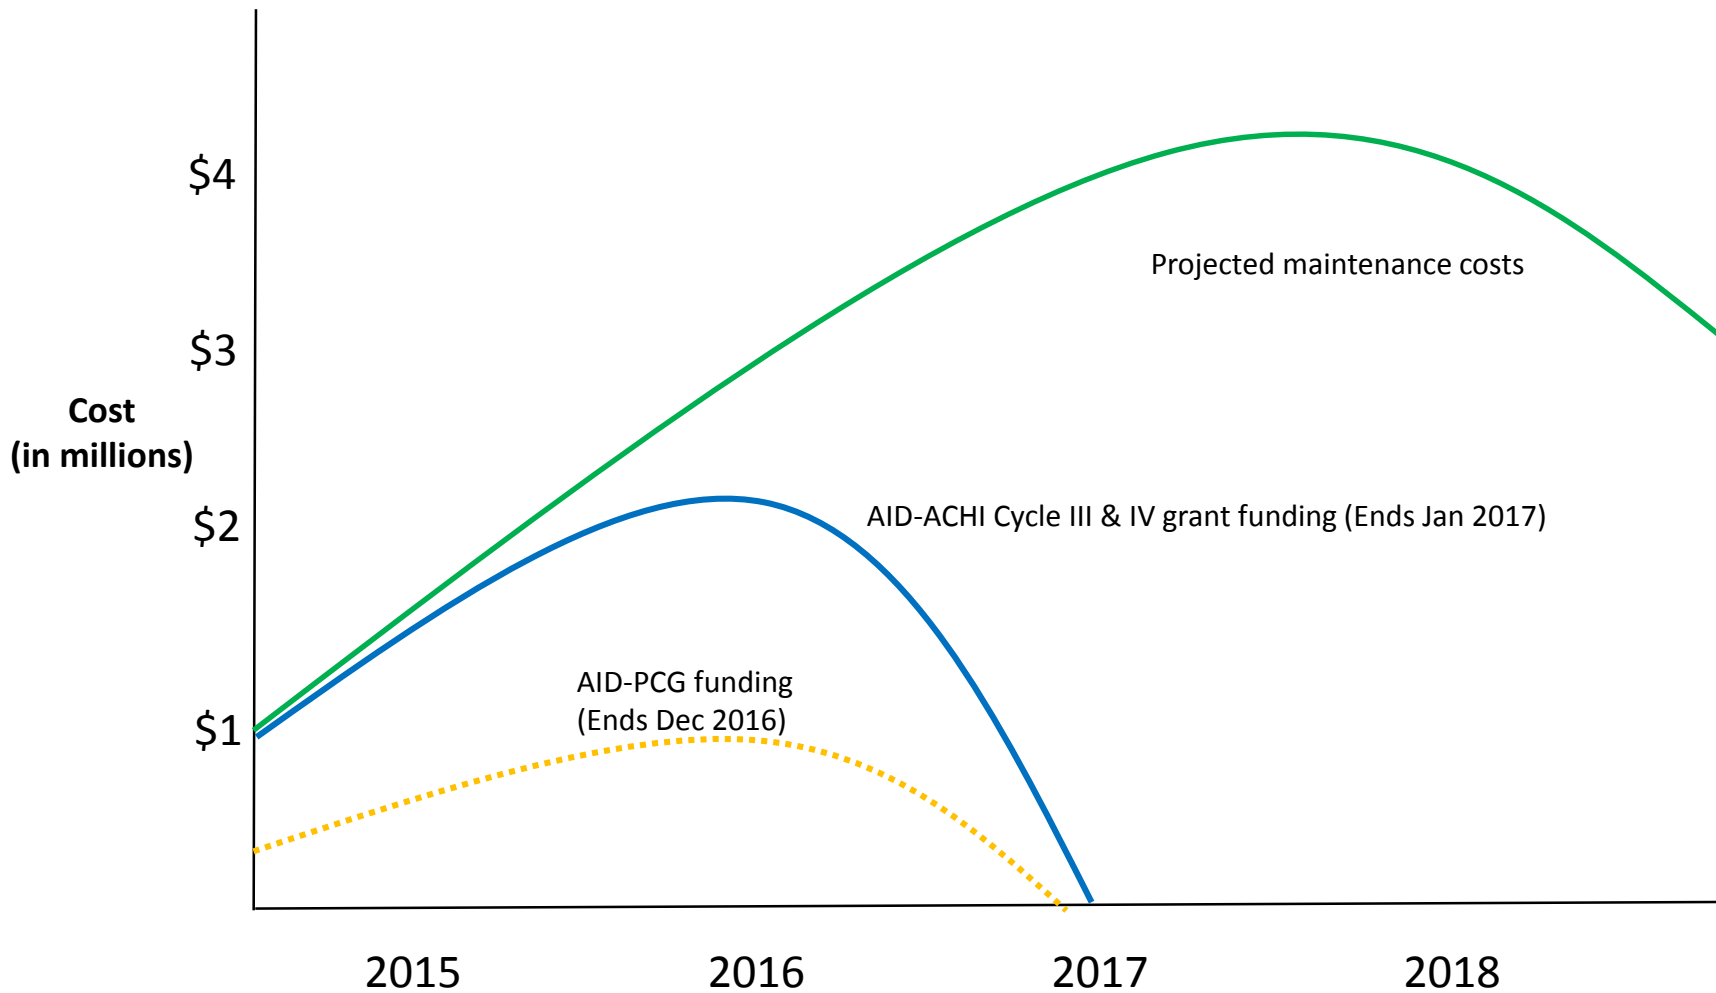

Role of Initiative Board

- In consultation with Arkansas Insurance Department:
 - Establish policies and procedures necessary for administration and Initiative oversight, including data collection, processing, storage, analysis, use, and release;
 - Identify and explore the key healthcare issues, questions, and problems that may be improved through more transparent information
- Provide recommendations to the Commissioner regarding data requests, reports, and publications
- Review and approve material revisions to the Data Submission Guide (DSG) and public comments

Rule 100: Public Use and Reports

- Contingent upon available funding and in consultation with the Initiative Board
- AID will issue reports which may include descriptions of patterns of incidence and variation of medical treatment options, comparisons of health care quality and performance, state and regional cost patterns, utilization of services, how healthcare dollars are being spent and health care research activities
- Reports generated by AID will be available to the public on a website

Initiative Sustainability

Initiative Sustainability

- Engaged with:
 - Department of Health
 - Bureau of Legislative Research
 - Medicaid Inspector General
 - Legislative leadership
 - Researchers (ACH, UAMS, etc.)
- Potential for:
 - Additional federal funding
 - Other private/public grant funding

Reports in Grant Period/Voluntary Submission

- Completed:
 - Arkansas Medicare HbA1c Utilization Report
 - Arkansas Medicare Provider Episode Report: Bilateral Cataract Removal with Lens Implant
 - Arkansas Medicare Chronic Conditions Report
- In development:
 - Arkansas Medicare Diabetes Report

Task Force Request

- Stephen Group analysis of Private Option (PO) health care needs questionnaire effectiveness
- Assess PO beneficiaries with top 10% of cost in qualified health plans
- Previously obtained directly from carriers
- Request is to obtain data from APCD

Arkansas Healthcare Transparency Initiative

Overview of AR HealthFacts Website

July 12, 2016

Agenda

- I. AR HealthFacts Website Overview
- II. AR HealthFacts Project Work Plan
- III. AR HealthFacts Site Wireframes
- IV. Next Steps

Overview of AR HealthFacts Website

Main Goal

- **The main goal** of the AR HealthFacts Website is to further the goals of the Arkansas Healthcare Transparency Initiative:
 1. Working alongside AID in developing the website;
 2. Looking for support and guidance from the Board on overall design and launch direction

Primary Tools

- **The beta version** of the site will include:
 1. **Learn About Community Healthcare:** Provides information about the disease burden, health outcomes, and access to care across Arkansas.
 2. **Find a Provider:** Provides facts about all Arkansas hospitals including their quality of care (to be expanded to all providers).
 3. **Medicaid Performance Dashboard:** A tool designed to illustrate differences in Medicaid system performance by region / eligibility category

Next Steps

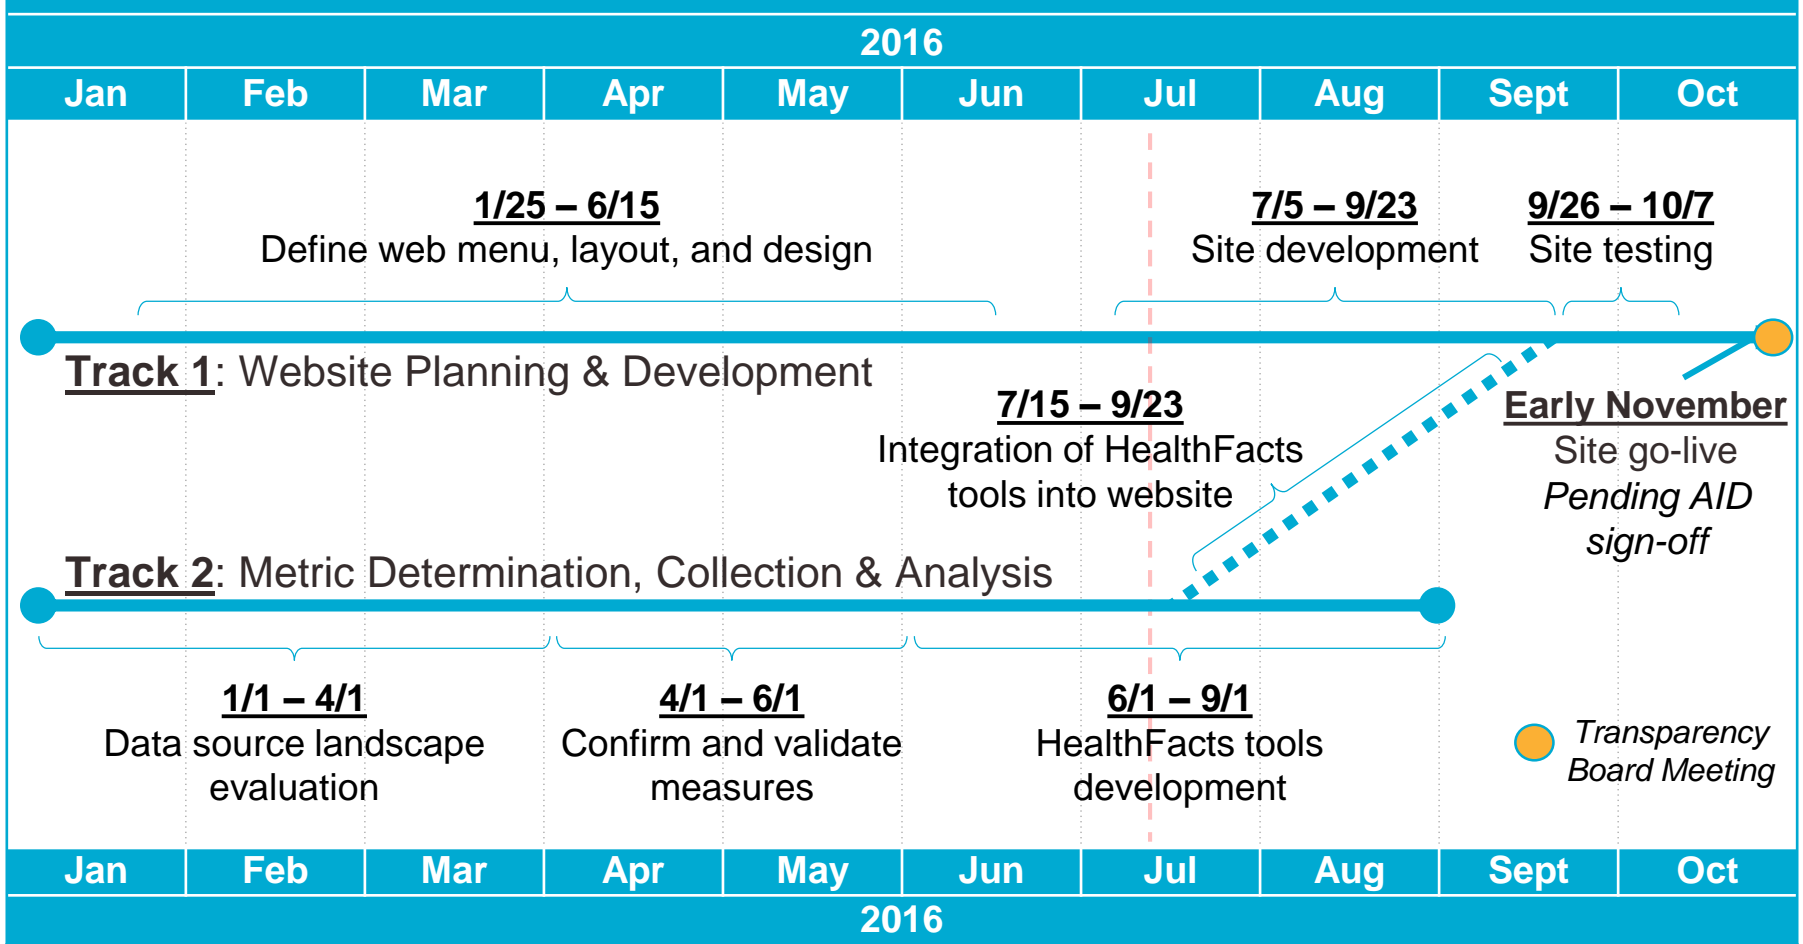

Back End Tool Preparation

Front End Web Development

- **Next steps** to complete before Go-Live include:
 1. **Back-End:** Production of web tools for integration into the ARHealthFacts web framework; and
 2. **Front-End:** Website design and final development in accordance with site map and technical specifications;
 3. **Continue** to seek support and guidance from the transparency board.

This tool was built as a part of the Arkansas Healthcare Transparency Initiative. This tool is part of a statewide effort to make the Arkansas health system more transparent, and to help patients and policymakers make informed decisions about the value that their health system offers.

Hospital Locator

There are 103 hospitals in and around the state of Arkansas, how are you supposed to know which one to go to? Are all hospitals the same? Do they provide the same services?

Use this page to compare any of the following facts across hospitals in and around your area. There are many different ways to compare hospitals using the information on this page, look for the facts that matters the most to you.

In an emergency, you should always go to the nearest emergency room. When you can plan ahead, discuss the information you find here with your health care provider to decide which hospital will best meet your health care needs.

Ongoing Management & Next Steps

AID, ACHI, and PCG remain in close alignment throughout site development and evaluation of content. Development has been managed through:

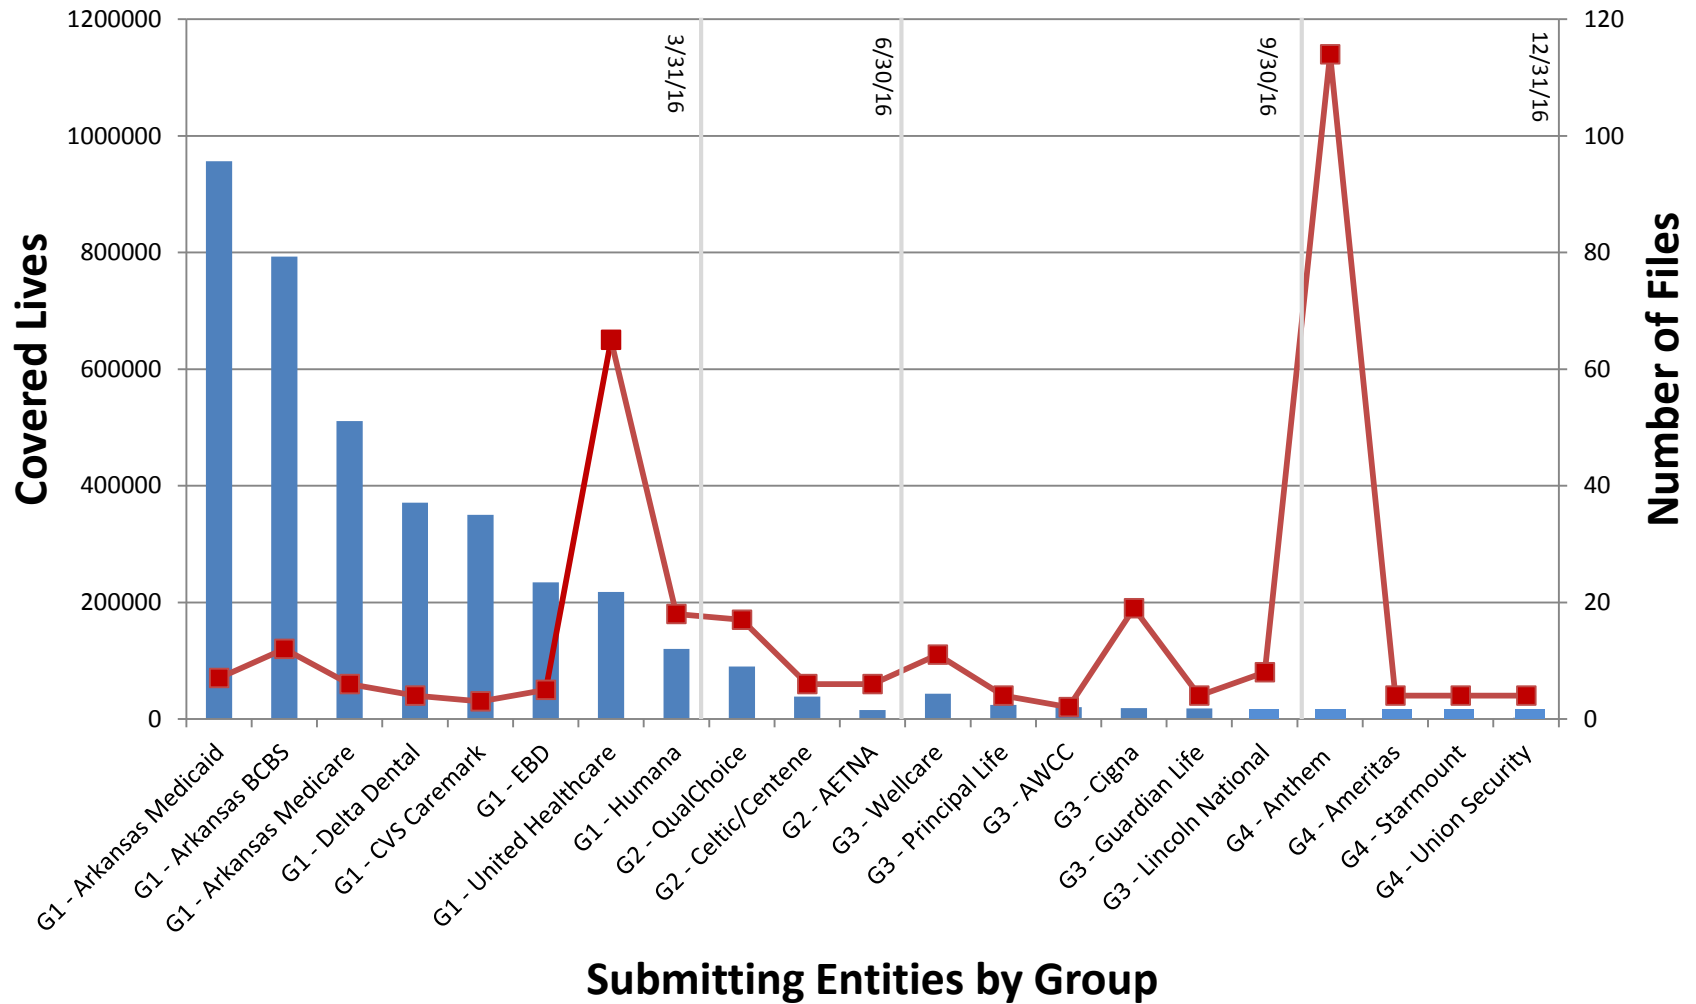

Next steps for continued development of AR HealthFacts include:

- Identify leaders within the Transparency Board who are primary points of contact
- Finalize site development logistics with web development team;
- Finalizing functionality of tools currently in beta
- Developing final use cases and perform testing

www.publicconsultinggroup.com

Data Intake Status

Data Submission Guide

- Provides submitting entities with:
 - Data variables
 - Data submission and format requirements
 - Encryption protocols
 - Web portal onboarding process
 - Data exception process

Data Submission Guide

- DSG publication timeline
 - Initial publication for mandatory data submission - Version 4.1.2015, November 2, 2015
 - Technical update supplement 1 - December 31, 2015
 - Technical update supplement 2 – February 29, 2016
 - Version 5.0.2017 is scheduled to be published in December 1, 2016 (allowing submitting entities 120 days for process enhancement)

Data Submission Guide: Rule Requirements

- DSG Publication Process – Rule 100
 - Submitting entities have a 30-day comment period on DSG revisions
 - Initiative Board will review post-submitting entity comment period
 - Commissioner will review and approve post-Initiative Board approval
 - DSG Version 5.0.2017 will be published

Data Submission Guide: Review Schedule

- Submitting entity comment period expected to begin August 1, 2016
- Initiative Board review expected to begin September 1, 2016
- Commissioner review and approval expected to begin October 1, 2016
- ACHI will begin final changes and editing November 1, 2016
- DSG Version 5.0.2017 expected to be published December 1, 2016

Data Submission Guide: What's New

- Recommended Versioning Guidelines
 - Multiple prescribed approaches
 - Custom approach
- New fields to accommodate versioning
- New fields identified through the initial build
 - Additional Diagnosis Pointer Codes
 - Replacement appendices
- Added and reorganized examples throughout
 - Submission Grouping
 - Header and trailer records
 - Control Counts/Lookup files

Data Submission Guide: What's Changed

- Field names
 - Claim Line Type to Claim Status
 - Former Claim Number to Original Claim Number
- File encryption information – specifying that the tool is recommended not required
- Redesigned Data Validation Section, adding data validation check points
- Update data exception process section to accommodate upcoming online exception process
- Threshold changes, dependency changes, and required status

Meeting Schedule
