

# ARKANSAS HEALTHCARE TRANSPARENCY INITIATIVE – ARKANSAS APCD DATA SUBMISSION GUIDE

December 1, 2018

Version: 7.0.2019

# **RELEASE NOTES**

The changes documented in this updated version of the Arkansas All-Payer Claims Database (APCD) Data Submission Guide (DSG) are the result of a year of collaboration between the Arkansas Insurance Department (AID), the Arkansas APCD authority; the Arkansas Center for Health Improvement (ACHI), the Arkansas APCD administrator, and submitting entities.

#### Major changes include:

- New Pharmacy Fields Data elements were added to include the Generic Product Identifier (GPI)
  number, as well as new currency fields that capture additional payment information for improved cost
  and utilization analyses.
- New Dental Fields New fields were added to capture tooth surface, tooth number, and dental
  quadrant information. These data were previously captured as free text, requiring additional
  programming to separate values. The new fields will enable fixed field identification of the tooth
  surface, tooth number, and dental quadrant values.
- Supplemental Payment Data Submission requirements for Medicaid Supplemental Payment data
  have been added. This requirement applies only to Arkansas Medicaid. File type codes, file naming
  structures, and provisions for future submission design are included.
- Versioning Validation A validation process has been added to provide data integrity files for submitting entities to use for addressing versioning issues.
- Consistent Value Requirements Added a requirement to ensure consistent format, values, and length of key member/subscriber data elements across all file types.
- Exception Request Carry-over Added wording to describe exception request carry over requirements between DSGs
- Provider Name Placement Added instructions for the placement of provider middle name or last name suffix information.

#### Other changes include:

- Updated the responses to several FAQs.
- Added Annual registration requirement.
- Updated the field lengths and/or formats of several data elements to better capture and maintain the data received.
- Reworded currency fields to clarify definitions.
- Clarified the ISO country code value requirement, specifying a three-digit number.
- Removed option that allows nulls instead of a date filler of '9999-12-31'.

# Be sure to review the Revision History for a detailed list of changes and additions.

Submitting entities who have already submitted historical data files as of calendar years 2013-2018 do <u>not</u> have to resubmit historical data with these new fields. The Arkansas APCD team will execute the necessary data transformation processes to add these fields to the historical data already received. These changes are required as part of the quarterly data submissions to be received March 31, 2019.

The Revision History contains a complete list of all changes made for the latest DSG version.

Finally, the Arkansas APCD team extends an enormous thank you to AID and the submitting entities for their patience, input, and participation. All input and feedback is welcome!

# **REVISION HISTORY**

| Version  | CHANGE<br>MGMT.<br># | DATE     | Owner | DESCRIPTION  | PAGE NUMBER                           |

| 7.0.2019 | 0                    | 7/1/2018 | ACHI  | <b>UPDATED</b> – Replaced references to DSG 6.0.2018 with DSG 7.0.2019.  | 49, 52, 62, 74,<br>101, 118, 137, 143 |
| 7.0.2019 | 1                    | 7/1/2018 | ACHI  | NEW – Addition of new data type: Medicaid Supplemental Payment requirements  | 1, 2, 27, 28, 29,<br>35, 39, 59, 145  |
| 7.0.2019 | 2                    | 7/1/2018 | ACHI  | UPDATED – Transitioned requirement to DSG 7.0.2019 from DSG 6.0.2018.  | 2                                     |
| 7.0.2019 | 3                    | 7/1/2018 | ACHI  | UPDATED – Replaced technical support email and phone number.   | 5, 9                                  |
| 7.0.2019 | 4                    | 7/1/2018 | ACHI  | <b>NEW</b> – Added information supporting self-insured employer data submission.   | 15                                    |
| 7.0.2019 | 5                    | 7/1/2018 | ACHI  | NEW – Added requirement to ensure consistent formats and lengths of Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID across all files.  | 16, 20, 22, 24                        |
| 7.0.2019 | 6                    | 7/1/2018 | ACHI  | NEW – Added requirement to ensure consistent values in<br>Member Date of Birth and the Subscriber Date of Birth<br>between member and claims data.   | 16, 20, 22, 24                        |
| 7.0.2019 | 7                    | 7/1/2018 | ACHI  | <b>NEW</b> – Added requirement to ensure consistent formats, values, and lengths of key member/subscriber fields across all files.   | 16, 20, 22, 24                        |
| 7.0.2019 | 8                    | 7/1/2018 | ACHI  | <b>UPDATED</b> – Updated description to include plans that end before the submission dates.  | 18                                    |
| 7.0.2019 | 9                    | 7/1/2018 | ACHI  | UPDATED – Added clarification to test data requirements.   | 29                                    |
| 7.0.2019 | 10                   | 7/1/2018 | ACHI  | <b>NEW</b> – Addition of exception request carry over between DSGs.  | 37                                    |
| 7.0.2019 | 11                   | 7/1/2018 | ACHI  | UPDATED – Reworded section, adding control count row references.   |                                       |
| 7.0.2019 | 12                   | 7/1/2018 | ACHI  | UPDATED – Added SUPL to file name instructions. 39   |                                       |
| 7.0.2019 | 13                   | 7/1/2018 | ACHI  | UPDATED – Aligned examples to represent the same quarter. 39   |                                       |
| 7.0.2019 | 14                   | 7/1/2018 | ACHI  |  |                                       |
| 7.0.2019 | 15                   | 7/1/2018 | ACHI  | UPDATED – Corrected fields in example row to align with example header.  | 49, 62, 137                           |
| 7.0.2019 | 16                   | 7/1/2018 | АСНІ  | UPDATED – Data element format and/or length change.  ME002 - changed length to 30 ME010 - changed format to int and length to 3 MC002 - changed length to 30 MC005A - changed length to 35 MC005B - changed format to unsigned int MC009 - changed format to int and length to 3 PC002 - changed length to 30 PC005A - changed length to 35 PC009 - changed format to unsigned int PC009 - changed format to unsigned int PC009 - changed format to int and length to 3 DC002 - changed data type from Numeric to Integer and length to 30 DC005A - changed length to 35 | 63, 64, 75, 76,<br>102, 103, 119, 120 |

| Version  | CHANGE<br>MGMT.<br># | DATE     | Owner | DESCRIPTION   | PAGE NUMBER                           |
|----------|----------------------|----------|-------|---|---------------------------------------|
|          |                      |          |       | DC005B - changed format to unsigned int<br>DC009 - changed format to int and length to 3<br>DC047 - changed length to 128   |                                       |
| 7.0.2019 | 17                   | 7/1/2018 | ACHI  | UPDATED – Removed option that allows nulls instead of date filler of "9999-12-31". Always use "9999-12-31" when no date is available.   | 70                                    |
| 7.0.2019 | 18                   | 7/1/2018 | ACHI  | UPDATED – Added requirement for field to be continuously populated after system change triggers ID change.  | 71, 99, 112, 113,<br>127              |
| 7.0.2019 | 19                   | 7/1/2018 | ACHI  | <b>UPDATED</b> – Revised from Optional to Required field with 99% threshold. Added provider file requirement.   | 77                                    |
| 7.0.2019 | 20                   | 7/1/2018 | ACHI  | <b>NEW</b> – Added instructions for placement of provider middle name or last name suffix information.  | 78, 86, 94                            |
| 7.0.2019 | 21                   | 7/1/2018 | ACHI  | UPDATED – Clarified leading zero requirement for values. Changed format from varchar to char.   | 80                                    |
| 7.0.2019 | 22                   | 7/1/2018 | ACHI  | UPDATED – Added clarifying information to definition.  Charge Amount - MC062, PC035, DC037 Paid Amount - MC063 Ingredient Cost/List Price - PC037 Copay Amount - PC040 Coinsurance Amount - MC066, PC041, DC040 Deductible Amount - MC067, PC042, DC041 Allowed Amount - MC098, DC046 | 83, 84, 85, 87,<br>105, 106, 122, 123 |
| 7.0.2019 | 23                   | 7/1/2018 | ACHI  | <b>UPDATED</b> – Added additional values to example.  | 104                                   |
| 7.0.2019 | 24                   | 7/1/2018 | ACHI  | <b>NEW</b> – New fields added to support new and ongoing analyses for the State of Arkansas.  | 113, 128                              |
| 7.0.2019 | 25                   | 7/1/2018 | ACHI  | UPDATED – Included specific ISO country code format requirement. 139, 140   |                                       |
| 7.0.2019 | 26                   | 7/1/2018 | ACHI  | UPDATED – Replaced fields DC047, DC048, and DC049 with placeholders. These fields are being replaced with the new fields beginning on page 132.   |                                       |
| 7.0.2019 | 27                   | 7/1/2018 | ACHI  | UPDATED – Removed references to fields DC047, DC048, and DC049. These fields are being replaced with the new fields beginning on page 132.  | 211                                   |
| 7.0.2019 | 28                   | 7/1/2018 | ACHI  | <b>NEW</b> – Updated registration information for annual requirement.   | 4                                     |
| 7.0.2019 | 29                   | 7/1/2018 | ACHI  | UPDATED – Updated information in FAQ.   | 6, 7, 8, 9                            |
| 7.0.2019 | 30                   | 7/1/2018 | ACHI  | UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.   |                                       |
| 7.0.2019 | 31                   | 7/1/2018 | ACHI  | UPDATED – The appendix value XX was added without consideration of data element type or format. XX will be replaced with 00.  |                                       |
| 7.0.2019 | 32                   | 7/1/2018 | ACHI  | <b>NEW</b> – Information on proposed versioning validation process with submitting entities.  | 37, 151                               |

This is a dynamic document that will be reviewed and updated on an ongoing basis. Each change will be recorded in the Revision History section.

# **GLOSSARY OF TERMS**

| Term                                | Definition   |
|-------------------------------------|--|
| ACHI                                | Arkansas Center for Health Improvement   |
| The Act                             | Act 1233 of 2015 of the Arkansas 90 <sup>th</sup> General Assembly, also known as the "Arkansas Healthcare Transparency Initiative Act of 2015"  |
| AID                                 | Arkansas Insurance Department  |
| APCD                                | Arkansas All-Payer Claims Database   |
| Checksum                            | A count of the number of bits in a transmission unit that is included with the data file for APCD Data Intake verification   |
| CMS                                 | Centers for Medicare and Medicaid Services   |
| Detached signature file             | A digital signature certifies and timestamps files submitted as part of the APCD Data Intake process   |
| DLZ                                 | APCD Data Landing Zone: the secure infrastructure that receives encrypted data pulled from the APCD Secure File Transfer Protocol (SFTP) site  |
| DRG                                 | Diagnosis Related Group: a statistical system of classifying any inpatient stay information into groups for the purpose of payment   |
| DSG                                 | APCD Data Submission Guide   |
| Encounter Data                      | Services rendered for managed care organizations and risk-based provider organizations.  These services will be submitted in medical, pharmacy, or dental claim format.  |
| HIE                                 | Arkansas Health Insurance Exchange   |
| HIPAA                               | Health Insurance Portability and Accountability Act of 1996  |
| HIRRD                               | Health Insurance Rate Review Division of AID   |
| MIME-type                           | Multipurpose Internet Mail Extensions type   |
| NAIC Suffix                         | A single alpha character used with an NAIC code to represent different data systems providing data for the same NAIC company code  |
| NPI                                 | National Provider Identifier: a unique identification number for covered healthcare providers  |
| Onboarding                          | The process to enable data file submission for submitting entities, which includes web portal assignment and activation, encryption key exchange and protocols, and data submission guidelines   |
| Provider                            | A person or entity — including physicians, nurse practitioners, and physician assistants — that render medical care  |
| Rule 100 <sup>1</sup><br>(the Rule) | AID guidelines for the submission of medical, dental, and pharmacy claims, unique identifiers and geographic and demographic information for covered individuals, and provider files to the Arkansas Healthcare Transparency Initiative for the purpose of creating and maintaining a multi-payer claims database as a source of healthcare information to support consumers, researchers, and policymakers in healthcare decisions within the state |
| SFTP                                | Secure File Transfer Protocol  |
| Submitting Entity                   | Entity required to submit data per in Act 1233 of 2015   |

 $<sup>^1</sup>$  "Rule 100: Arkansas Healthcare Transparency Initiative Standards." Arkansas Insurance Department Rule 100 is issued pursuant to Act 1233 of 2015 of the Arkansas 90th General Assembly, also known as the "Arkansas Healthcare Transparency Initiative Act of 2015."

# **OVERVIEW**

Access to timely, accurate, and relevant data is essential to improving quality, mitigating costs, and promoting transparency and efficiency in the healthcare delivery system. Pursuant to the Arkansas Healthcare Transparency Initiative of 2015, <sup>2</sup> the Arkansas Center for Health Improvement (ACHI), or the "Administrator," is hosting a comprehensive All-Payer Claims Database (APCD) on behalf of the Arkansas Insurance Department (AID) that houses member enrollment data, medical claims, pharmacy claims, dental claims, and provider data. As noted in Arkansas Insurance Department Rule 100 (the "Rule"), the Arkansas Healthcare Transparency Initiative - Arkansas APCD Data Submission Guide (DSG) establishes file requirements, which dictates how submitting entities must develop data files for either voluntary or mandatory data submission.

The DSG is a dynamic document that will be reviewed and updated on an ongoing basis. Proposed changes to the DSG will be implemented according to the specifications in the Rule.

### Steps for New Submitting Entities

New submitting entities will execute the following steps to participate in the Arkansas APCD.

- Register with AID. Registration information can be found on the Arkansas APCD website, at arkansasapcd.net.
- Review the Arkansas APCD Data Submission Guide (DSG) and onboarding materials from the Arkansas APCD website.
- 3. Receive web portal access from Arkansas APCD Technical Support for data submission.
- 4. Develop data feeds based on Arkansas APCD DSG requirements contained within this document.
- Execute testing, addressing data validation issues identified by the Arkansas APCD Technical Support team.
- 6. Submit production data. See <u>Submission Schedule</u> section.

#### Data Requirements

Submitting entities must provide specified data categories in the timeframes required, unless granted an exemption pursuant to the Rule.

#### Required Data Categories

- Member Enrollment Data (ME)
- Medical Claims (MC)
- Pharmacy Claims (PC)
- Dental Claims (DC)
- Provider Data (PV)
- Lookup Data (LU)
- Arkansas Medicaid Supplemental Payment Data (SP)

Commented [A1]: Revision 1: NEW - Addition of new data type – Medicaid Supplemental Payment requirements

<sup>&</sup>lt;sup>2</sup> Act 1233 of 2015

Data file layouts, data element descriptions, and other relevant data submission information for the data categories are provided in the Arkansas APCD DSG. Data categories include information about how data files should be constructed and updated over time. Data submission requirement information explains data file packaging, submission protocols, encryption requirements, and submission grouping. File layouts and data element requirements are included in Exhibit A, with encryption and claims versioning described in Exhibits B and C.

Previous DSG versions — including 4.1.2015, 5.0.2015, 5.1.2015, and 6.0.2018 — are no longer being used. As of March 31, 2018, all submissions must be made in the format outlined in Arkansas APCD DSG version 7.0.2019, until a new version is released and becomes the new standard.

If a submitting entity cannot meet the requirements outlined in the DSG, a data exception should be filed. A data exception process, relating to the submission of specific data elements defined in the DSG, is described herein. This exception process is distinct from the exemption process defined in the Rule.

Data submission requirements include the following:

- Submitting entities must provide data in the layouts defined in Exhibit A Data Elements.
- Data element values must be provided based on DSG definitions including value requirements and threshold requirements.
- Data exception requests must be submitted to the APCD Technical Support team for data elements or
  values that cannot be supplied as defined in the DSG.
- Data exceptions must be approved in writing by the APCD Technical Support team.
- Submitting entities must provide lookup tables for data elements values where specified.

The dataset formats in Exhibit A – Data Elements, created by the APCD Administrator were developed in compliance with the Act and were identified after careful review of APCD layouts used in other states, APCD Council guidance, and the APCD Council's Core Set of Data Elements.<sup>3</sup> The Administrator selected formats and variables that (1) conform to the minimum standard APCD core layout provided by the APCD Council; (2) include the data elements required for health system analytics and consumer data reporting; and (3) facilitate healthcare data transparency in Arkansas.

Each data element is represented by a Data Element Identifier (Data Element ID) comprised of the two-character data category abbreviation — ME, MC, PC, DC, PV, LU, or SP — and a three to five character value such as 001, 025A, 161A, and 058EA. Data elements are referred to by their Data Element ID throughout the DSG (e.g., ME001, MC001, ME161A, and MC058EA). This naming convention aligns with standards defined by the United States Health Information Knowledgebase.<sup>4</sup>

**Commented [A2]:** Revision 2: **UPDATED -** Transitioned requirement to 7.0.2019 from 6.0.2018.

<sup>&</sup>lt;sup>4</sup> "United States Health Information Knowledgebase." Accessed at http://ushik.org/mdr/portals/.

# **Onboarding Documentation Requirements**

Submitting entities should provide the following documentation during the onboarding process:

- Submitting Entity Data Dictionary/Codebook Internal system data elements mapped to the DSGdefined data elements.
- Extract Specifications Detailed description of how the data extracts were created.
- Claims Processing Information Overview of how the submitting entity processes claims. This
  information will enable the APCD Development team to understand the origin of the data to inform
  integration with other submitting entities' data.

#### Submission Schedule

Submitting entities will submit data as outlined in Appendix A of <u>Rule 100</u>. This section of the DSG provides supporting information for submitting entities required to submit data to the Arkansas APCD in post-2015 calendar years.

- Historical and ongoing data submission requirements for the initial APCD build in 2016 are outlined in Appendix A of <u>Rule 100</u>. Submitting entities already submitting data to the Arkansas APCD <u>must</u> register annually. If a submitting entity discovers that they were subject to the rule and did not register as required in <u>Rule 100</u>, they should register as soon as possible and are subject to the required historical submission of adjudicated data.
- Submitting entities becoming subject to <u>Rule 100</u> requirements after December 31, 2015, must follow
  this process:
  - Register with the Arkansas APCD between January 1 and March 31 of the year subsequent to the applicable year in which the entity became subject to <u>Rule 100</u> requirements.
    - For example, if an entity met the 2,000+ covered individual threshold in 2016, the entity would register between January 1 and March 31, 2017. The registration year is 2017.
  - Execute test data submission by the end of Q2 (defined in Appendix A of <u>Rule 100</u>) of the registration year.
    - In other words, if the registration year of a submitting entity is 2017, the entity should test data submission (using test files described in the <u>Test Data</u> section) by the end of Q2, June 30, 2017.
  - Submit required data by end of Q3 (defined in Appendix A of <u>Rule 100</u>) of the registration year.
     Required data includes the previous three years of historical paid claims data ending with the applicable year in which the entity became subject to <u>Rule 100</u> requirements.
    - For example, required data for initial data delivery would include all data from January 1, 2014, through December 31, 2016, and would be delivered at the end of Q3, September 30, 2017.
  - Submit catch-up data (January 1 through September 30 of the registration year) at the end of Q4 (defined in Appendix A of Rule 100) of the registration year.
    - Continuing with the previous example, the submitting entity would submit data for January 1, 2017, through September 30, 2017, by December 31, 2017.
  - If the entity remains subject to <u>Rule 100</u> at the end of the registration year, regular quarterly data submission will begin in Q1 (March 31) of the following year to align with the schedule in Appendix A of <u>Rule 100</u>.

Note: The timelines and requirements for catch-up and regular quarterly submission apply so long as the entity remains subject to data submission requirements as a "submitting entity," as defined by Rule 100.

Commented [A4]: Revision 28: NEW – Updated registration information for annual requirement.

# **APCD Technical Support**

Visit the <u>Frequently Asked Questions</u> section within this guide if you have questions. If you still have questions or concerns, direct them to the APCD Technical Support team. See contact information below.

Technical support is available to all submitting entities and data users. Issues are logged and tracked upon notification of the APCD Technical Support team. The APCD Technical Support team will provide regular feedback during the resolution process.

#### **Hours of Operation:**

Monday through Friday, 9 a.m. - 4 p.m. Central Time (excluding state and federal holidays).

Report issues by emailing a detailed message, including your contact information to initiate the resolution process. The APCD Technical Support team will respond to your reported issue as soon as possible.

#### **APCD Technical Support Contact Information:**

Phone: (501) 526-2244

Commented [A5]: Revision 3: UPDATED - Replaced technical support email and phone number.

# FREQUENTLY ASKED QUESTIONS

|    | Question  | Answer  |
|----|---|---|
| 1  | How often are files submitted to the Arkansas APCD?   | Data submission occurs according to the schedule in Rule 100, Appendix A. See Submission Schedule.  |
| 2  | Is the hashed unique identifier,<br>ME998, required if the Carrier<br>Specific Unique Member ID is<br>included in the data?                         | Yes. The hashed unique identifier, ME998, represents the member across products, plans, and enrollment dates. The Carrier Specific Unique Member ID can change based on member activity.  |
| 3  | Fields on enrollment data appear to be similar to those collected on the medical claims, pharmacy claims, and dental claims files. Can you clarify? | Many elements in the data files use similar wording and some are duplicates. These fields on the claims files must be submitted to allow the data to be joined across tables.   |
| 4  | What might cause a member to have more than one enrollment record per month?  | A member will have more than one enrollment record when they are enrolled in more than one product, have secondary coverage, have a break in enrollment, or have multiple active primary care provider (PCP) assignments within a reporting period. Accurate enrollment data are needed to calculate member months by product and provider. |
| 5  | If the submitting entity is not a risk holder, many elements do not apply. Should this be handled using an exception request?                       | Yes. When a submission is coming from a non-risk holder (e.g., TPA, claims processer, pharmacy benefits manager, device benefit manager, etc.), several elements may not be available to report. A data exception should be submitted to identify each unavailable element. See <a href="Data Exceptions">Data Exceptions</a> .             |
| 6  | Are denied claims required in the APCD?   | No. Denied claims are not required for the APCD at this time.   |
| 7  | Are claims that are paid under<br>a "global payment" or<br>"capitated payment" (thus,<br>zero paid) reported in the<br>Arkansas APCD?               | Yes. Any medical claim that is considered "paid" by the submitting entity will appear in the appropriate claims file. "Paid amount" is reported as zero (0), and the corresponding allowed contractual and deductible amounts are calculated accordingly by the submitting entity.  |
| 8  | Will claim versioning be included in the APCD processes?  | Adjustments and versioning processes are not required for the initial historical or required submission of data files to the Arkansas APCD. Ongoing quarterly submissions must comply with one of the versioning options described in <a href="Exhibit C - APCD Claims Versioning">Exhibit C - APCD Claims Versioning</a> .                 |
| 9  | Are APCD data to be encrypted?  | All Arkansas APCD data files must be encrypted before submission. The APCD team will provide encryption protocols to each submitting entity for file level encryption. See <a href="Encryption Requirements">Encryption Requirements</a> for more information.  |
| 10 | How many fields have to fail the data validation checks for data file submission failure?   | A submitted file will fail at the file level if any one required data element fails validation.   |
| 11 | Whom should I contact if I have questions about the APCD or DSG?  | Questions concerning APCD data should be directed to the APCD Technical Support team. APCD Technical Support information is listed in the APCD Technical Support section.   |

**Commented [A6]:** Revision 29: **UPDATE** – Updated information in FAQ.

|    | Question  | Answer   |   |
|----|---|--|---|
| 12 | When will DSG revisions be published?   | Material changes to the Arkansas APCD Data Submission Guide will be published by December of each year, with required submission changes due for the following March submission. Technical changes can be published at any time. Material and technical changes are defined in Rule 100.   | Commented [A7]: Revision 29: UPDATE – Updated information in FAQ. |
| 13 | Where is the data encrypted?  | All submitted data files are encrypted in motion and at rest in the APCD processes. Direct identifiers are transformed into meaningless strings of numbers and letters within the encrypted files.   |   |
| 14 | Should the member ID and/or subscriber ID be masked by the submitting entity prior to submission? | The member ID should be masked prior to submission to the APCD and mapped to the Carrier Specific Unique Member ID. The subscriber ID should be masked prior to submission to the APCD and mapped to the Carrier Specific Unique Subscriber ID.  |   |
|    |   | Masking should be consistent across all data submissions so the masked values representing the member ID and subscriber ID do not change. Carrier Specific Unique Member IDs and Carrier Specific Unique Subscriber IDs must also be consistent between PBMs, TPAs and their associated submitting entities.   | Commented [A8]: Revision 29: UPDATE – Updated information in FAQ. |
| 15 | Do medical claims, pharmacy claims, and dental claims files require an APCD unique identifier?    | No. The Carrier Specific Unique Member ID will be used to link medical claims, pharmacy claims, and dental claims together and to the enrollment or member data.   |   |
| 16 | What is the definition of an Arkansas resident?   | An "Arkansas resident" is an individual for whom a submitting entity has identified an Arkansas address as that individual's primary place of residence. For individuals covered by a student health plan, "Arkansas resident" means any student enrolled in a student plan for an Arkansas college or university, regardless of his or her address of record. |   |
| 17 | What is a submitting entity?  | "Submitting entity" is defined in Arkansas Insurance Department Rule 100 in Section 4(21).   |   |
| 18 | What entities are not considered an APCD submitting entity?                                       | "Submitting entity" does not include any entity that provides the following health insurance or health benefit plans: accident-only, specified disease, hospital indemnity and other fixed indemnity, long-term care, disability income, Medicare supplement, or other supplemental benefit coverage.  |   |
| 19 | How should county be determined?  | If county information is not available in your data, it is still required.  Determine the county based on street address and ZIP code and assign the county FIPS code for the APCD submission.   | <br>Commented [A9]: Revision 29: UPDATE – Updated information     |
| 20 | Can I access the Data<br>Submission Guide (DSG) Q&A<br>presentation?                              | Yes. <u>DSG slide presentations</u> are available on the Arkansas APCD website.  Note: The current presentation is for DSG version 6.0.2018. The presentation for DSG Version 7.0.2019 will be added later. Because different presentations will be available for each DSG version, be careful to select the information for the correct version.              | Commented [A10]: Revision 29: UPDATE – Updated                    |
| 21 | Are all versions of the Data<br>Submission Guide (DSG)<br>available online?                       | Yes. All versions of the DSG <u>are available on the website</u> . Older versions are archived separately.   | information in FAQ.   |

|    | Question  | Answer  |
|----|---|---|
| 22 | Are headers and trailers to be included in the actual data files, or are those separate   | Header and trailer records and control count records are included in the actual data files. See <u>Header and Trailer Records</u> .   |
| 23 | from the data files?  Are there any specific file formats/requirements for submitting lookup tables?  | Yes. See <u>Lookup Files</u> for more information.  |
| 24 | Should submitting entities include headers with the actual data element numbers?  | Yes. Submitting entities should include headers with the data element numbers.  |
| 25 | Where is the registration form available on the website?  | On the Arkansas APCD website, two registration forms are available — one for PBMs and another for TPAs — to utilize during the registration process. The APCD team created separate forms to streamline the two types of submitting entities. See Registration Forms on the APCD website.   |
| 26 | Are submitting entities required to complete a registration form before submitting an exception form or a file?   | Yes. A completed registration form should be submitted before completing an exception form or submitting data.  |
| 27 | If a submitting entity were both an issuer and a TPA, should the entity register twice?   | Yes. The submitting entity should register for each unique NAIC Company Code. This can be accomplished using one registration form.   |
| 28 | Where is the exemption form available?  | The exemption form is available on the APCD homepage. Please note that exemption forms should be submitted directly to the Arkansas Insurance Department, as noted in Bulletin No.: 17-2015. Additionally, an entity should complete a registration form prior to submitting an exemption request.  |
| 29 | How is the submitting threshold determined for submitting entities? For example, some submitting entities will have NAIC Company Codes that do not meet the 2,000 covered lives threshold.    | Because both the submitting entity and the covered lives threshold is determined at the Group Code level, submission is determined by the total covered lives of all individual NAIC Company Codes that fall under the Group Code. Please refer to Arkansas Insurance Department Rule 100.  |
| 30 | How are entity codes assigned for TPAs and PBMs, which do not have NAIC Company Codes?  | The APCD Technical Support team will assign a five- to six-digit alphanumeric entity code in such cases.  |
| 31 | According to the DSG, there is<br>a 300 MB limit for each file<br>that will be uploaded to the<br>APCD Web Portal. What does a<br>submitting entity do if the file<br>size exceeds the limit? | The Data Submission Guide provides instructions for naming files in the event that submitting entities must send the files in pieces. The APCD data intake process is designed to receive and move a submitting entity's data as soon as possible in an attempt to prevent data overload. In addition, encryption of all files will make each file smaller. If there are problems submitting the data in pieces, the APCD Technical Support team will work with submitting entities to submit the data. |

Commented [A11]: Revision 29: UPDATE – Updated information in FAQ.

**Commented [A12]:** Revision 29: **UPDATE** – Updated information in FAQ.

|    | Question   | Answer   |
|----|--|--|
| 32 | Can a submitting entity bypass<br>the APCD Web Portal and<br>instead submit directly via<br>sFTP server?                         | No, the submitting entity can work directly with the Arkansas APCD Technical Support team to request access to a direct sFTP solution.   |
| 33 | If a submitting entity cannot meet the required submission deadline, should the entity submit an exception or an exemption form? | If a submitting entity is unable to meet a submission deadline, the entity must submit an <b>exemption</b> form. The exemption form was delivered via a bulletin distributed by the Arkansas Insurance Department. It is also located on the <u>Arkansas APCD homepage</u> .  Note: Exception forms are to be used for data elements and/or data file types unavailable by the submitting entity for submission to the APCD. |
| 34 | When will the APCD team send usernames and temporary passwords to submitting entities?   | The APCD team will send usernames and temporary passwords for APCD Web Portal access one to two business days after registration.  |
| 35 | What is the readiness audit and what is its purpose?   | The readiness audit is the process by which the submitting entity prepares a sample data file, tests web portal access, tests encryption, and tests automated data submission.   |
| 36 | Can the Arkansas APCD team<br>share hashing instructions<br>and/or code prior to execution<br>of the readiness audit?            | Yes. Please contact the Arkansas APCD team to request unique ID hashing instructions. If you would like to see code samples, please send your request to <a href="mailto:support@achiapcd.atlassian.net">support@achiapcd.atlassian.net</a> . Sample code is available for JAVA, Python, SQL and C Sharp.  |
| 37 | What are control counts and what are they used for?  | Each submitting entity shall provide control counts with data feeds to support baseline validation and benchmarking. See the Control Count section.  |
| 38 | When do submitting entities have to submit RSA and DSA public keys?  | RSA and DSA public keys should be submitted after registration. The submission of these keys will trigger the readiness audit and test file submission as outlined in the Onboarding Instructions on the <u>Arkansas APCD homepage</u> .   |
| 39 | Can submitting entities submit test files before exchanging keys with the Arkansas APCD?   | Test files cannot be submitted before keys are exchanged. The APCD Technical Support team will not be able to decrypt the data files without the keys.   |
| 40 | Do all test files have to pass before submitting production data?  | Yes. All test files must pass data validation before production files can be submitted.  |
| 41 | Other states do not require the<br>RSA public key. Why must a<br>DSA public key be submitted,<br>too?                            | The Arkansas APCD solution utilizes both RSA and DSA keys for an added layer of security. Some data could be considered personal health information. Using a DSA key adds additional security to the data as it is transferred to ACHI.  |
| 42 | Can we use our RSA public key to encrypt our data?   | No. You must use the APCD RSA key to encrypt your data files.  |
| 43 | Can we resubmit files before receiving a data validation report?   | It is not recommended. If files must be resubmitted, notify the APCD Technical Support team so that they can manage the report production.   |

**Commented [A13]:** Revision 29: **UPDATE** – Updated information in FAQ.

Commented [A14]: Revision 3: UPDATED - Replaced technical support email and phone number.

|    | Question   | Answer  |
|----|--|---|
|    | Question   |   |
| 44 | Our encryption is IPSwitch<br>Professional which does not<br>create a detached signature<br>file. Can we opt out of sending<br>a detached signature file?  | No. The Arkansas APCD data intake automation process requires a detached signature file. The DSG includes a section with recommended no-cost encryption options. See <a href="Exhibit B - Encryption Protocols">Exhibit B - Encryption Protocols</a> .                                      |
| 45 | What archiving method and file name can we use?  | The submission package containing the encrypted and signed file and the detached signature must be in the .zip archive format and must have a .zip extension.   |
| 46 | Why won't my files upload in the APCD Web Portal?  | The upload process begins when the upload button is clicked. File upload progress and completion can be viewed in the Account History tab of the web portal.  |
| 47 | I submitted new exceptions and my old exceptions are no longer valid. Why is that?   | Revised exception requests overwrite previous requests. If only the new changes were submitted, the previously submitted exceptions would be deleted. It is important to resubmit all exceptions each time.   |
| 48 | Should the hashed value in ME998 only contain numbers?   | No. The hashed values must be 24 bytes long and contain numbers, letters, and special characters, but NOT quotation marks, commas, or pipes.  |
| 49 | How will ICD diagnosis and procedure codes be validated?   | The value in the ICD indicator column (MC915A) will be used in determining the code set to validate ICD diagnosis and procedure codes (e.g. MC041, MC042, MC058, etc.). The ICD columns will fail validation if the values do not match the code set specified by the ICD indicator column. |
| 50 | How will CPT and HCPC procedure codes be validated?  | The value in the procedure code type columns (MC130, DC130) will be used in determining the code set to validate CPT, CDT, and HCPC codes in MC055 and DC032. Validation will fail if the values do not match the code set specified by the procedure code type columns.                    |
| 51 | Where are the instructions for file encryption and key exchange?   | The instructions for encrypting data files to the Arkansas APCD standard are found on the Arkansas APCD website under <u>Training</u> .   |
| 52 | When should all submissions be in the new 7.0.2019 format?   | New and existing submitting entities should submit data in DSG version 7.0.2019 as of March 31, 2019. See <u>Submission Schedule</u> description.   |
| 53 | Are previously approved exemptions nullified when new DSG versions are released?   | No, unless the new version includes new requirements that resolve the issues resulting in an exemption. Under such a scenario, the submitting entity should reach out to AID to rescind the exemption as necessary.   |
| 54 | Is an exemption or exception required if the submitting entity cannot accommodate the Carrier Specific Unique Member ID and/or Carrier Specific Subscriber ID aliases that were added in DSG version 6.0.2018? | Submitting entities do not always know when these changes occur. If known, use the alias fields. If not, submit an exception using the Arkansas APCD online tool. An exemption is not required.   |

|    | Question   | Answer  |
|----|--|---|
| 55 | We would like to understand the example included for the quarterly submissions. This member seems to have a termination date of 2/28/2017. Does this mean that even if the member is not active in Q2, we should report him in the extracts and the member should be reported throughout the year of 2017? If so, any terminated or active members in the reporting year would be present in all the quarterly files we submit. Is this an accurate understanding? | It would be expected to see terminated members in the data for the quarter in which they terminate. In the example referenced, the termination is in Q1 and the data is submitted in Q2. No more data would be expected for this terminated member unless they re-enroll at a later time. If a member is active, the enrollment record should be included. Additional records would be added for that member if a change occurred (relationship status change, new plan purchased, disenrollment, ZIP Code change, etc.). If any field changes for the submitted member a new record is expected. |
| 56 | Should control count header<br>and trailer records be included<br>in the empty files?  | Yes. The DSG includes this requirement:  "If no data exists for a valid coverage period, an empty file should be submitted representing the coverage period. The empty file should contain the following rows: Header Header, Header Data, Control Header, Control Data, Data Header, Trailer Header, and Trailer Data. No Data Detail record should be sent."  |
| 57 | Can you provide more details about the meaning of "missing coverage period"? How does it correspond to the empty file submission?  Would this be applicable to our provider file?  | Coverage periods are contiguous days. For example, some carriers send data monthly, others quarterly. If a monthly submission is followed and no data is available for a month, then an empty dataset should be submitted for the missing month. For example, if June 2016 is missing from the Q2 submission, submit an empty dataset with 2016-06-01 to 2016-06-30 in coverage dates.  Provider files are complete replacements, therefore it would not apply.   |
| 58 | When would a negative value be used/expected for PC033 – Prescription Quantity?  | A negative value can be used for a return, void, or backout if the submitting entity's system uses these functions.   |
| 59 | The data elements listed for file types are not necessarily always in numerical order. Should the file submissions reflect the order of data elements as they are listed in the DSG or should they reflect the numerical order?  | Please submit in the order listed in the DSG. The ID column can be used to ensure the correct order.  |

|    | Question                      | Answer  |
|----|-------------------------------|---|
| 60 | How should last name and      | Differences in the formatting of last name can produce inconsistent hash ID     |
|    | date of birth be formatted    | values for the same member. Remove all generational suffixes (Jr., Sr., II,     |
|    | before executing the hashing  | Esq, etc.), Titles (Dr., PhD, etc.) and punctuation or spaces from the end of   |
|    | altorithm for ME998?          | the last name. Special characters that are part of the last name are            |
| ,  |                               | appropriate to include ( ', - , space between names if not hyphenated).         |
| 61 | How should last activity date | If the data source system has a last activity date (or a date that marks when a |
|    | (ME056) be determined?        | data component changed), this date should be used for ME056 only when           |
|    |                               | Arkansas APCD member data element changes or the member disenrolls              |
|    |                               | (then it should be the same date as ME163A). If a non-APCD field in the         |
|    |                               | source system changes, leave ME056 unchanged from previous submissions.         |
|    |                               | If this is the first submission, it would record the last change or             |
|    |                               | disenrollment, otherwise ME056 should remain null.                              |

#### **DATA CATEGORIES FOR SUBMISSION**

This section provides data submission requirements for each data category entity. Data submissions must meet the requirements herein.

Note: References to submitting entities are defined in the Act In the section below taken from the legislation. Also, references to "members" and "subscribers" within each data category are defined in the Act as "covered individuals."<sup>5</sup>

#### A.C.A. § 23-61-903

#### (9) (A) "Submitting entity" means:

- (i) An entity that provides health or dental insurance or a health or dental benefit plan in the state, including
  without limitation an insurance company, medical services plan, managed care organization, hospital plan,
  hospital medical service corporation, health maintenance organization, or fraternal benefit society, provided
  that the entity has covered individuals and the entity had at least two thousand (2,000) covered individuals in
  the previous calendar year;
- (ii) A health benefit plan offered or administered by or on behalf of the state or an agency or instrumentality of the state, including without limitation benefits administered by a managed care organization whether or not the managed care organization had two thousand (2,000) covered individuals in the previous year;
- (iii) A health benefit plan offered or administered by or on behalf of the federal government with the agreement of the federal government;
- (iv) The Workers' Compensation Commission;
- (v) Any other entity providing a plan of health insurance or health benefits subject to state insurance regulation,
  a third-party administrator, or a pharmacy benefits manager, provided that the entity has covered individuals
  and the entity had at least two thousand (2,000) covered individuals in the previous calendar year;
- (vi) A health benefit plan subject to the Employee Retirement Income Security Act of 1974, Pub. L. No. 93-406, and that is fully insured;
- (vii) A risk-based provider organization licensed by the State Insurance Department; and
- **(viii)** An entity that contracts with institutions of the Department of Correction or the Department of Community Correction to provide medical, dental, or pharmaceutical care to inmates.
  - o (B) "Submitting entity" does not include:
    - (i) An entity that provides health insurance or a health benefit plan that is accident-only, specified disease, hospital indemnity, long-term care, disability income, or other supplemental benefit coverage;
    - (ii) An employee of a welfare benefit plan as defined by federal law that is also a trust established pursuant to collective bargaining subject to the Labor Management Relations Act, 1947, Pub. L. No. 80-101; or
    - (iii) A health benefit plan subject to the Employee Retirement Income Security Act of 1974, Pub.
       L. No. 93-406, that is self-funded; and

ACHI • Arkansas Healthcare Transparency Initiative – Arkansas APCD Data Submission Guide • July 27, 2018

<sup>&</sup>lt;sup>5</sup> Act 1233 of 2015

# Self-Insured Employers

On March 1, 2016, the Supreme Court made a decision in the Gobeille vs. Liberty Mutual case prohibiting states from mandating the submission of health care claims from ERISA-based self-insured employers.

However, the Supreme Court decision DOES NOT prohibit voluntary submission of claims information from self-insured ERISA plans, and non-ERISA self-insured employers are still required to submit data according to the current Arkansas APCD Rule 100.

The Arkansas APCD recommends that ERISA-based self-insured employers submit their data to the Arkansas APCD. By including claims information, employers can identify ways to save costs and improve the health of their employees while enhancing healthcare transparency for the benefit of all Arkansans.

**Commented [A15]:** Revision 4: **NEW** – Added information supporting self-insured employer data submission.

#### **Enrollment Data**

#### **Required Submission Information**

- Submitting entities must provide a dataset for each submission period defined in <u>Rule 100</u>, that
  contains information on all covered and termed members who are Arkansas residents associated with
  subscribers holding certificates of coverage from submitting entities.
- "Arkansas resident" is defined per Rule 100 as an individual for whom a submitting entity has
  identified an Arkansas address as the individual's primary place of residence. For individuals covered
  by a student health plan, "Arkansas resident" means any student enrolled in a student plan for an
  Arkansas college or university, regardless of his or her address of record.
- Member data will include multiple records per individual. These records will represent when an
  individual became a member, made a change to an existing plan, changed plans, or disenrolled from
  any or all plans. Records should represent members by plan and coverage segment (plan dates of
  enrollment and disenrollment) for the purpose of understanding plan participation, identifying
  coverage terms, and tracking coverage gaps.

#### File Content

- All submitting entities are required to submit a member/enrollment/eligibility file.
- Files must include variables specified in Exhibit A Data Elements: Enrollment Data.
- Files must include information for members with and without claims.
- A submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should be masked prior to submission to the APCD. Masking should be consistent across data submissions so the masked value representing the Carrier Specific Unique Member ID and/or Carrier Specific Unique Subscriber ID does not change.
- A submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID
  should be consistent across submissions and over time. If a new system changes or alters Carrier Specific
  Unique Member IDs and/or Carrier Specific Subscriber IDs, utilize the Alias ID Member ID fields (see New
  Data Elements for Member Data) to maintain continuity.
- A submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should be of consistent length and format across all submitted data so that any record containing this information (ELG, CLM, PHM, DNT), the Carrier Specific Unique Member ID, and the Carrier Specific Unique Subscriber ID will match exactly.
- A submitting entity's Member Date of Birth and the Subscriber Date of Birth should match between the Member records and the Claims records. Any dates in these fields equaling 1900-01-01 or earlier are considered either incorrect or a system default date. Invalid or incorrect Member Date of Birth renders ME998 APCD Unique ID values as suspect.
- The following fields must match in format, length, and values across all coverage period submissions for the same Carrier Specific Unique Member ID: Member Suffix or Sequence Number or Person Code (ME010, MC009, PC009, DC009), Individual Relationship Code (ME012, MC011, PC011, DC011), Member Gender (ME013, MC012, PC012, DC012), and Subscriber Gender (ME151A, MC991, PC956, DC991).
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when
  data is present), Trailer Header, and Trailer Data record must be included, in order, with this file
  submission.
- Historical and ongoing data submission requirements are outlined in Appendix A of Rule 100.
- Historical/Initial Data Submission: Enrollment data submitted with the initial historical data feed must
  contain information for all members enrolled as of January 1 of the year that is three years prior to the

Commented [A16]: Revision 5: NEW – Added requirement to ensure consistent format and length of Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID across all files.

Commented [A17]: Revision 6: NEW – Added requirement to ensure consistent values in Member Date of Birth and the Subscriber Date of Birth between member and claims data.

Commented [A18]: Revision 7: NEW – Added requirement to ensure consistent format, values, and length of key member/subscriber fields across all files.

year of qualification for the Arkansas APCD. See <u>Submission Schedule</u> for more information and examples. Records will be submitted based on the following criteria:

- One record per individual per plan per coverage segment whose plan date of enrollment (ME162A) is before, on, or after January 1 of initial submission year, with a date of disenrollment (ME163A) on or after January 1 of initial submission year.
- o Include records for active and inactive plans within a specified date range.
- Use the most recent information for member records per plan, per coverage period.

# **Historical Data Submission Scenarios**

| <u>Member</u><br><u>No.</u> | <u>Enrollment Date</u> | <u>Disenrollment Date</u> | <u>Plan</u> | <u>Notes</u>  |
|-----------------------------|------------------------|---------------------------|-------------|---|
| 1                           | 1/1/2013               | 12/31/9999 (or null)      | ABC         | Original enrollment is 1/1/2013. Member is currently active.                  |
| 1                           | 11/1/2014              | 10/31/2015                | CXU         | Enrolled in plan for 12 months. Dis-enrolled.                                 |
| 2                           | 4/1/2014               | 12/31/9999 (or null)      | DEF         | Original enrollment is 4/1/2014. Member is currently active.                  |
| 3                           | 1/1/2013               | 6/30/2013                 | CXU         | Enrolled in plan for 6 months. Dis-enrolled.                                  |
| 3                           | 11/1/2013              | 10/31/2014                | CXU         | Re-enrolled in plan for 12 months. Dis-enrolled.                              |
| 3                           | 2/1/2015               | 2/28/2015                 | 123         | Enrolled in plan for 1 month. Dis-enrolled.                                   |
| 4                           | 11/1/2014              | 6/30/2015                 | 123         | Enrolled in plan for 8 months. Dis-enrolled.                                  |
| 5                           | 9/1/2015               | 12/31/9999 (or null)      | ABC         | Original enrollment is 9/1/2015. Member is currently active.                  |
| 5                           | 10/1/2015              | 12/31/9999 (or null)      | DEF         | Original enrollment for second plan is 10/1/2015. Member is currently active. |
| 6                           | 5/1/2014               | 4/30/2015                 | CXU         | Original enrollment is 5/1/2014. Disenrollment is 4/30/15.                    |
| 7                           | 8/1/2014               | 4/30/2015                 | 123X        | Original enrollment is 8/1/2014. Disenrollment is 4/30/15.                    |
| 8                           | 5/1/2014               | 12/31/9999 (or null)      | ABC         | Original enrollment is 5/1/2014. Member is currently active.                  |

- Ongoing, Periodic Submissions: Each enrollment file submitted should contain enrollment data representing member activity for the applicable time period. Records for ongoing, periodic submissions will be submitted based on the following criteria:
  - New members Records for individuals who become a member during the submission period
    as defined by Rule 100. The date of enrollment (ME162A) should represent the original date the
    member became active for a plan, and the date of disenrollment (ME163A) should be
    12/31/9999 or null.
  - Existing members with new plans Records for individuals who are current members who
    enroll in new plans. The date of enrollment (ME162A) should represent the date of enrollment
    and date of disenrollment (ME163A) should be 12/31/9999 or null if the plan is active at the
    time of data submission. If the plan is not active at the time of data submission, date of
    disenrollment (ME163A) should reflect the date the plan ended.
  - Existing members with changes within the existing plans Records for individuals who are current members and have made a change to their existing plan (e.g., ZIP Code change, marital status change, etc.). A new record should be submitted with the new changes. The date of enrollment (ME162A) should represent the date of enrollment (even if not in this submission period), and the date of disenrollment (ME163A) should be 12/31/9999 or null. The date of last activity (ME056) should contain the date the change was made.
  - Records should be provided for each change made in a submission period, with the last activity date representing when the change occurred. If multiple changes occurred on a single day, send the last changed record. The last activity date would reflect the date of that record change.
  - Dis-enrolled members Records for individuals who dis-enrolled during the quarter as defined by <u>Rule 100</u>. The date of disenrollment (ME163A) should be populated with the date of disenrollment. The date of last activity (ME056) should contain the date of disenrollment.
  - New records/data are not expected for active or inactive members with no change during the submission period.
  - o Use the most recent information for member records per plan, per coverage period

Commented [A19]: Revision 8: UPDATED – Updated description to include plans that end before the submission dates.

# **Quarterly Data Submission Scenarios**

| <u>Member</u> | <u>Plan</u>  | <u>Effective</u> | <u>Disenrollment</u>    | <u>Last Activity</u> | <u>Submission</u> | <u>Notes</u>   |  |  |  |  |  |
|---------------|--|------------------|-------------------------|----------------------|-------------------|--|--|--|--|--|--|
| <u>No.</u>    |  | <u>Date</u>      | <u>Date</u>             | <u>Date</u>          | <u>Quarter</u>    |  |  |  |  |  |  |
| 1             | ABC  | 1/1/2013         | 2/28/2017               | 2/28/2017            | Q2 2017           | Enrolled in plan from 1/1/2013. Dis-enrolled 2/28/2017.  |  |  |  |  |  |
| 2             | DEF  | 4/1/2014         | 12/31/9999 (or<br>null) | 3/1/2017             | Q2 2017           | Member record change for existing plan in March 2017.  |  |  |  |  |  |
| 3             | Currently inactive. No new record required unless member purchased new plan and can be linked to original member number. |                  |                         |                      |                   |  |  |  |  |  |  |
| 4             | Currently inactive. No new record required unless member purchased new plan and can be linked to original member number. |                  |                         |                      |                   |  |  |  |  |  |  |
| 5             | Plan 1 – Plan is currently active. No new record required unless change occurred.  |                  |                         |                      |                   |  |  |  |  |  |  |
| 5             | Plan 2 – Plan is currently active. No new record required unless change occurred.  |                  |                         |                      |                   |  |  |  |  |  |  |
| 6             | CXU  | 2/1/2017         | 12/31/9999 (or<br>null) | 2/1/2017             | Q2 2017           | Existing member enrolled in new plan.  |  |  |  |  |  |
| 7             | 123X   | 3/1/2017         | 12/31/9999 (or<br>null) |                      | Q2 2017           | Existing member not currently enrolled in plan. Enrolled in new plan 3/1/2017. Currently active. |  |  |  |  |  |
| 8             | ABC  | 3/1/2017         | 12/31/9999 (or<br>null) |                      | Q2 2017           | Existing member enrolled in second plan. Currently active.                                       |  |  |  |  |  |
| 9             | ABC  | 7/1/2017         | 12/31/9999 (or<br>null) |                      | Q4 2017           | New member enrolled as of 7/1/2017.  |  |  |  |  |  |
| 10            | 123X   | 10/1/2017        | 12/31/9999 (or<br>null) |                      | Q1 2018           | New member enrolled as of 4/1/2018.  |  |  |  |  |  |

#### **Other Information**

- Many of the elements in different files use similar semantics and a few are exact duplicates. Each file
  can be used individually or in combination with other files for analyses. Repeated data elements allow
  for streamlined data management for analyses.
- A required data element must contain the DSG specified values, formats, and thresholds unless an
  exception is put in place for a specific submitting entity when unable to provide that data element or
  value. Exceptions are granted using the APCD data exception process described within the DSG.
- Where possible, NPIs (ME035, ME046, ME124, MC134) should have corresponding provider records based on PV023 in the provider data.

Commented [A20]: Revision 30: UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

#### Medical Claims Data

#### **Required Submission Information**

- Submitting entities shall provide paid claims and adjustment claims for institutional and professional healthcare services rendered during the update period. All claims must have an associated member record in the enrollment file.
- The historical data submission and the one-year catch-up submission (see <u>Submission Schedule</u>) must consist of final paid claims only. Versioned claims will be submitted for ongoing quarterly submissions.

#### File Content

- Files must include the variables specified in Exhibit A Data Elements: Medical Claims Data.
- Submitting entity must provide one row per claim number and claim line. If there are multiple services
  performed and billed on a claim, each of those services will be uniquely identified and reported on a
  separate line with the claim number linking the lines together.
- Submitting entity's Carrier Specific Unique Member IDs and Carrier Specific Unique Subscriber IDs should be masked prior to submission to the APCD. Masking should be consistent across time so the masked value representing the Carrier Specific Unique Member ID and/or Carrier Specific Unique Subscriber ID does not change.
- Submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should
  be consistent across submissions and over time. If a new system changes or alters the Carrier Specific
  Unique Member IDs and/or Carrier Specific Subscriber IDs, utilize the Alias ID Member ID fields (see New Data Elements for Medical Claims Data) to maintain continuity.
- A submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should be of consistent length and format across all submitted data so that any record containing this information (ELG, CLM, PHM, DNT), the Carrier Specific Unique Member ID, and the Carrier Specific Unique Subscriber ID will match exactly.
- A submitting entity's Member Date of Birth and Subscriber Date of Birth should match between the Member records and the Claims records. Any dates in these fields equaling 1900-01-01 or earlier are considered either incorrect or a system default date. Invalid or incorrect Member Date of Birth renders ME998 APCD Unique ID values as suspect.
- The following fields must match in format, length, and values across all coverage period submissions for the same Carrier Specific Unique Member ID: Member Suffix or Sequence Number or Person Code (ME010, MC009, PC009, DC009), Individual Relationship Code (ME012, MC011, PC011, DC011), Member Gender (ME013, MC012, PC012, DC012), and Subscriber Gender (ME151A, MC991, PC956, DC991).
- Files must contain all claims based on paid date during the observation period for all covered services
  provided to eligible members.
- Payer Claim Control Number (MC004) and line numbers (MC005) must be consistent across submissions, along with other fields identified for versioning by the submitting entity.
- Files must include all non-pharmacy and non-dental claims submitted for services provided to covered
  members, including inpatient, outpatient, professional service, behavioral health, therapies, durable
  medical equipment (DME), and rehabilitation claims.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when
  data is present), Trailer Header, and Trailer Data record must be included, in order, with this file
  submission.
- Quarterly submission files shall contain adjustment claims for the APCD versioning process (see <u>Exhibit C</u> <u>APCD Claims Versioning</u>).
- Historical and ongoing data submission requirements are outlined in Appendix A of <u>Rule 100</u>.

**Commented [A21]:** Revision 5: **NEW** – Added requirement to ensure consistent format and length of Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID across all files.

Commented [A22]: Revision 6: NEW – Added requirement to ensure consistent values in Member Date of Birth and the Subscriber Date of Birth between member and claims data.

Commented [A23]: Revision 7: NEW – Added requirement to ensure consistent format, values, and length of key member/subscriber fields across all files.

#### Other Information

- If the submitting entity only knows the billing entity, and the billing entity is not the service rendering
  provider, then the billing provider data is not appropriate in the service rendering provider fields. In this
  case an exception request is required.
- If the submitting entity does not know who performed the service or the specific site where the service
  was performed, the submitting entity will need to request an exception for one or both of these elements.
  It is not appropriate to include facility or billing information in field MC134, National Service Organization
  Provider ID.
- Redundancies will exist within some fields across multiple claim lines and will be managed by the APCD team in the database solution design. For example, Carrier Specific Unique Member IDs and paid dates will appear on each line of a claim. Aggregation will recognize these as the same claim and not as multiple claims.
- A required data element must contain the DSG specified values, formats, and thresholds unless an
  exception is put in place for a specific submitting entity when unable to provide that data element or
  value. Exceptions are granted using the APCD data exception process described within the DSG.
- Custom codes for data elements (such as bill type, diagnosis codes, procedure codes, CPT codes, etc.)
   will be considered for addition to the Arkansas APCD reference repository. Work with the Arkansas
   APCD team to review and assess need/relevance to determine if custom codes can be added.
- Where possible, service provider numbers (MC024) should have corresponding provider records based on PV001 in the provider data.
- Where possible, NPIs (MC026, MC077, MC112, MC134) should have corresponding provider records based on PV023 in the provider data.

**Commented [A24]:** Revision 30: **UPDATED** – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

Commented [A25]: Revision 30: UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

#### Pharmacy Claims Data

#### **Required Submission Information**

- Submitting entities shall provide paid claims and adjustment claims for pharmaceutical products and services rendered during the update period from submitting entities, including pharmaceutical benefit managers (PBM). All claims must have an associated member record in the enrollment file.
- The historical data submission and the one-year catch-up submission (see <u>Submission Schedule</u>) must
  consist of final paid claims only. Versioned claims will be submitted for ongoing quarterly submssions.

### File Content

- Files must include variables specified in Exhibit A Data Elements: Pharmacy Claims Data.
- Submitting entity must provide one row per claim number and claim line.
- Submitting entity's Carrier Specific Unique Member IDs and Carrier Specific Unique Subscriber IDs should be masked prior to submission to the APCD. Masking should be consistent across data submissions so the masked value representing the Carrier Specific Unique Member ID and/or Carrier Specific Unique Subscriber ID does not change.
- Submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should
  be consistent across submissions and over time. If a new system changes or alters the Carrier Specific
  Unique Member IDs and/or Carrier Specific Subscriber IDs, utilize the Alias ID Member ID fields (see
  New Data Elements for Pharmacy Claims Data) to maintain continuity.
- A submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should be of consistent length and format across all submitted data so that any record containing this information (ELG, CLM, PHM, DNT), the Carrier Specific Unique Member ID, and the Carrier Specific Unique Subscriber ID will match exactly.
- A submitting entity's Member Date of Birth and the Subscriber Date of Birth should match between the Member records and the Claims records. Any dates in these fields equaling 1900-01-01 or earlier are considered either incorrect or a system default date. Invalid or incorrect Member Date of Birth renders ME998 APCD Unique ID values as suspect.
- The following fields must match in format, length, and values across all coverage period submissions for the same Carrier Specific Unique Member ID: Member Suffix or Sequence Number or Person Code (ME010, MC009, PC009, DC009), Individual Relationship Code (ME012, MC011, PC011, DC011), Member Gender (ME013, MC012, PC012, DC012), and Subscriber Gender (ME151A, MC991, PC956, DC991).
- Files shall contain all claims based on paid date during the observation period for all covered services
  provided to eligible members.
- Payer Claim Control Number (PC004) and line numbers (PC005) must be consistent across submissions, along with other fields identified for versioning by the submitting entity.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when
  data is present), Trailer Header, and Trailer Data record must be included, in order, with this file
  submission.
- Quarterly submission files shall contain adjustment claims for the APCD versioning process (see <u>Exhibit</u> <u>C APCD Claims Versioning</u>).
- Historical and ongoing data submission requirements are outlined in Appendix A of Rule 100.

Commented [A26]: Revision 5: NEW – Added requirement to ensure consistent format and length of Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID across all files.

Commented [A27]: Revision 6: NEW – Added requirement to ensure consistent values in Member Date of Birth and the Subscriber Date of Birth between member and claims data.

Commented [A28]: Revision 7: NEW – Added requirement to ensure consistent format, values, and length of key member/subscriber fields across all files.

#### Other Information

- Redundancies will exist within some fields across multiple claim lines, and will be managed by the APCD
  team in the database solution design. For example, Carrier Specific Unique Member IDs and paid dates
  will appear on each line of a claim. Aggregation will recognize these as the same claim and not as
  multiple claims.
- In the event that the health plan submitting entity contracts with a pharmacy benefits manager or other service entity that manages claims for Arkansas residents, the health plan submitting entity shall be responsible for ensuring that complete and accurate files are submitted to the Arkansas APCD by the subcontractor. The health plan submitting entity shall ensure that the member identification information in the subcontractor's file(s) is consistent with the member identification information in the health plan's ME, MC, PC, and DC files. The health plan shall include utilization and cost information for all services provided to members under any financial arrangement, including sub-capitated, bundled, and global payment arrangements.
- A required data element must contain the DSG-specified values, formats, and thresholds unless an
  exception is put in place for a specific submitting entity when unable to provide that data element or
  value. Exceptions are granted using the APCD data exception process described within the DSG.
- Custom codes for data elements (such as bill type, diagnosis codes, procedure codes, CPT codes, etc.)
   will be considered for addition to the Arkansas APCD reference repository. Work with the Arkansas
   APCD team to review and assess need/relevance to determine if custom codes can be added.
- Where possible, service provider numbers (PC043) should have corresponding provider records based on PV001 in the provider data.
- Where possible, NPIs (PC021, PC048, PC059) should have corresponding provider records based on PV023 in the provider data.

Commented [A29]: Revision 30: UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

Commented [A30]: Revision 30: UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

#### Dental Claims Data

# **Required Submission Information**

- Submitting entities shall provide paid claims and adjustment claims<sup>6</sup> for all members utilizing dental services. All claims must have an associated member record in the enrollment file.
- The historical data submission and the one-year catch-up submission (see <u>Submission Schedule</u>) must consist of final paid claims only. Versioned claims will be submitted for ongoing quarterly submissions.

#### File Content

- Files must include the variables specified in <u>Exhibit A Data Elements: Dental Claims Data.</u>
- Submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should be masked prior to submission to the APCD. Masking should be consistent across time so the masked value representing the Carrier Specific Unique Member ID and/or Carrier Specific Unique Subscriber ID does not change.
- Submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID
  should be consistent across submissions and over time. If a new system changes or alters the Carrier
  Specific Unique Member IDs and/or Carrier Specific Subscriber IDs, utilize the Alias ID Member ID
  fields (see New Data Elements for Dental Claims Data) to maintain continuity.
- Submitting entities must provide one row per claim number and claim line. If there are multiple
  services performed and billed on a claim, each of those services will be uniquely identified and
  reported on a separate line with the claim number linking the lines together.
- A submitting entity's Carrier Specific Unique Member ID and Carrier Specific Unique Subscriber ID should be of consistent length and format across all submitted data so that any record containing this information (ELG, CLM, PHM, DNT), the Carrier Specific Unique Member ID, and the Carrier Specific Unique Subscriber ID will match exactly.
- A submitting entity's Member Date of Birth and the Subscriber Date of Birth should match between the Member records and the Claims records. Any dates in these fields equaling 1900-01-01 or earlier are considered either incorrect or a system default date. Invalid or incorrect Member Date of Birth renders ME998 APCD Unique ID values as suspect.
- The following fields must match in format, length, and values across all coverage period submissions for the same Carrier Specific Unique Member ID: Member Suffix or Sequence Number or Person Code (ME010, MC009, PC009, DC009), Individual Relationship Code (ME012, MC011, PC011, DC011), Member Gender (ME013, MC012, PC012, DC012), and Subscriber Gender (ME151A, MC991, PC956, DC991).
- Files should contain all claims (based on paid date) during the observation period for all covered services
  provided to eligible members.
- Payer Claim Control Number (DC004) and line numbers (DC005) must be consistent across submissions, along with other fields identified for versioning by the submitting entity.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when
  data is present), Trailer Header, and Trailer Data record must be included, in order, with this file
  submission.
- Quarterly submission files should contain adjustment claims for the APCD versioning process (see <u>Exhibit C APCD Claims Versioning</u>).
- Historical and ongoing data submission requirements are outlined in Appendix A of Rule 100.

Commented [A32]: Revision 6: NEW – Added requirement to ensure consistent values in Member Date of Birth and the

Member ID and Carrier Specific Unique Subscriber ID across all files.

Subscriber Date of Birth between member and claims data.

Commented [A33]: Revision 7: NEW – Added requirement to ensure consistent format, values, and length of key member/subscriber fields across all files.

<sup>&</sup>lt;sup>6</sup> Claims data include encounter data from managed care and risk-based provider organizations for purposes of the DSG.

#### **Other Information**

- Redundancies will exist within some fields across multiple claim lines, and will be managed by the APCD team in the database solution design. For example, Carrier Specific Unique Member IDs and paid dates will appear on each line of a claim. Aggregation will recognize these as the same claim and not as multiple claims.
- A required data element must contain the DSG-specified values, formats, and thresholds unless an
  exception is put in place for a specific submitting entity when unable to provide that data element or
  value. Exceptions are granted using the APCD data exception process described within the DSG.
- Custom codes for data elements (such as bill type, diagnosis codes, procedure codes, CPT codes, etc.)
   will be considered for addition to the Arkansas APCD reference repository. Work with the Arkansas
   APCD team to review and assess need/relevance to determine if custom codes can be added.
- Where possible, service provider numbers (DC018) should have corresponding provider records based on PV001 in the provider data.
- Where possible, NPIs (DC020) should have corresponding provider records based on PV023 in the provider data.

Commented [A34]: Revision 30: UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

Commented [A35]: Revision 30: UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

# Provider Data

# **Required Submission Information**

Submitting entities shall provide information on all providers contracted at any time from January 1, 2013, onward. Lookup tables for specialty codes shall be included as part of the submitted information.

- A "provider" is defined as any person or entity rendering medical care, including physicians, nurse
  practitioners, physician assistants, and others.
- All providers must have a unique National Provider ID and/or Serivce Provider Number ID assigned by submitting entity.

#### File Content

- Records must include variables specified in <u>Exhibit A Data Elements: Provider Data</u>.
- Historical/Initial data submission: Provider data submitted with the initial historical data feed shall contain information for all providers from January 1, 2013, onward.
- Ongoing, periodic submissions: Each provider file submitted must be a complete updated replacement beginning January 1, 2013, onward.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when
  data is present), Trailer Header, and Trailer Data record must be included, in order with this file
  submission.
- Historical and ongoing data submission requirements are outlined in Appendix A of Rule 100.
- One record shall be submitted for each provider for each unique physical address and NPI.

For example: Helen Green, MD, 123 Main St., NPI: 123ABC Helen Green, MD, 456 Oak St., NPI: 123ABC

#### Other Information

- All submitting entities are required to submit a provider file unless an exemption has been approved
  allowing the submitting entity to forego this requirement.
- Where possible, provider file records should correspond with service provider numbers and NPIs in the enrollment/member and claims data.
- A required data element must contain the DSG specified values, formats, and thresholds unless an
  exception is put in place for a specific submitting entity when unable to provide that data element or
  value. Exceptions are granted using the APCD data exception process described within the DSG.

Commented [A36]: Revision 30: UPDATED – Updated and clarified definitions and requirements for service provider numbers and NPIs within claims and associated with provider data.

# **Control Count Data**

Each submitting entity shall provide control count records within each data file submitted to support baseline validation and benchmarking. Control count values will tie directly back to the data files submitted, enabling record quantity checking for submission validation.

Control count data will no longer be submitted as a stand-alone file. Control count data rows will be included inside each data file submitted. Two additional records will be contained within each file, after the header records and before the detail data records. These records will be prefaced with CH (Control Header) and CD (Control Detail).

File types for which control count records must be created:

- o ELG Eligibility/Member Data
- o CLM Medical Claims
- o PHM Pharmacy Claims
- o DNT Dental Claims
- o PRV Provider Data
- o LU Lookup Data
- o SP Supplemental Payment Data

**Commented [A37]:** Revision 1: **NEW** – Addition of new data type – Medicaid Supplemental Payment requirements

Refer to the following sections for control count data submission requirements. Review in order.

- Row Types
- Header, Control Count, and Trailer Records
- Control Count Record Layout Member Data
- Control Count Record Layout Medical Claims Data
- Control Count Record Layout Pharmacy Claims Data
- Control Count Record Layout Dental Claims Data
- Control Count Record Layout Provider Data
- Control Count Record Layout Lookup Data
- Member Enrollment Data File Guidelines
- Medical Claims Data File Guidelines
- Pharmacy Claims Data File Guidelines
- <u>Dental Claims Data File Guidelines</u>
   <u>Provider Data File Guidelines</u>
- Lookup Data File Guidelines

#### Lookup Files

Each submitting entity submitting Medical Claims data should provide a lookup file with the first production data submission. Subsequent lookup files are only required when content changes.

#### File Content

- Records must include the variables specified in Exhibit A Data Elements: Lookup Data.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when
  data is present), Trailer Header, and Trailer Data record must be included, in order, with this file
  submission.
- Lookup data files provide SEs specific values and definitions for the following DSG medical claim data elements:
  - o MC032 Service Provider Specialty
  - o MC212 Billing Provider Specialty
- Only one lookup data file should be produced containing the lookup values and definitions for both data elements.
- All lookup data files should be sent with historical data and resubmitted when changed.

#### **Other Information**

- Lookup data files are required only if the provider specialty data is not provided by CMS Health Care Provider Taxonomy.
- Lookup data files should contain submitting entity specific provider specialty codes. However, if standard CMS codes are used, the values in <u>Appendix K, Health Care Provider Taxonomy Specialty Codes</u>, can be substituted and no lookup data files are required for submission.

# Supplemental Payment Files

Arkansas Medicaid supplemental payment files include payments by Medicaid to providers, most commonly hospitals, that supplement claims-based payments. These include disproportionate share (DSH) payments and upper payment limit (UPL) payments.

#### File Content

- Records must include the variables specified in <u>Exhibit A Data Elements: Supplemental Payment Data</u>.
- Record layout will be based on agreed-upon data elements between Arkansas Medicaid, the Arkansas APCD, and the Arkansas Insurance Department.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when
  data is present), Trailer Header, and Trailer Data record must be included, in order, with this file
  submission.

### Other Information

• Supplemental payment files are only required from Arkansas Medicaid.

**Commented [A38]:** Revision 1: **NEW** – Addition of new data type – Medicaid Supplemental Payment requirements

### Test Data

Submitting entities are required to submit test data prior to submitting production data. At minimum, submitting entities should execute onboarding testing as part of the initial set-up with the Arkansas APCD and production file testing for initial data submissions or when new requirements have been put in place (e.g. new data fields, new control count methodology, etc.).

- Onboarding: During the onboarding process, each submitting entity will be required to test their SFTP
  access through the APCD Web Portal. Small test files containing up to 100 records shall be sent by the
  submitting entity with the appropriate file compression, naming conventions, and data encryption in
  order to verify that the submitting entity has the appropriate access through the APCD Web Portal.
- Test File Submission: Each submitting entity shall provide data prior to the submission of full datasets.
   Test files shall include a full month of production activity for the following data categories:
  - o Member Enrollment Data
  - o Medical Claims
  - o Pharmacy Claims
  - o Dental Claims
  - o Provider Data
  - Lookup Files (for MC032 and MC212 only)
  - o Arkansas Medicaid Supplemental Payment Data (SP)

**Commented [A39]:** Revision 9: **UPDATED** – Added clarification to test data requirements.

**Commented [A40]:** Revision 9: **UPDATED** – Added clarification to test data requirements.

**Commented [A41]:** Revision 1: **NEW** - Addition of new data type – Medicaid Supplemental Payment requirements

### **DATA SUBMISSION REQUIREMENTS**

The Data Submission Requirements section includes the file submission process map, web portal setup, data encryption requirements, and data validation steps within the APCD data intake process.

### **Submission Process**

Submitting entities will work with the APCD Technical Support team to understand data submission requirements and exchange public and private keys.

The data file submission process is illustrated below in **Figure 1: APCD Data Submission Process**. Process step descriptions containing additional information follow the process map in <u>Table 1: Data Submission Process Step Descriptions</u>.

Figure 1: APCD Data Submission Process

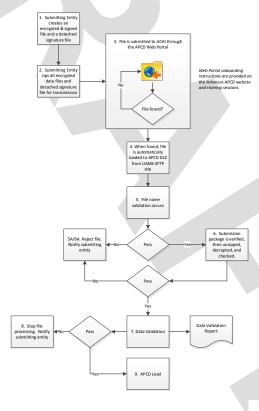

Table 1: Data Submission Process Step Descriptions

| Each numbered task represents a step on the process map in Figure 1. <b>Process Task</b>                                | Description  |
|---|--|
| Submitting entity encrypts data files with APCD public key and creates detached signature file.                         | A. Submitting entity creates an encrypted and signed file (extension should be .gpg or .pgp, depending on encryption used) using the ARAPCD_RSA public key and the SE's DSA Key.   |
|   | B. Submitting entity creates a detached signature file (extension should be .gpg.sig or .pgp.sig, depending on encryption used) from the output of step 1A using same SE DSA Key used in step 1A.  |
| <ol><li>Submitting entity zips all encrypted<br/>data files and detached signature file for<br/>transmission.</li></ol> | Submitting entity zips both files created in steps 1B and 1A for transmissions. [One (1) encrypted and signed file and one (1) detached signature file.]   |
| 3. File is transferred to UAMS APCD SFTP site.  | Submitting entity transfers zipped data submissions to UAMS-assigned SFTP site.  |
| When found, file is automatically loaded to APCD DLZ from UAMS SFTP site.   | APCD processes scan SFTP site for dropped files.  When found, file is moved off the UAMS SFTP site onto the APCD data landing zone (DLZ).  Automated email is sent to APCD Technical Support team confirming data receipt.   |
| 5. File name validation occurs.   | The automated data intake process evaluates the file name to determine if this file should move forward into the APCD processes. If not, the file is deleted and the submitting entity is notified (step 5A/6A).   |
| Submission package is verified, then unzipped, decrypted, and checked.  | 1. Submission package is checked for the following before the file is unzipped or decrypted:  a. zip file contains exactly two files  b. one of the two files has an extension of .gpg or .pgp  c. the other file has an extension of .gpg.sig or .pgp.sig  d. the base name of the zip file and the two files it contains all match  e. the file name contains all the required pieces in the required order and format |

| Each numbered task represents a step on the process map in Figure 1. <b>Process Task</b> | Description   |
|--|---|
|  | <ol> <li>If all of these checks pass, the file moves on to further checks.</li> <li>File is unzipped; the encrypted and signed file is decrypted; and the signature is checked against the detached signature file.</li> <li>If there are no errors in decryption, and the signatures match, the file moves on to further checks.</li> <li>Decrypted file is examined for the following:         <ul> <li>a. file and data formats</li> <li>b. header/trailer record information match each other and the file name information, column counts, row counts, data types</li> </ul> </li> <li>If there are no errors in this step the file is considered</li> </ol> |
| 5A/6A. Reject file. Notify submitting entity   | <ul><li>for data validation.</li><li>5. If the file fails the step 5 or step 6 checks, it is rejected and the submitting entity is notified to correct and resubmit the file.</li></ul>   |
| Data Validation Reporting  | Once passed, process the file through data validation. Generate Data Validation reports for submitting entities   |
| 8. Stop file processing. Notify submitting entity  | 7. If file does not pass data validation, do not process it further. Notify submitting entity to resolve issue and resubmit file  |
| 9. APCD Load   | 8. If file passes data validation, it moves through the APCD load processes into the APCD   |

### APCD Web Portal Setup

Submitting entities will submit files to the APCD using a web portal. This method allows the transfer and receipt of files and messages from the APCD website using SFTP protocol without the installation of additional software. This method requires Internet access, a username, and a password.

After registration with AID (as outlined in Rule 100), the APCD Technical Support team will set up a submitting entity-specific web portal and a University of Arkansas for Medical Sciences (UAMS) SFTP site for data submission. The submitting entity will receive an email with a user name, a temporary password, and instructions for web portal access. The APCD Technical Support team will work with the submitting entity to log on and test data transfer in preparation for production file receipt.

### **Submitted Data Encryption Requirements**

Submitted data must be encrypted at two levels to safeguard protected health information.

**Field Level:** Unique identifiers representing member last name and date of birth combinations are required to create the member's APCD unique ID (ME998). These data must be hashed securely prior to being delivered to the Arkansas APCD. APCD unique identifiers are only required for member enrollment data.

Note: To further secure the APCD Unique ID, additional hashing is applied to APCD Unique IDs during the APCD data intake process. The APCD Technical Support team will provide specific hashing methodology to each submitting entity during the onboarding process.

**File Level:** All data files submitted must be encrypted at the file level before being sent to the APCD. Data files submitted to the APCD must be encrypted using public key cryptography (also known as asymmetric cryptography). Self-identifying <u>file naming conventions</u> are to be used for submitted data files to enable the automated delivery receipt notification and decryption process. The APCD Development team will work with each submitting entity to exchange the appropriate encryption keys and data intake protocols. Supporting documentation and training will be provided.

All data submissions must be secured for transfer using encryption requirement protocols defined in <a href="Exhibit B-Encryption Protocols"><u>Exhibit B-Encryption Protocols</u></a>. These protocols are presented at the file encryption level.

### **Public Keys**

The following keys will be required for the encryption and data transfer processes:

- APCD RSA and DSA public keys provided by APCD Technical Support team.
- Submitting entity RSA and DSA public keys provided by the submitting entity.

### File Encryption

The APCD Technical Support team will provide the APCD public key to submitting entities to encrypt the data file. Each submitting entity will provide the APCD its public DSA key to match the signature file to the encrypted file.

Two files within a single .zip archive will be delivered with each data submission:

- Data file encrypted with APCD RSA public key and signed with submitting entity DSA key.
- Submitting entity detached-signed signature file (using the submitting entity's DSA key) of the encrypted/signed file just created (see above bullet).

### Report/Output Delivery

The APCD Technical Support team will provide reports to submitting entities after the data validation process is completed for each data submission. These reports will be encrypted before delivery to submitting entities. The APCD Technical Support team will provide the following files after data evaluation:

Two files within a single .zip archive will be delivered with each data quality report submission:

- Data quality report encrypted with submitting entity public RSA key and signed with APCD DSA key.
- APCD detached-signed signature file (using the APCD DSA key) of the encrypted/signed file just created (see above bullet).

### **Data Validation**

As described in the <u>File Submission Requirements and Options</u> section, all data submitted to the APCD will go through two levels of data quality assessment:

#### **Data Intake Validation**

- File Structure Validation
  - o **File name structure check** Ensures that the file name contains the correct components in the correct order. File name components are used as the submitted file moves through automated data intake.
  - Archive check Ensures the file was zipped correctly.
  - File quantity check Verifies that the number of files included in the archive matches the quantity indicated in the file name.
  - Encryption check Ensures file is encrypted using protocols allowable in the Arkansas APCD automated data intake processes.
  - Detached signature file check Verifies that the sender of the encrypted/signed file is from the
    expected sender and, via the checksum, that the encrypted/signed file has arrived in full and is
    uncorrupted.
  - File format check
    - Column count Verifies that the number of columns in the file matches the number of DSG data element IDs in the file.
    - Header and Trailer record format and value validation:
      - HD001 and TR001 must match
      - Number of DD records must match file HD006
      - Dates must be in the correct format (must include dashes)
      - The file name entity abbreviation must match the two-character code in HD003

| File Name Entity Abbreviation | Type of File (HD003, TD003) |
|-------------------------------|-----------------------------|
| DNT                           | DC                          |
| CLM                           | MC                          |
| ELG                           | ME                          |
| PHM                           | PC                          |
| PRV                           | PV                          |
| LU                            | LU                          |
| SP                            | SP                          |

**Commented [A42]:** Revision 1: **NEW** – Addition of new data type – Medicaid Supplemental Payment requirements

Files failing File Structure Validation cannot move to Data Validation. Submitting entities will be notified if submitted files do not pass data intake and will be asked to resubmit.

#### Data Validation

- o Data value check Verifies that each data element contains the correct values specified in the DSG.
- o Data type check Verifies that the value data type is consistent with those specified in the DSG.
- o Data length check Verifies that the value data length is consistent with those specified in the DSG.
- Data threshold compliance check Verifies that the data included in the file meets the required data threshold specified in the DSG or approved data exception form.
- Member ID consistency check A final validation will be executed when the data files reach data transformation Carrier Specific Unique Member IDs and Carrier Specific Unique Subscriber IDs matching across current submission and against previously submitted files will be executed. If the ID matching fails, the submission fails. Note: This validation occurs after the data validation report is delivered to the submitting entity. If the ID matching fails because system changes caused IDs to change, the Arkansas APCD team will work with the submitting entity to document the change and update the validation expectation.

Files passing these levels of data validation will be moved to the APCD production platform for transformation and database build.

Files not passing data validation after all exceptions are applied will be deleted from all APCD systems. The APCD Technical Support team will contact the submitting entity to address the issues identified and request that the submitting entity resubmit the data file(s).

### Pass/Fail Criteria

Data files failing the data intake process checks — or at least one DSG specified value, format, or threshold requirement — will fail the data submission process.

### Data Validation Reports

The Data Validation process produces data validation reports for each file submitted. The final data validation reports will be encrypted and placed on the submitting entity-specific web portal for retrieval and review. See the <a href="Report/Output Delivery">Report/Output Delivery</a>, section for additional information about report delivery.

### Data Load Validation

Once files have moved through data validation and into transformation and database build, they will be reviewed for contextual accuracy. If issues are identified, the APCD Technical Support team will work with the submitting entity to resolve the issue.

### Data Exceptions

If required data elements or values are not available, submitting entities can apply for **data exceptions** to address data variances that cannot be corrected due to systematic issues. Data exceptions shall be submitted to the APCD Technical Support team through the Arkansas APCD Web Portal. See the <u>Arkansas APCD Online Data Exception Request training manual</u>.

### **Exception Request Review**

The APCD Technical Support team will work with submitting entities to understand the impact of exceptions and identify any needed processing changes. After the final exception request is mutually agreed upon, the data intake process is updated to accommodate the missing data. Files that do not conform to these new specifications and thresholds will be rejected. Corrected files must be submitted and will be reviewed again. Note: Exceptions granted under a governing DSG do not automatically apply to later versions. New approvals are required for justification.

Note: The Arkansas Center for Health Improvement (ACHI) is not responsible for correcting or applying "fixes" to the submitting entity's data.

### **Versioning Validation**

The Arkansas APCD accepts versioned claims. These claims are then processed according to the versioning logic specific to each submitter to resolve to a unique record for each submitting entity/member/claim number/claim line combination. The Arkansas APCD also conducts automated contextual checks of the versioned claims (i.e., balancing paid amount and claim amount to zero) to indicate which claims require additional scrutiny for data integrity.

Beginning in March 2019, this process will produce a pipe-delimited text file — the Data Integrity Audit file — containing claim lines that failed the versioning process for that submitting entity. This file will be sent back to the submitter through the Arkansas APCD web portal for review. The Arkansas APCD will request a full resubmission for claim numbers included in the Data Integrity Audit file across all time periods where the specific claim has activity in the submitting entity's system. The submitting entity is expected to send a supplemental claim file back to the Arkansas APCD that contains a unique record for each member/claim number/claim line combination that represents the truest account for how that claim was processed by the payer. This data will be used to replace the member/claim number data previously sent to the Arkansas APCD.

Process: Should an issue be found with a claim, the Arkansas APCD will send to the submitting entity, via sFTP, the Data Integrity Audit file containing a list of members, claim numbers, and claim lines that the submitting entity will resend to the APCD. The return file will contain the same header, control count, data records, and trailer as a normal file. The file name will be the same, but the HD010 record will contain SUPL. Files that contain more than one record per member/claim number/claim line will be rejected. Files that pass intake will have their associated claim information replace the previous claim information in the Arkansas APCD system. This supplemental file should be transmitted to the Arkansas APCD within 10 calendar days of receipt of the Data Integrity Audit file.

 $\begin{tabular}{ll} \textbf{Commented [A43]:} & Revision 10: \textbf{NEW}-Addition of exception request carry over between DSGs. \end{tabular}$ 

Commented [A44]: Revision 32: NEW – Information on proposed versioning validation process with submitting entities

### File Format

#### File Formatting Requirements

All files submitted to the APCD must adhere to the following formatting requirements:

- Submitted files must be in 7-Bit American National Standard Code for Information Interchange (7-Bit ASCII) single byte character format using the standard character set ANSI\_X3.4-1986. Valid files will not have a byte order mark. The character set is defined at <a href="https://www.columbia.edu/kermit/ascii.html">www.columbia.edu/kermit/ascii.html</a>.
- Submitted files must be in the layout and Data Element ID order described in Exhibit A Data Elements.
- All files must contain a header and trailer record containing the data element ID for each variable specified in Exhibit A Data Elements Row Types.
- Header and trailer record inclusion requirements:
  - At the beginning of every data file, exactly one record for each of the following row types: HH, HD,
  - At least one DD row type after the DH row, unless reporting no activity for the coverage period
  - o Exactly one row for each of the TH and TD rows at the end of every data file
  - All files submitted to the Arkansas APCD must be formatted as standard .dat files.
- All .dat files must comply with the following standards:
  - o Files must always contain fully formed data records ending with a carriage return/linefeed.
  - o No data element may contain carriage returns or line feed characters.
  - All data elements are variable data element length, delimited using a pipe ("|"). No pipes ("|") should appear in the data itself. If data contains pipes, remove them or use an alternate delimiter character.
  - The .dat data elements are only demarcated or enclosed in double quotes when a column delimiter (e.g., "|") is present and is to be considered as data and not a delimiter.
  - Unless otherwise stipulated, numbers (e.g., ID numbers, account numbers, etc.) do not contain spaces, hyphens, or other punctuation marks.
  - o The .dat data elements are never padded with leading or trailing spaces or tabs.
  - All fields shall be coded with the values specified herein. If data is unavailable and an approved <u>data</u> <u>exception</u> is in place, the data element value will be loaded as NULL.
  - Encrypted, compressed file packages are limited to 300 MB for files submitted via the Arkansas APCD Web Portal.
  - Each file should contain data for a single submitting entity. Do not include claims from multiple submitting entities within single submitted files.

Commented [A45]: Revision 11: UPDATED – Reworded section, adding control count row references

### File Naming Convention

All files submitted to the APCD must use the naming convention below, designed to facilitate file management without requiring access to the contents. All file names will mimic the following example:

 $ARAPCD\_[EntityCode]\_[Test\ or\ Prod]\_[SubmissionDate]\_[CoveragePeriodDate]\_[FileNo]\_[FileCount]\_[EntityAbbreviation]. data for the product of the product$ 

### File Name Component Definitions

- EntityCode Codes representing submitting entities.
  - o Private Submitting entities: NAIC Company codes. NOTE: If a submitting entity provides data from multiple data systems under the same NAIC company code, add a single alpha character representing the NAIC Suffix at the end of the NIAC Company code. NAIC Suffixes should be assigned sequentially. For example: 12345A, 12345B.
  - o Other submitters: A unique 5-digit alphanumeric code assigned by the APCD Technical Support team.
- [Test, Prod, or SUPL] TEST is for test data files; PROD is for production data files; SUPL is for ad-hoc supplemental data.
- SubmissionDate Date the file was produced. This date must be in the YYYYMMDD format.
- CoveragePeriodDate Represents coverage period of the submission. This date must be in the YYYYMM format (e.g., CoveragePeriodDate = 201509 for September 2015). The date will represent the end month of the data date range (e.g., for data pulled between 7/01/2015 and 9/30/2015), the CoveragePeriodDate = 201509.
- FileNo Two-digit number representing the number of the file as it relates to the total number of files by file type to be received.
- FileCount Two-digit number representing the total number of files by file type to be received. Note: Single file submissions are preferred.

### Example:

 $File No\_File Count\ example\ 01\_09\ represents\ file\ 01\ of\ 09\ expected\ files.$ 

FileNo\_FileCount example 02\_09 represents the second of 9 expected files. FileNo\_FileCount example 01\_01 represents file 01 of 01 expected file.

See Submission Grouping Options for file name examples.

EntityAbbreviation - Abbreviation representing file type.

DNT = Dental Claims

CLM = Medical Claims

o ELG = Member Enrollment Data

PHM = Pharmacy Claims

PRV = Provider Data

LU = Lookup Tables

SP = Medicaid Supplemental Payment Data

These file name components must match the following fields in the .dat file.

EntityCode = HD001, TR001

FileNo = HD008

FileCount = HD007

Commented [A46]: Revised 12: UPDATED - Added SUPL to file name instruction:

Commented [A47]: Revised 13: UPDATED - Aligned examples to represent the same quarter.

Commented [A48]: Revision 14: NEW - Added clarifying information about multi-file submission requirements and examples.

Commented [A49]: Revision 14: NEW - Added clarifying information about multi-file submission requirements and

Commented [A50]: Revision 1: NEW - Addition of new data type – Medicaid Supplemental Payment requirements

### **Coverage Period Requirements**

- Valid coverage periods are monthly, quarterly, or annual. Files may contain up to one calendar year (January 1 to December 31) of data.
- Coverage periods begin on the **first** day of the first month of the coverage period and end on the **last** day of the last month of the coverage period. These dates should be represented in the Header and Trailer records of the file and the coverage ending month and year must match the date in the file name.
- Coverage periods should be adjacent and not overlapping.
- If no data exists for a valid coverage period, an <u>empty</u> file should be submitted representing the
  coverage period. The empty file should contain the following rows: Header Header, Header Data,
  Control Header, Control Data, Data Header, Trailer Header, and Trailer Data. No Data Detail record
  should be sent.
- The coverage dates in the Header Data should represent the missing coverage period. The file name should include the missing coverage period.

### <u>Submission Grouping Options</u>

The Arkansas APCD data intake process accepts seven different data submission groupings to accommodate submitting entity reporting system processing requirements. Examples illustrating each grouping option are included in this section. The **preferred submission groupings** are illustrated in Examples 1 and 2.

1. Yearly Grouping by Number of Records or File Size for Initial Data Submission (2014 Submission record quantity: 445,098; 2015 Submission record quantity: 485,848)

| Year | Coverage | Quantity | FileNo | FileCount | File Name                                       |
|------|----------|----------|--------|-----------|---|
| 2014 | Jan-Dec  | 100,000  | 1      | 5         | ARAPCD_99999_PROD_20160624_201412_01_05_CLM.dat |
| 2014 | Jan-Dec  | 100,000  | 2      | 5         | ARAPCD_99999_PROD_20160624_201412_02_05_CLM.dat |
| 2014 | Jan-Dec  | 100,000  | 3      | 5         | ARAPCD_99999_PROD_20160624_201412_03_05_CLM.dat |
| 2014 | Jan-Dec  | 100,000  | 4      | 5         | ARAPCD_99999_PROD_20160624_201412_04_05_CLM.dat |
| 2014 | Jan-Dec  | 45,098   | 5      | 5         | ARAPCD_99999_PROD_20160624_201412_05_05_CLM.dat |
| 2015 | Jan-Dec  | 100,000  | 1      | 5         | ARAPCD_99999_PROD_20160624_201512_01_05_CLM.dat |
| 2015 | Jan-Dec  | 100,000  | 2      | 5         | ARAPCD_99999_PROD_20160624_201512_02_05_CLM.dat |
| 2015 | Jan-Dec  | 100,000  | 3      | 5         | ARAPCD_99999_PROD_20160624_201512_03_05_CLM.dat |
| 2015 | Jan-Dec  | 100,000  | 4      | 5         | ARAPCD_99999_PROD_20160624_201512_04_05_CLM.dat |
| 2015 | Jan-Dec  | 85,848   | 5      | 5         | ARAPCD_99999_PROD_20160624_201512_05_05_CLM.dat |

2. Quarterly Grouping by Number of Records or File Size (Q1 2014 Submission record quantity: 445,098; Q2 2014 Submission record quantity: 485,848)

| Year | Coverage | Quantity | FileNo | FileCount | File Name                                       |
|------|----------|----------|--------|-----------|---|
| 2014 | Jan-Mar  | 100,000  | 1      | 5         | ARAPCD_99999_PROD_20160624_201403_01_05_CLM.dat |
| 2014 | Jan-Mar  | 100,000  | 2      | 5         | ARAPCD_99999_PROD_20160624_201403_02_05_CLM.dat |
| 2014 | Jan-Mar  | 100,000  | 3      | 5         | ARAPCD_99999_PROD_20160624_201403_03_05_CLM.dat |
| 2014 | Jan-Mar  | 100,000  | 4      | 5         | ARAPCD_99999_PROD_20160624_201403_04_05_CLM.dat |
| 2014 | Jan-Mar  | 45,098   | 5      | 5         | ARAPCD_99999_PROD_20160624_201403_05_05_CLM.dat |
| 2014 | Apr-June | 100,000  | 1      | 5         | ARAPCD_99999_PROD_20160930_201406_01_05_CLM.dat |
| 2014 | Apr-June | 100,000  | 2      | 5         | ARAPCD_99999_PROD_20160624_201406_02_05_CLM.dat |
| 2014 | Apr-June | 100,000  | 3      | 5         | ARAPCD_99999_PROD_20160624_201406_03_05_CLM.dat |
| 2014 | Apr-June | 100,000  | 4      | 5         | ARAPCD_99999_PROD_20160624_201406_04_05_CLM.dat |
| 2014 | Apr-June | 85,848   | 5      | 5         | ARAPCD_99999_PROD_20160624_201406_05_05_CLM.dat |

# 3. Monthly Data Submission, Grouped by Quarter

| Year | Coverage | FileNo | FileCount | File Name                                       |
|------|----------|--------|-----------|---|
| 2013 | Jan      | 1      | 3         | ARAPCD_99999_PROD_20160624_201303_01_03_CLM.dat |
| 2013 | Feb      | 2      | 3         | ARAPCD_99999_PROD_20160624_201303_02_03_CLM.dat |
| 2013 | Mar      | 3      | 3         | ARAPCD_99999_PROD_20160624_201303_03_03_CLM.dat |
| 2013 | Apr      | 1      | 3         | ARAPCD_99999_PROD_20160624_201306_01_03_CLM.dat |

### **EXHIBIT A – DATA ELEMENTS**

# Layout Legend and Row Types

# <u>Layout Column Definitions</u>

| Layout Column   | Column Definition  |
|-----------------|--|
| ID              | Table row ID representing required variable order.   |
| Data Element ID | Unique identifier representing data element by file type.  |
| Data Element    | Data element name.   |
| Description     | Data element definition and associated values with definition.   |
| Туре            | Date – Identifies value as date. Must be represented as YYYY-MM-DD.  Integer – Identifies value as whole number.  Numeric – Identifies values containing digits from 0 to 9 and a dollar sign and/or a decimal point where required. If dollar amount, represent dollars and cents with decimals (e.g., 25.79).  Text – Identifies values as having variable length alphanumeric characters.   |
| Format*         | char – A fixed length element of characters. Values must match the number in the specified length column. This can be any type of data but is governed by the type listed for the element, such as Text versus Numeric. For example, a ZIP Code value of '3415' would be submitted as '03415' because the ZIP Code field has a specified field length of five. For the 'char' format, the Length definition is a requirement, and not a maximum. |
|                 | Varchar – A variable length field of characters. Values cannot be longer than the number in the specified length column. This can be any type of data but is governed by the type listed for the element, such as Text versus Numeric.   |
|                 | int – A variable length field containing numeric values. Values cannot be longer than the number in the specified length column. Records with numeric value formats cannot contain decimal points or leading zeroes.   |
|                 | unsigned int – A variable length field containing a non-negative integer.  |
|                 | YYYY-MM-DD – Required format for dates with year, month, and day.  |
|                 | decimal – Numeric value with up to four digits to the right of the decimal.  |
|                 | *The plus/minus (±) symbol preceding the format indicates that a negative can be submitted in the element under the specified conditions.  |
| Length          | The definite or maximum width of a data element value. For example, for a dollar amount value of 15.25, the length indicator would be 10, 2 — representing a 10-digit numeric value ("10") with up to 2 decimal places allowed (",2").   |

| Layout Column | Column Definition  |
|---------------|--|
| Threshold     | Defines the minimum percentage of data element values that are present and meet the validation requirements per the DSG.   |
| Required      | Indicates if a variable is required for initial APCD build. Not indicated in the Header or Trailer record layout. All data elements are required for Header and Trailer records. |

## Row Types

Each file must contain the following row types in the order illustrated below. See <a href="Header/Control Data/Data/Trailer Row Type Examples">Header/Control Data/Data/Trailer Row Type Examples</a>.

| Row Type | Definition                | Number Required in File  |
|----------|---------------------------|--|
| НН       | Header Record Header Row  | 1  |
| HD       | Header Record Data Row    | 1  |
| СН       | Control Data Header Row   | 1  |
| CD       | Control Data Row          | 1  |
| DH       | Detail Data Header Row    | 1  |
| DD       | Detail Data Row(s)        | Multiple. One per transaction record from submitting entity.  Not required for files containing no data (see <u>Coverage Period Requirements</u> section). |
| TH       | Trailer Record Header Row | 1  |
| TD       | Trailer Record Data Row   | 1  |

### Header/Control Data/Data/Trailer Row Type Examples

Each data file will contain the following rows in the order illustrated in the examples below. In this case the file contains two detail data rows, therefore the row count in the header data records equals two.

### Header Header and Header Data Records Example

HD | 12345 | | CC | 2015-01-01 | 2015-01-31 | 2 | 1 | 1 | 7.0.2019 | PROD

### Control Header and Control Data Record (Different for each file type. Member represented here) Example

CH | CC001 | CC002 | CC003 | CC004 | CC005 | CC006 | CC007 | CC008 | CC009 | CC010

CD | 12345 | ELG | M | 17 | 2 | 657 | 15 | 57 | 78 | 62

### Data Header and Detail Data Record Example\*

DH | ME999 | ME001 | ME002 | ME003 | | ME006 | ME016 | ME107 | ME998

DD|1|12345|432|CI|36203AB1|AR|12092284|Coi2/dIonwFxhuW2O33xyGm+Gu683foEFupDMUeBnuo=

### Trailer Header and Trailer Data Records Example

TH | TR001 | TR002 | TR003 | TR004 | TR005 | TR006 | TR007

TD | 12345 | | CC | 2015-01-01 | 2015-01-31 | 2015-03-01 | 2015-04-01

See Exhibit A Header, Control Count, and Trailer Records for layout specifications.

\*Example data is abbreviated to contain fewer fields.

Commented [A51]: Revision 0: UPDATED: Replaced references to DSG 6.0.2018 with DSG 7.0.2019

**Commented [A52]:** Revision 15: **UPDATED – Corrected** fields in example row to align with example header

### Header, Control Count, and Trailer Records

Every submitted data file **must have** one HH, one HD, one CH, one CD, one DH, **at least one** DD record (when data is present), one TH, and one TD record when submitting data for a coverage period. *Files submitted with no data do not require a DD row.* 

Use values in Data Element ID column as column names in the header record of the Header, Control Count, and Trailer records.

#### File Guidelines

All fields shall be coded with the values specified in the Header and Trailer records data file.

- All fields must be included in the data submission.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header (when data is present), Trailer Header, and Trailer Data record must be included with this file submission. See Header/Control Data/Data/Trailer Row Type Examples.
- The submission environment from which the data is pulled, PROD or TEST, must be included in row.
- The Control Header and Control Data records have different layouts depending on file type. See Control Count Records Layout for file type layout requirements.
- Use values in Data Element ID column as column names for the Header Header Record.

Reminder: You must include the DH record before the DD rows in the submitted file.

### Header Records Layout

| Data Element<br>ID | Data Element          | Description   | Туре    | Format       | Length | Threshold |
|--------------------|-----------------------|---|---------|--------------|--------|-----------|
| НН                 | Record Prefix         | Record Prefix  Place the value HD in the header detail record.  | Text    | char         | 2      | 100%      |
| HD001              | Submitter             | - Code representing entity submitting payments.  - Use 5 to 6 alphanumeric entity code provided by Arkansas APCD team assigned during registration process (see the File Naming Convention section).  - Must match entity code in the file name.  - Must match TR001.       | Text    | varchar      | 6      | 100%      |
| HD002              | National Plan ID      | Centers for Medicare & Medicaid Services (CMS) National Plan Identification Number (Plan ID). Do not report any value here until National Plan ID is fully implemented. This is a unique identifier as outlined by CMS for Plans or Sub Plans. Must match TR002.            | Integer | unsigned int | 10     | 0%        |
| HD003              | Type of File          | MC = Medical Institutional & Professional Claims PC = Pharmacy Claims ME = Member Enrollment Data DC = Dental Claims PV = Medical/Dental Provider Data LU = Lookup Table Must match TR003   | Text    | char         | 2      | 100%      |
| HD004              | Period Beginning Date | First date covered in submission period. Must match TR004. Submission periods begin on the first day of the first month of the coverage period. This value should not represent the first transaction date within the month.  | Date    | YYYY-MM-DD   | 10     | 100%      |
| HD005              | Period Ending Date    | Last date covered in submission period. Must match ending coverage period date in file name. Must match TR005. Submission periods end on the last day of the last month in the coverage period. This value should not represent the last transaction date within the month. | Date    | YYYY-MM-DD   | 10     | 100%      |
| HD006              | Record Count          | Total number of DD records in the submission. Count does not include header or trailer records. If the number of records within the submission do not equal the number reported in this field, the submission will fail.  | Integer | unsigned int | 10     | 100%      |

| Submission File Count                | Number of datasets to expect for this file submission. Should match the [FileCount] value in the file name.  For example:  If a submitted file required division into three manageable smaller datasets, each file would contain a header record representing the number of datasets to expect and the number of the single dataset as it relates to the entire file.  File 1 File 2 File 3  HD007 = 03 HD007 = 03 HD007 = 03 | Integer  | unsigned int  | 2                                       | 100%   |
|--------------------------------------|---|--|---|---|--|
|                                      | HD007 = 03  |  |   |   |  |
| Submission File<br>Number            | HD007 = 01 HD008 = 01  Number representing the dataset within file submission. Should match the [FileNo] value in the file name.  | Integer  | unsigned int  | 2                                       | 100%   |
|                                      | See example in HD007.   |  |   |   |  |
| OSG Version                          | APCD Data Submission Guide version number.  All records should contain the value 7.0.2019.  | Text   | varchar   | 10                                      | 100%   |
| Submission<br>Environment Identifier | Identifies the submission environment from which the file is pulled.  PROD = File submitted for production usage TEST = File submitted as part of testing prior to production SUPL = Supplemental files (required only if interim files are required  | Text   | Char  | 4                                       | 100%   |
| )<br>OS                              | G Version   | http:// Number representing the dataset within file submission. Should match the [FileNo] value in the file name.  See example in HD007.  G Version  APCD Data Submission Guide version number.  All records should contain the value 7.0.2019.  Identifies the submission environment from which the file is pulled.  PROD = File submitted for production usage TEST = File submitted as part of testing prior to production | hD008 = 01  Number representing the dataset within file submission. Should match the [FileNo] value in the file name.  See example in HD007.  G Version  APCD Data Submission Guide version number.  All records should contain the value 7.0.2019.  Identifies the submission environment from which the file is pulled.  PROD = File submitted for production usage TEST = File submitted as part of testing prior to production SUPL = Supplemental files (required only if interim files are required | hnd | HD008 = 01  Number representing the dataset within file submission. Should match the [FileNo] value in the file name.  See example in HD007.  G Version  APCD Data Submission Guide version number.  All records should contain the value 7.0.2019.  Identifies the submission environment from which the file is pulled.  PROD = File submitted for production usage TEST = File submitted as part of testing prior to production SUPL = Supplemental files (required only if interim files are required) |

### Member Enrollment Data

### File Guidelines

All fields shall be coded with the values specified in the Enrollment data file.

- All fields must be included in the data submission.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when data is present), Trailer Header, and Trailer Data record must be included, in order, with this file submission. See example below.
- The Member Enrollment control count data layout is found in Control Count Record Layout Member Data.
- Use values in Data Element ID column as column names for the Detail Data Header Record.
- If a value is not present for Date, Integer, or Numeric fields, pass a NULL value (||).
- If a data exception has been applied, pass a NULL value (||) in the field.
- If a required field contains only values representing Unknown, Other, or Not Applicable, the submission will be failed and a data exception will be required.
- If a date value is unavailable, leave Null. Do not insert system default date. If a default date is encountered, the file will fail data submission validation. Dates older than 1910-01-01 will be flagged for further review.

Member Data Submission Example (DH and DD are shortened for example)

| Category      | Record Type        | Example   |

APCD Unique IDs will be consistent across records, representing every instance of a unique combination of the fields specified.  See Submitted Data Encryption Requirements.  | Text | varchar | 100    | 100%      | Required |
| 76 | ME107A             | Carrier Specific Unique<br>Member ID – Alias     | Alias Member Unique ID.  This field is used when submitting entity internal systems change, resulting in systemwide or sub-systemwide member ID changes. This field should contain the original member ID when this change happens. ME107 would contain the new member ID generated by the new system or sub-system.  This field should be populated with the original member ID every time the member record is submitted thereafter.  | Text | varchar | 128    | 0%        | Optional |
| 77 | ME117A             | Carrier Specific Unique<br>Subscriber ID – Alias | Alias Subscriber's Unique ID.  This field is used when submitting entity internal systems change, resulting in systemwide or sub-systemwide subscriber ID changes. This field should contain the original subscriber ID when this change happens. ME117 would contain the new subscriber ID generated by the new system or sub-system.  This field should be populated with the original subscriber ID every time the member record is submitted thereafter.  | Text | varchar | 128    | 0%        | Optional |

Commented [A61]: Revision 18: UPDATED – Added requirement for field to be continuously populated after system change triggers ID change.

Commented [A62]: Revision 18: UPDATED – Added requirement for field to be continuously populated after system change triggers ID change.

| ID | Data<br>Element ID | Data Element | Description   | Туре | Format       | Length | Threshold | Required |
|----|--------------------|--------------|---|------|--------------|--------|-----------|----------|
| 78 | ME993              | System ID    | This field represents the submitting entity internal system from which data is sourced.  The default value is 0, representing the initial system from which the data is pulled. Place the value 0 on all records initially.  If a system changes, increase the value by increments of 1. For example, if a system changes, the value would change from 0 to 1. If it changes again, the value would change from 1 to 2.  This ID represents the system at the record level. Some submitting entities combine data from multiple systems into a single submission. If one of these systems changes, the system ID would be incremented on the records from the changed system. The system ID on the remaining records would not change.  If the system changes, resulting in member ID and subscriber ID changes, utilize the Alias fields to capture new and previous member and subscriber IDs for continuity. | Int  | Unsigned Int |        | 100%      | Required |

## Medical Claims Data

## File Guidelines

All fields shall be coded with the values specified in the Enrollment data file.

- All fields must be included in the data submission.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when data is present), Trailer Header, and Trailer Data record must be included, in order, with this file submission. See example below.
- The Medical Claim Data control count data layout is found in Control Count Record Layout Medical Claim Data.
- Use values in the Data Element ID column as column names for the Detail Data Header Record.
- If a value is not present for Date, Integer, or Numeric fields, pass a NULL value (||).
- If a data exception has been applied, pass a NULL value (||) in the field.
- If a required field contains only values representing Unknown, Other, or Not Applicable, the submission will be failed and a data exception will be required.
- If a date value is unavailable, leave Null. Do not insert system default date. If a default date is encountered, the file will fail data submission validation. Dates older than 1910-01-01 will be flagged for further review.

## Medical Claim Submission Example (DH and DD are shortened for example)

| Category      | Record Type        | Example  |

## Medical Claims Data Table Layout

| ID | Data<br>Element ID | Data Element                   | Description   | Туре    | Format       | Length | Threshold            | Required |
|----|--------------------|--------------------------------|---|---------|--------------|--------|----------------------|----------|
| 1  | DH                 | Record Prefix                  | Record Prefix  Place the value DD in the Medical claims data detail record.   | Text    | char         | 2      | 100%                 | Required |
| 2  | MC999              | Unique Row ID                  | Each row must contain a unique ID or row number.  | Integer | unsigned int | 15     | 100%                 | Required |
| 3  | MC001              | Submitter                      | - Code representing entity submitting payments Use 5 to 6 alphanumeric entity code provided by Arkansas APCD team assigned during registration process (see the File Naming Convention section) Must match entity code in the file name Must match HD001 and TR001.   | Text    | varchar      | 6      | 100%                 | Required |
| 4  | MC002              | National Plan ID               | Centers for Medicare & Medicaid Services (CMS) National Plan Identification Number (Plan ID). Do not report any value here until National Plan ID is fully implemented. This is a unique identifier as outlined by CMS for Plans or Sub Plans.  | Integer | unsigned int | 30     | 0%                   | Optional |
| 5  | MC003              | Insurance<br>Type/Product Code | Insurance type or product identification code that indicates the individual's type of insurance coverage. See Appendix A - Insurance Type/Product Code.   | Text    | varchar      | 6      | 99%                  | Required |
| 6  | MC004              | Payer Claim Control<br>Number  | Claim number used by the submitting entity to internally track the claim. In general, the claim number is associated with all service lines of the bill. It must apply to the entire claim and be unique within the submitting entity's system.   | Text    | varchar      | 35     | 99%                  | Required |
| 7  | MC005              | Line Number                    | Line number for this service. The line counter begins with 1 and is incremented by 1 for each additional service line of a claim. This field is used in algorithms to determine the final payment for the service. If the submitting entity's processing system assigns an internal line counter for the adjudication process, that number may be submitted in place of the line number submitted by the provider | Integer | unsigned int | 4      | 99%                  | Required |
| 8  | MC005A             | Version Number                 | Final version number of the claim or claim service line. This value can be assigned independently in the claims system or it can be extracted from the claim number.  The dependency for this field may change depending on the version approach selected. These changes will be handled with the exception process. If not applicable to the versioning  | Text    | varchar      | 35     | 100% if<br>MC706 = 1 | Required |

See Exhibit C - APCD Claims Versioning. | Int  | Unsigned int | 3      | 100%      | Required |
| 176 | MC707              | Previous Claim Number                        | Claim number representing the claim from which the current claim was versioned. This is not the original claim number, although it could be if the claim was only versioned once. This field is required to accommodate custom versioning.  If not required, leave null and request exception.  | Text | varchar      | 35     | 35%       | Required |
| 177 | MC117A             | Carrier Specific Unique<br>Member ID – Alias | Alias Member Unique ID  This field is used when submitting entity internal systems change, resulting in systemwide or sub-systemwide member ID changes. This field should contain the original member ID as submitted to the Arkansas APCD when this change happens.  | Text | varchar      | 128    | 0%        | Optional |

| ID  | Data<br>Element ID | Data Element                                     | Description  | Туре | Format       | Length | Threshold | Required |
|-----|--------------------|--|--|------|--------------|--------|-----------|----------|
|     | Elementis          |  | MC137 would contain the new member ID generated by the new system or sub-system. This field should be populated with the original member ID every time the member record is submitted thereafter.  |      |              |        |           |          |
| 178 | MC141A             | Carrier Specific Unique<br>Subscriber ID – Alias | Alias subscriber's unique ID.  This field is used when submitting entity internal systems change, resulting in systemwide or sub-systemwide subscriber ID changes. This field should contain the original subscriber ID as submitted to the Arkansas APCD when this change happens. MC141 would contain the new subscriber ID generated by the new system or sub-system. This field should be populated with the original subscriber ID every time the member record is submitted thereafter.  | Text | varchar      | 128    | 0%        | Optional |
| 179 | MC993              | System ID  | The system ID.  This field represents the submitting entity internal system from which data is sourced.  The default value is 0, representing the initial system from which the data is pulled. Place the value 0 on all records initially.  If a system changes, increase the value by increments of 1. For example, if a system changes, the value would change from 0 to 1. If it changes again, the value would change from 1 to 2.  This ID represents the system at the record level. Some submitting entities combine data from multiple systems into a single submission. If one of these systems changes, the system ID would be incremented on the records from the changed system. The system ID on the remaining records would not change.  If the system changes resulting in member ID and subscriber ID changes, utilize the Alias fields to capture new and previous member and subscriber IDs for continuity. | Int  | Unsigned Int | 1      | 100%      | Required |

**Commented [A79]:** Revision 18: **UPDATED** – Added requirement for field to be continuously populated after system change triggers ID change.

Commented [A80]: Revision 18: UPDATED – Added requirement for field to be continuously populated after system change triggers ID change.

## Pharmacy Claims Data

## File Guidelines

All fields shall be coded with the values specified in the Enrollment data file.

- All fields must be included in the data submission
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when data is present), Trailer Header, and Trailer Data record must be included in order with this file submission. See example below.
- The Pharmacy Claim Data control count data layout is found in Control Count Record Layout Pharmacy Claims Data.
- Use values in Data Element ID column as column names for the Detail Data Header Record.
- If a value is not present for Date, Integer or Numeric fields, pass a NULL value (||).
- If a data exception has been applied, pass a NULL value (||) in the field.
- If a required field contains only values representing Unknown, Other, or Not Applicable, the submission will be failed and a data exception will be required.
- If a date value is unavailable, leave Null. Do not insert system default date. If a default date is encountered, the file will fail data submission validation. Dates older than 1910-01-01 will be flagged for further review.

## Pharmacy Claim Submission Example (DH and DD are shortened for example)

This is a unique identifier as outlined by CMS for Plans or Sub Plans.   | Integer | unsigned int | 30     | 0%                   | Optional |
| 5  | PC003              | Insurance<br>Type/Product<br>Code | Insurance type or product identification code that indicates the type of insurance coverage the individual has. See <u>Appendix A - Insurance Type/Product Code</u> .  | Text    | varchar      | 6      | 99%                  | Required |
| 6  | PC004              | Payer Claim<br>Control Number     | Claim number used by the submitting entity to internally track the claim. In general, the claim number is associated with all service lines of the claim. It must apply to the entire claim and be unique within the submitting entity's system.   | Text    | varchar      | 35     | 100%                 | Required |
| 7  | PC005              | Line Number                       | Line number for this service. The line counter begins with 1 and is incremented by 1 for each additional service line of a claim. This field is used in algorithms to determine the final payment for the service. If the submitting entity's processing system assigns an internal line counter for the adjudication process, that number may be submitted in place of the line number submitted by the provider. | Integer | unsigned int | 4      | 0%                   | Optional |
| 8  | PC005A             | Version Number                    | Final version number of the claim or claim service line. This value can be assigned independently in the claims system or it can be extracted from the claim number.  The dependency for this field may change depending on the version approach selected. These changes will be handled with the exception process. If not applicable to the versioning process,  | Text    | varchar      | 35     | 100% if<br>PC706 = 1 | Required |

| 79 | PC700              | Void Date                              | Date representing the date the claim or claim line was voided. Used for versioning process.  Void Date must be greater than or equal to PC017, Paid Date.  If this field is not used for versioning, submit an exception to set the required threshold to 0.   | Date    | YYYY-MM-DD | 10     | 5%                           | Required |
| 80 | PC701              | Source/Processing<br>System Identifier | Code or name identifying claims processing system upon which the version process was executed.  If this field is not used for versioning, submit an exception to set the required threshold to 0.  | Text    | varchar    | 15     | 10%                          | Required |
| 81 | PC702              | Adjustment<br>/Amendment Date          | If PC110 is A, Date representing the date the claim or claim line was adjusted. Used for versioning process.  If PC110 is M, Date representing the date the claim or claim line was amended. Used for versioning process.  If this field is not used for versioning, submit an exception to set the required threshold to 0. | Date    | YYYY-MM-DD | 10     | 100% if<br>PC110 = M<br>or A | Required |

| ID | Data<br>Element ID | Data Element                                    | Description   | Туре | Format       | Length | Threshold                        | Required |
|----|--------------------|---|---|------|--------------|--------|----------------------------------|----------|
| 82 | PC703              | Adjudication Date                               | Date representing the date the claim or claim line was adjudicated. Used for versioning process.  If this field is not used for versioning, submit an exception to set the required threshold to 0.   | Date | YYYY-MM-DD   | 10     | 100% if<br>PC110 = A,<br>M, R, B | Required |
| 83 | PC704              | Original Claim<br>Number                        | Original Claim Number. Report the Claim Control Number (PC004) that was originally sent in a prior filing to which this line corresponds. When reported, this data cannot equal its own PC004.  If this field is not used for versioning, submit an exception to set the required threshold to 0.   | Text | varchar      | 35     | 10% if<br>PC005A > 1             | Required |
| 84 | PC706              | Versioning<br>Method                            | Identifies which versioning method will be used for these data.  If no versioning process is applicable or available, populate with the value 8.  1 = Versioning Approach 1 - Version Number 2 = Versioning Approach 2 - Version Date 3 = Versioning Approach 3 - Original Claim Number 4 = Versioning Approach 4 - Claim Status and Paid Date 5 = Versioning Approach 5 - Paid Date 6 = Versioning Approach 6 - Complete Replacement 7 = Versioning Approach 7 - Pharmacy 8 = Versioning Approach 8 - Not available  Custom versioning processes will be assigned an entity specific versioning method number. See Exhibit C - APCD Claims Versioning. | Int  | Unsigned int | 3      | 100%                             | Required |
| 85 | PC707              | Previous Claim<br>Number                        | Claim number representing the claim from which the current claim was versioned. This is not the original claim number, although it could be if the claim was only versioned once. This field is required to accommodate custom versioning.  If not required, leave null and request exception.  | Text | varchar      | 35     | 35%                              | Required |
| 86 | PC107A             | Carrier Specific<br>Unique Member<br>ID – Alias | Alias member's unique ID.  This field is used when submitting entity internal systems change, resulting in systemwide or sub-systemwide member ID changes. This field should contain the original member ID when this change happens. PC107 would contain the new member ID generated by the new system or sub-system. This field should be populated with the original member ID every time the member record is submitted thereafter.   | Text | varchar      | 128    | 0%                               | Optional |

Commented [A91]: Revision 18: UPDATED – Added requirement for field to be continuously populated after system change triggers ID change.

## **Dental Claims Data**

## File Guidelines

All fields shall be coded with the values specified in the Enrollment data file.

- All fields must be included in the data submission.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when data is present), Trailer Header, and Trailer Data record must be included in order with this file submission. See example below.
- The Dental Claim Data control count data layout is found in Control Count Record Layout Dental Claim Data.
- Use values in Data Element ID column as column names for the Detail Data Header Record.
- If a value is not present for Date, Integer or Numeric fields, pass a NULL value (||).
- If a data exception has been applied, pass a NULL value (||) in the field.
- If a required field contains only values representing Unknown, Other, or Not Applicable, the submission will be failed and a data exception will be required.
- If a date value is unavailable, leave Null. Do not insert system default date. If a default date is encountered, the file will fail data submission validation. Dates older than 1910-01-01 will be flagged for further review.

Dental Claim Submission Example example (DH and DD are shortened for example)

| Category      | Record Type        | Example  |

Reminder: You must include the DH record before the DD rows in the submitted file.

Commented [A94]: Revision 0: UPDATED: Replaced references to DSG 6.0.2018 with DSG 7.0.2019

# Dental Claims Data Table Layout

| ID | Data Element<br>ID | Data Element                   | Description  | Туре    | Format       | Length | Threshold            | Required |
|----|--------------------|--------------------------------|--|---------|--------------|--------|----------------------|----------|
| 1  | DH                 | Record Prefix                  | Record Prefix  Place the value DD in the Dental Claims Data detail record.   | Text    | char         | 2      | 100%                 | Required |
| 2  | DC999              | Unique Row ID                  | Each row must contain a unique ID or row number.   | Integer | unsigned int | 15     | 100%                 | Required |
| 3  | DC001              | Submitter                      | - Code representing entity submitting payments Use 5 to 6 alphanumeric entity code provided by Arkansas APCD team assigned during registration process (see File Naming Convention section) Must match entity code in the file name Must match HD001 and TR001.  | Text    | varchar      | 6      | 100%                 | Required |
| 4  | DC002              | National Plan ID               | Centers for Medicare & Medicaid Services (CMS) National Plan Identification Number (Plan ID). Do not report any value here until National Plan ID is fully implemented. This is a unique identifier as outlined by CMS for plans or sub plans.   | Integer | unsigned int | 30     | 0%                   | Optional |
| 5  | DC003              | Insurance Type/Product<br>Code | Insurance type or product identification code that indicates the type of insurance coverage the individual has. See Appendix A - Insurance Type/Product Code.  | Text    | varchar      | 6      | 98%                  | Required |
| 6  | DC004              | Payer Claim Control<br>Number  | Claim number used by the submitting entity to internally track the claim. In general, the claim number is associated with all service lines of the bill. It must apply to the entire claim and be unique within the submitting entity's system.  | Text    | varchar      | 35     | 100%                 | Required |
| 7  | DC005              | Line Counter                   | Line number for this service. The line counter begins with 1 and is incremented by 1 for each additional service line of a claim. This field is used in algorithms to determine the final payment for the service. If the submitting entity's processing system assigns an internal line counter for the adjudication process, that number may be submitted in place of the line number submitted by the provider. | Integer | unsigned int | 4      | 100%                 | Required |
| 8  | DC005A             | Version Number                 | Final version number of the claim or claim service line. This value can be assigned independently in the claims system or it can be extracted from the claim number.   | Text    | varchar      | 35     | 100% if<br>DC706 = 1 | Required |
|    |                    |                                | The dependency for this field may change depending on the version approach selected. These changes will be handled with the exception process. If not applicable to the versioning process, request an exception. See <a href="Exhibit C - APCD Claims Versioning">Exhibit C - APCD Claims Versioning</a> .  |         |              |        |                      |          |

**Commented [A96]:** Revision 16: **UPDATED** – Data element format and/or length change

| ID | Data Element<br>ID | Data Element   | Description  | Туре    | Format       | Length | Threshold            | Required |
|----|--------------------|--|--|---------|--------------|--------|----------------------|----------|
| 9  | DC005B             | Version Number Date                                  | Value representing the latest version of the claim. Values can be YYMM or Julian date with 2-digit year and 3-digit day (e.g., January 15, 2016 = 16015).  The dependency for this field may change depending on the version approach selected. These changes will be handled with the exception process. If not applicable to the versioning process, request an exception. See <a href="Exhibit C - APCD Claims">Exhibit C - APCD Claims</a> Versioning. | Integer | Unsigned int | 5      | 100% if<br>DC706 = 2 | Required |
| 10 | DC006              | Insured Group or Policy<br>Number                    | The alphanumeric group or policy number is associated with the entity that has purchased the insurance. For self-funded plans, this relates to the employer paying for claims where the carrier acts as TPA. For the majority of enrollment and claims data the group relates to the employer.   | Text    | varchar      | 30     | 98%                  | Required |
| 11 | DC008              | Plan Specific Contract<br>Number                     | Submitting entity assigned contract number for the subscriber. Set as null if unavailable. Set as null if contract number is the subscriber's social security number.  | Text    | varchar      | 20     | 100%                 | Required |
| 12 | DC009              | Member Suffix or<br>Sequence Number<br>(Person Code) | Unique number of the member within the contract. Must be an identifier that is unique to the member. This column is the unique identifying column for membership and related medical and pharmacy claims (e.g., the value for person one is 001, the value for person two is 002, etc.). This value does not have to be in the this format (001, 002, etc.) if the claims system numbers members differently.  | Integer | int          | 3      | 99%                  | Required |
| 13 | DC011              | Individual Relationship<br>Code                      | Member's relationship to the subscriber or the insured. See Appendix B - Relationship Code.  | Integer | char         | 2      | 100%                 | Required |
| 14 | DC012              | Member Gender  | Gender of the member.  M = Male F = Female U = Unknown   | Text    | char         | 1      | 100%                 | Required |
| 15 | DC013              | Member Date of Birth                                 | Member's date of birth.  | Date    | YYYY-MM-DD   | 10     | 100%                 | Required |
| 16 | DC016              | Member ZIP Code                                      | The 5-digit USPS ZIP Code of member's residence. See<br>Appendix K - External Sources.   | Integer | char         | 5      | 98%                  | Required |
| 17 | DC017              | Paid Date  | Paid date of the claim line. Report the date that appears on the check and/or remit and/or explanation of benefits and corresponds to any and all types of payment.  | Date    | YYYY-MM-DD   | 10     | 100%                 | Required |
| 18 | DC018              | Service Provider<br>Number                           | Submitting entity assigned or legacy rendering/attending provider number. This field will be used to create a master provider index for Arkansas providers encompassing both medical service providers and prescribing providers. Submit   | Text    | varchar      | 30     | 98%                  | Required |

**Commented [A97]:** Revision 16: **UPDATED** – Data element format and/or length change

| ID | Data Element<br>ID | Data Element  | Description   | Туре    | Format       | Length | Threshold | Required |
|----|--------------------|---|---|---------|--------------|--------|-----------|----------|
|    | טו                 |   | facility for institutional claims; physician or healthcare professional for professional claims.  |         |              |        |           |          |
| 19 | DC019              | Service Provider EIN /<br>Federal Tax ID Number       | Federal taxpayer's identification number for rendering/attending provider. This field will be used to create a master provider index for Arkansas providers encompassing both medical service providers and prescribing providers. An Employer Identification Number (EIN) is also known as a Federal Tax Identification Number, and is used to identify a business entity. Alphanumeric characters only — omit spaces and hyphens. | Text    | varchar      | 15     | 50%       | Required |
| 20 | DC020              | National Service<br>Provider ID                       | National Provider Identification (NPI) number for the entity or individual directly providing the service. This field will be used to create a master provider index for medical service and prescribing providers. See Appendix K - External Sources.  | Integer | char         | 10     | 98%       | Required |
| 21 | DC021              | Service Provider Entity<br>Type Qualifier             | Flag identifying Service Provider NPI as person or non-<br>person/facility. Use 2 if the provider cannot be identified as an<br>individual provider.  1 = Person 2 = Non-Person entity  | Integer | unsigned int | 1      | 100%      | Required |
| 22 | DC022              | Service Provider First<br>Name                        | Service Provider first name. Set to null if provider is a facility or an organization.  | Text    | varchar      | 25     | 98%       | Required |
| 23 | DC023              | Service Provider Middle<br>Name                       | Service provider middle name. Set to null if provider is a facility or an organization.   | Text    | varchar      | 25     | 2%        | Required |
| 24 | DC024              | Service Provider Last<br>Name or Organization<br>Name | Service provider last name. If not individual, place organization name in this field.   | Text    | varchar      | 100    | 98%       | Required |
| 25 | DC025              | Service Provider Suffix                               | Service provider suffix is used to capture any generational identifiers associated with an individual clinician's name (e.g., Jr., Sr., III). Do not code the clinician's credentials (e.g., MD, LCSW) in this field. Set to null if the provider is a facility or an organization.   | Text    | varchar      | 10     | 10%       | Required |
| 26 | DC026              | Service Provider<br>Taxonomy                          | Taxonomy Code – Standard code that defines this provider for this line of service. Taxonomy values allow for the reporting of hygienists, assistants and laboratory technicians, where applicable, as well as dentists, orthodontists, etc. See <a href="Appendix K-External Sources">Appendix K-External Sources</a> .   | Text    | varchar      | 10     | 0%        | Optional |
| 27 | DC027              | Service Provider City                                 | City of service provider's address.   | Text    | varchar      | 30     | 98%       | Required |
| 28 | DC028              | Service Provider State or Province                    | State or province of the service provider's address. See Appendix K - External Sources.   | Text    | char         | 2      | 98%       | Required |

| ID | Data Element<br>ID | Data Element                    | Description  | Туре    | Format       | Length | Threshold | Required |
|----|--------------------|---------------------------------|--|---------|--------------|--------|-----------|----------|
| 29 | DC029              | Service Provider ZIP<br>Code    | The 5-digit USPS ZIP Code of the service provider's address. See<br>Appendix K - External Sources.   | Integer | char         | 5      | 98%       | Required |
| 30 | DC030              | Facility Type -<br>Professional | Type of professional facility where the service was performed. The field should be set to null for institutional claims. See Appendix E - Facility Type.   | Integer | unsigned int | 2      | 98%       | Required |
| 31 | DC032              | CDT Code                        | Common Dental Terminology Codes. Use standard CDT codes where codes are prefaced with D. See <u>Appendix K - External Sources</u> .  | Text    | varchar      | 5      | 100%      | Required |
| 32 | DC033              | Procedure Modifier - 1          | Common Dental Terminology Code Modifier – Report a valid procedure modifier when a modifier clarifies/improves the reporting accuracy of the associated procedure code. See Appendix K - External Sources.   | Text    | char         | 2      | 98%       | Required |
| 33 | DC034              | Procedure Modifier - 2          | Common Dental Terminology Code Modifier – Report a valid Procedure modifier when a modifier clarifies/improves the reporting accuracy of the associated procedure code. See Appendix K - External Sources.   | Text    | char         | 2      | 50%       | Required |
| 34 | DC035              | Date of Service From            | Date of service for this service line.   | Date    | YYYY-MM-DD   | 10     | 100%      | Required |
| 35 | DC036              | Date of Service Thru            | Last date of service for this service line. It can equal Date of Service From when a single date of service is reported.   | Date    | YYYY-MM-DD   | 10     | 100%      | Required |
| 36 | DC037              | Charge Amount                   | Total charges for the service as reported by the provider to the insurance carrier. This is a money field containing dollars and cents. Code decimal point. This field may contain a negative value. \$0.00 is a valid value.  If this field is changed in the versioning process and the dollars must be voided or backed out, the value should be represented as a negative. | Numeric | ±decimal     | 10,2   | 98%       | Required |
| 37 | DC038              | Paid Amount                     | Amount paid by the submitting entity/insurance carrier for the claim line. This is a money field containing dollars and cents. Code decimal point. This field may contain a negative value. \$0.00 is a valid value.  If this field is changed in the versioning process and the dollars must be voided or backed out, the value should be represented as a negative.          | Numeric | ±decimal     | 10,2   | 100%      | Required |

**Commented [A98]:** Revision 22: **UPDATED** – Added clarifying information to definition.

| ID | Data Element<br>ID | Data Element                                    | Description   | Туре    | Format   | Length | Threshold | Required |
|----|--------------------|---|---|---------|----------|--------|-----------|----------|
| 38 | DC039              | Copay Amount                                    | Pre-set, fixed dollar amount payable by a member, often on a per-visit/per-service basis. This is a money field containing dollars and cents. Code decimal point. This field may contain a negative value. \$0.00 is a valid value.  If this field is changed in the versioning process and the dollars must be voided or backed out, the value should be represented as a negative.  | Numeric | ±decimal | 10,2   | 98%       | Required |
| 39 | DC040              | Coinsurance Amount                              | Amount that defines a calculated percentage amount for the claim line service that the individual is responsible to pay. This is a money field containing dollars and cents. Code decimal point. This field may contain a negative value. \$0.00 is a valid value.  If this field is changed in the versioning process and the dollars must be voided or backed out, the value should be represented as a negative.   | Numeric | ±decimal | 10,2   | 98%       | Required |
| 40 | DC041              | Deductible Amount                               | Amount that defines a preset, fixed amount for this claim line service that the individual is responsible to pay. Report \$0.00 if no deductible applies to service. This is a money field containing dollars and cents. Code decimal point. This field may contain a negative value. \$0.00 is a valid value.  If this field is changed in the versioning process and the dollars must be voided or backed out, the value should be represented as a negative. | Numeric | ±decimal | 10,2   | 98%       | Required |
| 41 | DC042              | Product Identifier                              | Submitter-assigned product identifier for type of coverage/product purchased.   | Text    | varchar  | 30     | 100%      | Required |
| 42 | DC044              | Billing Provider EIN /<br>Federal Tax ID Number | Billing provider's Federal Tax Identification Number.  An Employer Identification Number (EIN) is also known as a Federal Tax Identification Number, and is used to identify a business entity. Do not use hyphen or alpha prefix.  Alphanumeric characters only — omit spaces and hyphens.   | Text    | varchar  | 15     | 50%       | Required |
| 43 | DC046              | Allowed Amount                                  | Maximum amount contractually allowed and that an insurance carrier will pay to a provider for a particular procedure or service. This is a money field containing dollars and cents. Code decimal point. This field may contain a negative value. \$0.00 is a valid value.  If this field is changed in the versioning process and the dollars must be voided or backed out, the value should be represented as a negative.                                     | Numeric | ±decimal | 10,2   | 100%      | Required |

| ID | Data Element<br>ID | Data Element                             | Description   | Туре | Format  | Length | Threshold | Required |
|----|--------------------|--|---|------|---------|--------|-----------|----------|
| 44 | DC047              | Placeholder                              |   |      |         |        |           |          |
| 45 | DC048              | Placeholder                              |   |      |         |        |           |          |
| 46 | DC049              | Placeholder                              |   |      |         |        |           |          |
| 47 | DC056              | Carrier Specific Unique<br>Member ID     | Member's unique ID.  Value should be masked prior to submission to the APCD.  Masking should be consistent across time so the masked value representing the Member ID does not change. Masking criteria should be determined by submitting entity.  | Text | varchar | 128    | 100%      | Required |
| 48 | DC057              | Carrier Specific Unique<br>Subscriber ID | Subscriber's unique ID.  Value should be masked prior to submission to the APCD.  Masking should be consistent across time so the masked value representing the Subscriber ID does not change. Masking criteria should be determined by submitting entity.  | Text | varchar | 128    | 100%      | Required |
| 49 | DC059              | Claim Status                             | Status of the claim header or claim line.  O = Original A = Adjusted – data on claim has been changed.* B = Back Out/Reversal – record aligns with existing record that is no longer valid, nullifying the claim line's associated information. Dollars should be represented as negative. An adjustment, amendment, or replacement claim is expected to replace claim. D = Delete/Drop – claim line will be dropped from data. Negative dollar values are preferred. M = Amendment – data on claim has been changed.* R = Replacement – data on claim has been changed.* V = Void – record aligns with existing record that is incorrect and should not be used. Dollars should be represented as negative. F = Final – Status for paid claims (use when versioning process does not require claim status to identify final claim). Use as default.  *These values have the same meaning. The values differ to align with submitting entity claims systems in an effort to reduce submitting entity data transformation. | Text | char    | 1      | 100%      | Required |

This field should contain the original subscriber ID when this change happens. DC057 would contain the new subscriber ID generated by the new system or sub-system. This field should be populated with the original subscriber ID every time the member record is submitted thereafter.   | Text    | varchar      | 128    | 0%        | Optional |
| 67 | DC993        | System ID  | System ID.  This field represents the submitting entity internal system from which data is sourced. The default value is 0, representing the initial system from which the data is pulled. Place the value 0 on all records initially.  If a system changes, increase the value by increments of 1. For example, if a system changes, the value would change from 0 to 1. If it changes again, the value would change from 1 to 2.  This ID represents the system at the record level. Some submitting entities combine data from multiple systems into a single submission. If one of these systems changes, the system ID would be incremented on the records from the changed system. The system ID on the remaining records would not change. | Int     | Unsigned Int | 1      | 100%      | Required |
|    |              |  | If the system changes resulting in member ID and subscriber ID changes, utilize the Alias fields to capture new and previous member and subscriber IDs for continuity.  |         |              |        |           |          |

**Commented [A104]:** Revision 18: **UPDATED** – Added requirement for field to be continuously populated after system change triggers ID change.

Commented [A105]: Revision 18: UPDATED – Added requirement for field to be continuously populated after system change triggers ID change.

#### Provider Data

## File Guidelines

All fields shall be coded with the values specified in the Enrollment data file.

- All fields must be included in the data submission.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when data is present), Trailer Header, and Trailer Data record must be included in order with this file submission. See example below.
- The Provider Data control count data layout is found in Control Count Record Layout Provider Data.
- Use values in Data Element ID column as column names for the Detail Data Header Record.
- If a value is not present for Date, Integer or Numeric fields, pass a NULL value (| | ).
- If a data exception has been applied, pass a NULL value (||) in the field.
- If a required field contains only values representing Unknown, Other, or Not Applicable, the submission will be failed and a data exception will be required.
- If a date value is unavailable, leave Null. Do not insert system default date. If a default date is encountered, the file will fail data submission validation. Dates older than 1910-01-01 will be flagged for further review.

Provider Data Submission Example example (DH and DD are shortened for example)

Reminder: You must include the DH record before the DD rows in the submitted file.

Commented [A107]: Revision 0: UPDATED: Replaced references to DSG 6.0.2018 with DSG 7.0.2019

**Commented [A108]:** Revision 15: **UPDATED – C**orrected fields in example row to align with example header

# Provider File Data Table Layout

| ID | Data<br>Element ID | Data Element                     | Description  | Туре    | Format       | Length   | Threshold | Required |
|----|--------------------|----------------------------------|--|---------|--------------|----------|-----------|----------|
| 1  | DH                 | Record Prefix                    | Record Prefix  Place the value DD in the Provider Data detail record.  | Text    | char         | 2        | 100%      | Required |
| 2  | PV999              | Unique Row ID                    | Each row must contain a unique ID or row number.   | Integer | unsigned int | 15       | 100%      | Required |
| 3  | PV114              | Submitter                        | - Code representing entity submitting payments.  - Use 5 to 6 alphanumeric entity code provided by Arkansas APCD team assigned during registration process (see File Naming Convention section).  - Must match entity code in the file name.  - Must match HD001 and TR001.  | 6       | 100%         | Required |           |          |
| 4  | PV001              | Provider ID                      | Unique identified identifier for the provider as assigned by the reporting Text varchar 30 entity/carrier.   |         |              |          |           | Required |
| 5  | PV002              | Provider EIN /<br>Federal Tax ID | ederal Tax ID for provider. An Employer Identification Number (EIN) is also nown as a Federal Tax Identification Number, and is used to identify a usiness entity. Alphanumeric characters only — omit spaces and hyphens.   |         |              |          |           | Required |
| 6  | PV003              | Entity Type                      | The entity type. Report the value that defines the type of entity associated with PV002. The value reported here drives intake edits for quality purposes.  0 = Other; any type of entity not otherwise defined that performs healthcare services.  1 = Person; physician, clinician, orthodontist, and any individual that is licensed/certified to perform healthcare services.  2 = Facility; hospital, health center, long-term care, rehabilitation and any building that is licensed to transact healthcare services.  3 = Professional Group; collection of licensed/certified healthcare professionals who are practicing healthcare services under the same entity name and Federal Tax Identification Number.  4 = Retail Site; brick-and-mortar licensed/certified place of transaction that is not solely a healthcare entity (i.e., pharmacies, independent laboratories, vision services).  5 = E-Site; internet-based order/logistic system of healthcare services, typically in the form of durable medical equipment, pharmacy or vision services.  Address assigned should be the address of the company delivering services or order fulfillment.  6 = Financial parent; financial governing body that does not perform healthcare services itself but directs and finances healthcare service entities, usually through a board of directors.  7 = Transportation; any form of transport that conveys a patient to/from a healthcare provider. |         | unsigned int | 1        | 98%       | Required |

|    |                    |                                       | This field represents the submitting entity internal system from which data is sourced.   |      |              |        |           |          |
|    |                    |                                       | <b>The default value is 0</b> , representing the initial system from which the data is pulled. Place the value 0 on all records initially.  |      |              |        |           |          |
|    |                    |                                       | If a system changes, increase the value by increments of 1. For example, if a system changes, the value would change from 0 to 1. If it changes again, the value would change from 1 to 2.  |      |              |        |           |          |
|    |                    |                                       | This ID represents the system at the record level. Some submitting entities combine data from multiple systems into a single submission. If one of these systems changes, the system ID would be incremented on the records from the changed system. The system ID on the remaining records would not change. |      |              |        |           |          |

## Lookup Data

#### File Guidelines

All fields shall be coded with the values specified in the Enrollment data file.

- All fields must be included in the data submission.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when data is present), Trailer Header, and Trailer Data record must be included in order with this file submission. See example below.
- The Lookup Data control count data layout is found in Control Count Record Layout Lookup File Data.
- Use values in Data Element ID column as column names for the Detail Data Header Record.
- Lookup data files are required only if the provider specialty data is not provided by CMS Health Care Provider Taxonomy. Submit data exception if CMS Health Care Provider Taxonomy codes are used and Lookup Data file will not be submitted.

Lookup Data Submission Example example (DH and DD are shortened for example)

| Category      | Record Type        | Example   |
|---------------|--------------------|---|
| Header        | Header Header      | HH   HD001   HD002   HD003   HD004   HD005   HD006   HD007   HD008   HD009   HD010  |
|               | Header Data        | HD 28362  LU 2015-01-01 2015-02-01 1 1 1 7.0.2019  PROD   |
| Control Count | Control Header     | CH CC001 CC002 CC003 CC020  |
|               | Control Data       | CD 28362 LU M 87  |
| Data          | Detail Data Header | DH LU001 LU002 LU003 LU004 LU005  |
|               | Detail Data        | DD PED PEDIATRICS  MC032 28362  DD PED PEDIATRICS FAMILY PRACTICE MEDICINE MC212 28362  DD GEN GENERAL FAMILY PRACTICE  MC032 28362  DD GER GERIATRICS  MC212 28362 |
| Trailer       | Trailer Header     | TH TR001 TR002 TR003 TR004 TR005 TR006 TR007  |
|               | Trailer Data       | TD 28362  LU 2015-01-01 2015-02-01 2015-03-01 2015-04-01  |

Reminder: You must include the DH record before the DD rows in the submitted file.

| 6  | LU005              | Submitter                | - Code representing entity submitting payments.  - Use 5 to 6 alphanumeric entity code provided by Arkansas APCD team assigned during registration process (see File Naming Convention section).  - Must match entity code in the file name.  - Must match HD001 and TR001. | Text | varchar | 6      | 100%      | Required |

# Supplemental Payment Data

## File Guidelines

All fields shall be coded with the values specified in the Enrollment data file.

- All fields must be included in the data submission.
- A Header Header, Header Data, Control Header, Control Data, Detail Data Header, Detail Data (when data is present), Trailer Header, and Trailer Data record must be included in order with this file submission. See example below.
- Use values in Data Element ID column as column names for the Detail Data Header Record.

Supplemental Payment Data Submission Example example (DH and DD are shortened for example)

| Category      | Record Type        | Example   |
|---------------|--------------------|---|
| Header        | Header Header      | HH   HD001   HD002   HD003   HD004   HD005   HD006   HD007   HD008   HD009   HD010          |
|               | Header Data        | HD 28362  SP 2015-01-01 2015-02-01 1 1 1 7.0.2019 PROD                                      |
| Control Count | Control Header     | CH CC001 CC002 CC003 (remaining fields to be determined)                                    |

## **EXHIBIT B - ENCRYPTION PROTOCOLS**

## **Data Submission Encryption Protocols**

All data files submitted to the Arkansas APCD are to be encrypted using Public Key Cryptography (also known as asymmetric cryptography):

- Key Generation:
  - o RSA key(s) of 2048-bit length, minimum; encrypt-and-sign capable
  - o DSA key(s) of 2048-bit length, minimum; sign capable
- File Encryption
  - "Encrypt + sign" the unencrypted file into an "encrypted + signed" file
    - 1. "Encrypt" with the recipient's RSA key
    - 2. "Sign" with the sender's DSA key
  - Resulting "encrypted + signed" file extension should be ".gpg"
- "Detach-sign" the "encrypted + signed" file using the sender's DSA key
  - o Resulting "Detached-signature" file extension should be ".gpg.sig"
- Zip the "encrypted + signed" and "detached-signature" files into one archive
  - o Name the .zip archive as follows:

ARAPCD\_[EntityCode]\_[Test or Prod]\_[SubmissionDate]\_
[CoveragePeriodDate]\_[FileNo]\_[FileCount]\_[EntityAbbreviation].dat.zip
(e.g., "ARAPCD\_12345\_PROD\_20151015\_201509\_01\_02\_CLM.dat.zip")

o Resulting zipped archive file extension should be ".zip"

## **Encryption Software Recommendations**

The APCD Technical Support team recommends that submitters use the following software options for file encryption if they have not already established an encryption process with the Arkansas APCD. These recommendation describe GPG encryption protocols that can be accomplished at no cost to the submitter.

The APCD Technical Support team will work with submitting entities if PGP encryption protocols are the only option.

## **GPG Encryption Software Tools**

- Windows Operating Systems
  - o Gpg4Win
    - Kleopatra (key generation, import, export, and management)
    - GPA (key generation and management)
    - GPG command-line encryption operations
  - GpgEx
    - Context-menu encrypt, sign, verify, and decrypt
       NOTE: Installed as part of the aforementioned Gpg4Win distribution
  - o 7-Zip (64-bit, 32-bit)
    - Context-menu zipping and unzipping of files
    - 7z command-line zipping/encryption operations
    - Optional AES-256 symmetric encryption via password

- Linux Operating Systems
  - o GnuPG
    - Kleopatra (key generation, import, export, management)
    - GPA (key generation, management)
    - GPG command-line encryption operations
    - Ubuntu install: sudo apt-get install gnupg
  - o Seahorse
    - Context-menu encrypt, sign, verify, decrypt
       NOTE: May not be installed when GnuPG is installed; if so, then see following install
    - Ubuntu install: sudo apt-get install seahorse-plugins
  - o **7-Zip** 
    - Context-menu zipping and unzipping of files
    - 7z command-line zipping/encryption operations
    - Optional AES-256 symmetric encryption via password
    - Ubuntu install: sudo apt-get install p7zip-full

## **GPG Command Line Examples**

To encrypt and sign an unencrypted file, submitters could use the following procedures:

- Definition:
  - o "recipient" parameter is the ARAPCD Public RSA Key
  - o "local-user" parameter is the SE's DSA KeyID
  - o "passphrase" is the SE's passphrase
  - o "file name" is the file name format described above
- Examples:
  - GPG --recipient [ARAPCD Public RSA Key] --local-user [SE DSA Key] --sign --yes --passphrase [SE's DSA Key passphrase] --always-trust --output "[file name].dat.gpg" --encrypt "file name.dat"
  - gpg --local-user [SE DSA Key] --yes --passphrase [SE's DSA Key pass phrase] --output " [file name].dat.gpg.sig" --detach-sign "[file name].dat.gpg"
  - o 7z a --tzip "[file name].dat.zip" "[file name].dat.gpg"
  - o 7z a --tzip "[file name].dat.zip" "[file name].dat.gpg.sig"

## **EXHIBIT C – APCD CLAIMS VERSIONING**

Arkansas APCD claims versioning is used to build the most recent "version" of a claim that most accurately represents the diagnoses, procedures, dollars paid, service dates, and other related information for the claim. It is not an attempt to replicate submitting entity versioning, adjustment, or adjudication processes but to provide accurate information for analysis and reporting. Versioned claims will be used to calculate aggregation fields such as Total Claim Amounts for the Arkansas APCD.

The Arkansas APCD identified nine claims versioning approaches that generally fit most requirements. Submitting entities can choose from these approaches for data submission.

## Versioning Approach Selection

- 1. If selecting a versioning approach described herein:
  - a. Submitting entities participating in the initial Arkansas APCD build (those having registered in 2015) should identify the versioning approach they will utilize prior to December 31, 2016, in preparation for the data submission as defined in Rule 100 due on March 31, 2017.
    - i. Submit an email to the Arkansas APCD Technical Support team with the subject line, "[Entity ID] Versioning Approach." The body of the email should name the versioning approach from the selection in this section. For example, submitting entity name and/or entity ID selects versioning approach 1 for medical and dental claims.
    - ii. The APCD Technical Support team will reach out for confirmation, will address outstanding questions, and will establish a testing process.
    - iii. Populate MC706, PC706, and DC706 with the appropriate values to identify the versioning approach.
  - New submitting entities (those registering after 2015) should identify the versioning approach
    they will utilize prior to test file data submission. Refer to the <u>Submission Schedule</u> for file
    submission instructions.
    - i. Submit an email to the Arkansas APCD Technical Support team with the subject line, "[Entity ID] Versioning Approach." The body of the email should name the versioning approach from the selection in this section. For example, submitting entity name and/or entity ID selects versioning approach 1 for medical and dental claims.
    - ii. The APCD Technical support team will reach out for confirmation, will address outstanding questions, and will establish a testing process.
    - Populate MC706, PC706, and DC706 with the appropriate value to identify the versioning approach.
- If the submitting entity's versioning approach is not defined here, it can be accommodated but will be considered custom. The Arkansas APCD team will work with submitting entities as needed to establish the appropriate versioning process.

# <u>Assumptions</u>

- Claim Status (MC138, PC110, DC059) will provide the primary direction for claim versioning priorities.
- Amounts must be represented as negative values for voided claims, back out claims, or reversed claims and must be associated with a previous claim.

- When fields specified in any of the included approaches cannot determine the final version, other fields may be used to fulfill versioning logic.
- Even with standard approaches defined, the Arkansas APCD Technical Support team will work with submitting entities to understand how data element IDs should be handled.
- As the new "versions" of each claim are added to the Arkansas APCD data warehouse as transactions, the Arkansas APCD data transformation processes will aggregate them to create the final version of a claim for reporting and analysis.
- Member/enrollment data versioning is different than claims versioning. Member/enrollment versioning
  is described in <u>Data Categories for Submission Enrollment Data</u>.
- Versioning fields specified in this DSG that are not required by the selected versioning approach should be left null. Submit an exception for each field that is not used.

# Validation Process for Versioning Approaches

Refer to the <u>Versioning Validation</u> section.

# Claims Versioning Approaches

# Approach 1: Version Numbers

Use Version Number to identify the latest version of a claim or claim line. Version Number can be an alphanumeric value up to 20 bytes in length. It must represent the incremented version of the claim. While a Version Number that is specific to a submitting entity can be accommodated, the preferred format is a 2-digit number beginning with 00 that is incremented as claim versions are generated.

Claim lines with higher Version Numbers will incrementally replace those with lower Version Numbers. If multiple versioned claims are received in a data submission period, the claim line with the highest Version Number will be considered the final claim for that period.

When claims are received with a Version Number greater than 00, the following steps occur:

- Payer Claim Control Number (MC004, PC004, DC004) and Line Number (MC005, PC005, DC005) are matched to existing data.
- Version Number (MC005A, PC005A, DC005A) is compared to existing data to identify order of version (multiple versions of a claim can be received in a submission period).

Populate fields MC706, PC706, and DC706 with value 1 to indicate that <u>Version Numbers</u> will be used as the versioning approach.

See Versioning Example 1.

Commented [A113]: Revision 32: NEW – Information on proposed versioning validation process with submitting entities

#### Approach 2: Version Date

Use Version Date to identify the latest version of a claim or claim line. The value in Version Date represents either the year and month or the Julian date of the latest version of the claim.

Claim lines with higher Version Dates will incrementally replace those with lower Version Dates. If multiple versioned claims are received in a data submission period, the claim line with the latest Version Dates will be considered the final claim for that period.

When claims are received with Version Dates (and Version Number is not present), the following steps occur:

- Payer Claim Control Number (MC004, PC004, DC004) and Line Counter (MC005, PC005, DC005) are matched to existing data.
- Version Date (MC005B, PC005B, DC005B) is compared to existing data to identify order of version (multiple versions of a claim can be received in a submission period).

Populate fields MC706, PC706, and DC706 with value 2 to indicate that Version Date will be used as the versioning approach.

See Versioning Example 2.

## Approach 3: Original Claim Number

When Version Number and/or Version Date cannot be used to identify versions, Original Claim Number can be used to identify a change. Changed claims are sent with a new Payer Claim Control Number (MC004, PC004, DC004). The Payer Claim Control Number from the original claim will be in the Original Claim Number field (MC139, PC704, DC704) of the changed claim. Original Claim Number (MC139, PC704, DC704) cannot contain the same value as Payer Claim Control Number (MC004, PC004, DC004).

When claims are received with Original Claim Number and no other versioning information, the following steps occur:

- Original Claim Number (MC139, PC704, DC704) on the newly submitted claim is matched to the Payer Claim Control Number (MC004, PC004, DC004) on existing claims.
- Paid Dates (MC017, PC017, DC017) are compared to existing data to identify order of version (multiple versions of a claim can be received in a submission period).

Populate fields MC706, PC706, and DC706 with value 3 to indicate that Original Claim Number will be used as the versioning approach.

See <u>Versioning Example 3</u>.

## Approach 4: Claim Status and Paid Date

When Version Number, Version Date, and/or Original Claim Number cannot be used to identify versions, Claim Status and Paid Date can be used to identify a change. The following steps occur:

- Payer Claim Control Number (MC004, PC004, DC004) and Line Counter (MC005, PC005, DC005) are matched to existing data.
- Claim Status (MC138, PC110, DC059) is used to identify the type of version and the action to be taken.
- Paid Dates (MC017, PC017, DC017) are compared to existing data to identify order of version (multiple versions of a claim can be received in a submission period).

Populate fields MC706, PC706, and DC706 with value 4 to indicate that Claim Status and Paid Date will be used as the versioning approach.

See Versioning Example 4.

## Approach 5: Paid Date

When Paid Date is the only variable available to identify versions, the following steps occur:

- Payer Claim Control Number (MC004, PC004, DC004) and Line Counter (MC005, PC005, DC005) are matched to existing data.
- Paid Dates (MC017, PC017, DC017) are compared to existing data to identify order of version (multiple versions of a claim can be received in a submission period).

Populate fields MC706, PC706, and DC706 with value 5 to indicate that Paid Date alone will be used as the versioning approach.

See Versioning Example 5.

# Approach 6: Complete File Replacement

When versioning requirements are too complex to replicate effectively, a complete file replacement (or refresh) is recommended. A complete file replacement requires that the most recent version of all claims included in the historical file submission and the subsequent file submissions be submitted along with new claims.

Version number should be incremented on claims that are versioned. Use sequential version numbers beginning with 0 for original, 1 for the first versions, 2 for the second version, etc. It is understood that claims can be versioned multiple times during a submission period and that the version numbers between data submissions may not increment by 1. For example, an existing claim could be version 0. This claim could change twice during the submission period so the claim received during the next submission could be version 2.

Upon receipt of replacement data feeds, claim numbers and claim lines will be compared to existing data to ensure that all data is present as part of the load process. Once counts are verified, the Arkansas APCD data load processes will drop all existing claims based on the submitting entity ID and load the replacement and new data.

Populate fields MC706, PC706, and DC706 with value 6 to indicate that a Complete File Replacement will negate the use of versioning.

## Approach 7 - Pharmacy Claims

Variables used to identify new versions of a pharmacy claim.

- PC004 Payer Claim Control Number
- PC005 Line Counter
- PC018 Pharmacy Number
- PC058 Script Number
- PC032 Date Prescription Filled
- PC028 Fill Number
- PC017 Paid Date
- PC107 Carrier Specific Unique Member ID
- PC110 Claim Status

To identify a pharmacy claim version, the following steps occur:

- PC107 Carrier Specific Unique Member ID, PC018 Pharmacy Number, PC032 Date Prescription Filled, PC058 - Script Number, and PC028 - Fill Number are grouped
- PC004 Payer Claim Control Number, PC005 Line Counter, PC028 Fill Number, PC017 Paid Date, and PC110 - Claim Status are evaluated for differences to find the last transaction and identify the final version of the claim.

Populate fields MC706, PC706, and DC706 with value 7 to indicate that a Pharmacy Claims approach will be used for versioning.

See Versioning Example 6.

# <u>Approach 8 – No Versioning Available</u>

The Arkansas APCD recognizes that some legacy processing systems do not have claims versioning. If this is not available, populate fields MC706, PC706, and DC706 with value 8 to indicate that there is no versioning option available.

## **Custom Versioning Approach**

The Arkansas APCD recognizes that some claims processing system versioning process cannot be accommodated by the approaches available. The Arkansas APCD team will work with submitters requiring custom versioning approaches, assigning them a versioning process number indicating that a custom approach is required.

# Voids

Voided claims are identified by the presence of Claim Status (MC138, PC110, DC059) = V or the presence of a Void Date (MC700, PC700, DC700). All dollar fields should be negative.

When a void record is received, the following steps occur:

- Payer Claim Control Number (MC004, PC004, DC004) and Line Counter (MC005, PC005, DC005) are matched to existing data
- Claim Status (MC138, PC110, DC059) is evaluated for the presence of value V.
- Void Date (MC700, PC700, DC700) is evaluated to ensure presence of valid date.
- Total claim amount aggregations will be reduced by the amount on the void record.

See <u>Versioning Example 7</u>.

# Versioning Examples

The following examples illustrate basic versioning concepts to be applied for each versioning approach. These concepts can be enhanced with other data elements as required by submitting entities.

Example 1: With Version Numbers

| # | Payer Claim<br>Control Number | Line Counter | Version<br>Number | Paid Date  | Claim Status | Amount* | Description   |
|---|-------------------------------|--------------|-------------------|------------|--------------|---------|---|
| 1 | 789                           | 1            | 00                | 2014-07-15 | 0            | \$10    | Original submission   |
| 2 | 789                           | 2            | 00                | 2014-07-15 | 0            | \$20    | Original submission   |
| 3 | 789                           | 3            | 00                | 2014-07-15 | 0            | \$30    | Original submission   |
| 4 |                               |              |                   |            |              | \$60    | Total claim amount calculated for APCD                      |
| 5 | 789                           | 1            | 01                | 2014-07-15 | В            | -\$10   | Back Out/Reversal Claim Line with updated data              |
| 6 |                               |              |                   |            |              | \$50    | Total claim amount calculated for APCD                      |
| 7 | 789                           | 2            | 01                | 2014-07-15 | A, R, or M   | \$5     | Adjusted/Amended/Replacement Claim Line with updated data   |
| 8 | 789                           | 1            | 02                | 2014-07-15 | A, R, or M   | \$15    | Adjusted/Amended/Replacement Claim Line with updated data   |
| 9 |                               |              |                   |            |              | \$50    | Total claim amount calculated for APCD<br>(Lines 3 + 7 + 8) |

<sup>\*</sup>The amount column represents any dollar field on the claim.

| Match Criteria  | Versioning Process  |
|---|---|
| Match on Payer Claim Control<br>Number and Line Counter | Evaluate Version Number and Claim Status.  Keep as final the record with the highest Version Number per each unique Payer Claim Control Number and Line Counter. For this |
| Other Data Element IDs Used:<br>Claim Status            | example, the final lines for this claim are 3, 7, and 8.  Note, if versioned claim line represents a back out, void, or drop, the dollar values should be negative.       |

Example 2: No Version Numbers With Version Date Indicators Only

| # | Payer Claim<br>Control<br>Number | Line Counter | Version Date | Paid Date  | Claim Status | Amount* | Description  |
|---|----------------------------------|--------------|--------------|------------|--------------|---------|--|
| 1 | 321                              | 1            | 16015        | 2014-07-15 | Unavailable  | \$10    | Original submission  |
| 2 | 321                              | 2            | 16015        | 2014-07-15 | Unavailable  | \$20    | Original submission  |
| 3 | 321                              | 3            | 16015        | 2014-07-15 | Unavailable  | \$30    | Original submission  |
| 4 |                                  |              |              |            |              | \$60    | Total claim amount calculated for APCD                                       |
| 5 | 321                              | 1            | 16036        | 2014-09-30 | Unavailable  | -\$10   | Back Out/Reversal Claim Line with updated data                               |
| 6 | 321                              | 1            | 16036        | 2014-09-30 | Unavailable  | \$20    | Adjusted/Amended/Replacement Claim Line with updated data                    |
| 7 |                                  |              |              |            |              | \$70    | Total claim amount calculated for APCD ((Lines 1 + 2 + 3) - Line 5 + Line 6) |

<sup>\*</sup>The amount column represents any dollar field on the claim.

| Match Criteria  | Versioning Process   |  |  |  |  |  |  |
|---|--|--|--|--|--|--|--|
| Match on Payer Claim Control<br>Number and Line Counter                               | Evaluate Version Date. When Version Date is later than the original Version Date, add as versioned claim and incorporate Amount into Total Claim amount calculated for APCD. Apply in chronological order based on Version Date. |  |  |  |  |  |  |
| (If Claim Status was available, the<br>methodology in Example 1 would<br>be followed) | For multiple versions on the same day, add all positive values and then subtract negative values.  Note: If versioned claim line represents a back out, void, or drop, the dollar values should be negative.                     |  |  |  |  |  |  |

Example 3: Original Claim Number

| # | Payer Claim<br>Control<br>Number | Line Counter | Original Claim<br>Number | Paid Date  | Claim Status | Amount* | Description   |
|---|----------------------------------|--------------|--------------------------|------------|--------------|---------|---|
| 1 | 321                              | 1            |                          | 2014-07-15 | 0            | \$10    | Original submission   |
| 2 | 321                              | 2            |                          | 2014-07-15 | 0            | \$20    | Original submission   |
| 3 | 321                              | 3            |                          | 2014-07-15 | 0            | \$30    | Original submission   |
| 4 |                                  |              |                          |            |              | \$60    | Total claim amount calculated for APCD                              |
| 5 | 456                              | 1            | 321                      | 2014-09-30 | 0            | -\$20   | Back Out/Reversal Claim Line with updated data                      |
| 7 |                                  |              |                          |            |              | \$40    | Total claim amount calculated for APCD ((Lines 1 + 2 + 3) - Line 5) |

<sup>\*</sup> The amount column represents any dollar field on the claim.

| Match Criteria   | Versioning Process  |  |  |  |  |  |
|--|---|--|--|--|--|--|
| Match on Payer Claim Control<br>Number and Original Claim Number | Evaluate other data fields. When record with Original Claim Number matches the Payer Claim Control Number on a new record, evaluate key fields on the record including but not limited to Paid Date and Amount Fields. Identify differences and aggregate based on changes. |  |  |  |  |  |
|  | Note: If versioned claim line represents a back out, void, or drop, the dollar values should be negative.   |  |  |  |  |  |

 ${\it Example~4: No~Version~Numbers~With~Claim~Status~and~Paid~Date~Indicators}$ 

| # | Payer Claim<br>Control Number | Line Counter | Paid Date  | Claim Status | Amount* | Description   |
|---|-------------------------------|--------------|------------|--------------|---------|---|
| 1 | 123                           | 1            | 2014-07-15 | 0            | \$10    | Original submission                                       |
| 2 | 123                           | 2            | 2014-07-15 | 0            | \$20    | Original submission                                       |
| 3 | 123                           | 3            | 2014-07-15 | 0            | \$30    | Original submission                                       |
| 4 |                               |              |            |              | \$60    | Total claim amount calculated for APCD                    |
| 5 | 123                           | 2            | 2014-09-30 | В            | -\$20   | Back Out/Reversal Claim Line with updated data            |
| 6 | 123                           | 3            | 2014-09-30 | A, M, R      | \$10    | Adjusted/Amended/Replacement Claim Line with updated data |
| 7 |                               |              |            |              | \$20    | Total claim amount calculated for APCD<br>(Lines 1 + 6)   |

<sup>\*</sup>The amount column represents any dollar field on the claim.

| Match Criteria                         | Versioning Process  |
|--|---|
| Match on Payer Claim Control<br>Number | Evaluate Line Counter, Claims Status and Paid Date.  Keep as final the record with the latest paid date per each unique Payer Claim Control Number and Line Counter. For this example, the final lines for this claim are 1 and 6. Lines 2 and 5 are not included because their claim status indicated O and B, cancelling each other out.  Note: If versioned claim line represents a back out, void, or drop, the dollar values should be negative. |

Example 5: No Version Numbers Using Paid Date Indicators Only

| # | Payer Claim<br>Control Number  | Line Counter                        | Paid Date  | Claim Status  | Amount*     | Description  |
|---|--------------------------------|-------------------------------------|------------|---|-------------|--|
| 1 | 456                            | 1                                   | 2014-07-15 | Unavailable   | \$10        | Original submission  |
| 2 | 456                            | 2                                   | 2014-07-15 | Unavailable   | \$20        | Original submission  |
| 3 | 456                            | <b>456</b> 3 2014-07-15 Unavailable |            | Unavailable   | \$30        | Original submission  |
| 4 |                                |                                     |            |   | \$60        | Total claim amount calculated for APCD                           |
| 5 | 456                            | 1                                   | 2014-09-30 | Unavailable   | -\$10       | Back Out/Reversal Claim Line with updated data                   |
| 6 | 6 456 1 2014-09-30 Unavailable |                                     | \$20       | Adjusted/Amended/Replacement Claim Line with updated data |             |  |
| 7 |                                |                                     |            |   | <i>\$70</i> | Total Claim Amount calculated for APCD (Lines 1 + 2 + 3 + 5 + 6) |

<sup>\*</sup>The amount column represents any dollar field on the claim.

| Match Criteria                         | Versioning Process   |
|--|--|
| Match on Payer Claim Control<br>Number | Keep as final the record with the latest paid date per each unique Payer Claim Control Number. For this example, the final lines for this claim are 1, 2, 3, 5, and 6. Because claim status is missing to govern order of operations, all claim lines will be added, regardless of status. |
|  | Note: If versioned claim line represents a back out, void, or drop, the dollar values should be negative.  |

Example 6: Pharmacy Example with No Version Numbers or Version Dates

| # | Payer<br>Claim<br>Control<br>Number | Line<br>Counter | Carrier<br>Specific<br>Unique<br>Member<br>ID | PharmacyNumber | Fill Date  | Script<br>Number | Fill<br>Number | Claim<br>Status | Amount* | Description   |
|---|-------------------------------------|-----------------|---|----------------|------------|------------------|----------------|-----------------|---------|---|
| 1 | 567                                 | 1               | 120   | 100            | 2014-07-15 | 72               | 00             | 0               | \$10    | Original submission   |
| 2 | 1589                                | 1               | 120   | 100            | 2014-07-15 | 72               | 00             | Α               | \$20    | New version of Claim 567  |
| 3 |                                     |                 |   |                |            |                  |                |                 | \$20    | Total claim amount calculated for APCD (Line 2 replaces Line 1) |
| 4 | 2235                                | 1               | 120   | 100            | 2014-08-15 | 72               | 01             | 0               | \$20    | Original submission   |
| 5 |                                     |                 |   |                |            |                  |                |                 | \$20    | Total claim amount calculated for APCD (Line 4 only)            |
| 6 | 789                                 | 1               | 120   | 225            | 2015-08-30 | 175              | 00             | 0               | \$30    | Original submission   |
| 7 | 1864                                | 1               | 120   | 225            | 2015-08-30 | 175              | 00             | В               | -\$30   | New version of Claim 789  |
| 8 |                                     |                 |   |                |            |                  |                |                 | \$0     | Total claim amount calculated for APCD<br>(Line 6 - Line 7)     |

<sup>\*</sup>The amount column represents any dollar field on the claim.

| Match Criteria  | Versioning Process  |
|---|---|
| Water Criteria  | Versioning Frocess  |
| Match on Carrier Specific Unique<br>Member ID, Pharmacy Number, Fill<br>Date, Script Number, and Fill<br>Number | Evaluate match fields. When records are grouped by these fields, and the claim status is different, the original claim has been adjusted or amended.  When Claims Status equals A, M, R, claim line with the incrementally higher Payer Claim Control Number will be the versioned and final claim. The Amount* will be used as the Total Claim amount calculated for APCD. |
|   | When Claims Status equals B, claim line with the incrementally higher Payer Claim Control Number will be backed out. The Amount will be reversed from the Total Claim amount calculated for APCD.   |

# Example 7: Voids

| # | Payer Claim<br>Control<br>Number | Line Counter | Version<br>Number | Paid Date  | Claim<br>Status | Void Date   | Amount* | Description                            |
|---|----------------------------------|--------------|-------------------|------------|-----------------|---|---------|--|
| 1 | 749                              | 1            | 00                | 2014-07-15 | 0               |   | \$10    | Original submission                    |
| 2 | 749                              | 2            | 00                | 2014-07-15 | 0               |   | \$20    | Original submission                    |
| 3 | 749                              | 3            | 00                | 2014-07-15 | 0               |   | \$30    | Original submission                    |
| 4 |                                  |              |                   |            |                 |   | \$60    | Total claim amount calculated for APCD |
| 5 | 749                              | 1            | 01                | 2014-07-15 | V               | 2014-09-30  | -\$20   | Voided claim                           |
| 6 |                                  |              |                   |            | \$40            | Total claim amount calculated for APCD ((Lines 1 + 2 + 3) - Line 5) |         |  |

<sup>\*</sup>The amount column represents any dollar field on the claim.

| Match Criteria  | Versioning Process   |
|---|--|
| Match on Payer Claim Control<br>Number and Line Counter | Evaluate Claim Status and Void Date.  When Claim Status is V and/or Void Date is populated, the Amount will be reversed from the Total Claim Amount calculated for APCD. |

# APPENDICES

# Appendix A: Insurance Type Product Codes

Insurance type product codes represent a custom set of values developed to support Arkansas health insurance plans.

| Value | Description   |
|-------|---|
| AW    | Arkansas Workers' Compensation Commission Coverage                  |
| CAP   | Capitated Plan  |
| CI    | Commercial Insurance Company  |
| DNT   | Dental  |
| EBD   | State Employee Benefits Division                                    |
| EP    | Exclusive Provider Organization                                     |
| HM    | Health Maintenance Organization (HMO)                               |
| HN    | Health Maintenance Organization (HMO) Medicare Risk/Medicare Part C |

## Appendix E: Facility Type/Place of Service

Facility Type / Place of Service codes should be used on professional claims to specify the entity where service(s) are rendered. They are sourced from CMS Medicare coding tables: <a href="https://www.cms.gov/Medicare/M

| Value | Name                                 | Description   |
|-------|--------------------------------------|---|
|       |                                      | A facility or location where drugs and other medically related  |
| 1     | Pharmacy                             | items and services are sold, dispensed, or otherwise provided directly to patients.   |
| 2     | Unassigned                           | N/A   |
| 3     | School                               | A facility whose primary purpose is education.  |
|       |                                      | A facility or location whose primary purpose is to provide  |
| 4     | Homeless Shelter                     | temporary housing to homeless individuals (e.g., emergency,   |
|       | Tromeress smerre,                    | individual, or family shelters).  |
|       |                                      | A facility or location, owned and operated by the Indian Health   |
|       | Indian Health Service – Free         | Service, that provides diagnostic, therapeutic (surgical and non-   |
| 5     | Standing Facility                    | surgical), and rehabilitation services to American Indians and  |
|       | Starially racinty                    | Alaska Natives who do not require hospitalization (effective  |
|       |                                      | January 1, 2003).   |
|       |                                      | A facility or location, owned and operated by the Indian Health   |
| •     | Indian Health Service – Provider     | Service, that provides diagnostic, therapeutic (surgical and non-   |
| 6     | Based Facility                       | surgical), and rehabilitation services rendered by, or under the supervision of, physicians to American Indians and Alaska Natives    |
|       |                                      | admitted as inpatients or outpatients.  |
|       |                                      | A facility or location owned and operated by a federally  |
|       |                                      | recognized American Indian or Alaska Native tribe or tribal   |
| _     |                                      | organization under a 638 agreement, that provides diagnostic,   |
| 7     | Tribal 638 – Free Standing Facility  | therapeutic (surgical and non-surgical), and rehabilitation services  |
|       |                                      | to tribal members who do not require hospitalization (effective   |
|       |                                      | January 1, 2003).   |
|       |                                      | A facility or location owned and operated by a federally  |
|       |                                      | recognized American Indian or Alaska Native tribe or tribal   |
| 8     | Tribal 638 – Provider Based Facility | organization under a 638 agreement, that provides diagnostic,   |
|       |                                      | therapeutic (surgical and non-surgical), and rehabilitation services  |
|       | _                                    | to tribal members admitted as inpatients or outpatients.  |
|       | Prison/Correctional Facility         | A prison, jail, reformatory, work farm, detention center, or any other similar facility maintained by either federal, state, or local |
| 9     |                                      | authorities for the purpose of confinement or rehabilitation of   |
|       |                                      | adult or juvenile criminal offenders.   |
| 10    | Unassigned                           | N/A   |
|       |                                      | Location — other than a hospital, skilled nursing facility (SNF),   |
|       |                                      | military treatment facility, community health center, state or local  |
| 11    | Office                               | public health clinic, or intermediate care facility (ICF) — where the   |
|       |                                      | health professional routinely provides health examinations,   |
|       |                                      | diagnosis, and treatment of illness or injury on an ambulatory basis.   |
| 12    | Home                                 | Location, other than a hospital or other facility, where the patient  |
|       | 1                                    | receives care in a private residence.   |
| 13    | Assisted Living Facility             | Congregate residential facility with self-contained living units  |
|       |                                      | providing assessment of each resident's needs and on-site   |
|       |                                      | support 24 hours a day, 7 days a week, with the capacity to   |

| Value | Name  | Description   |
|-------|---|---|
|       |   | deliver or arrange for services including some health care and        |
|       |   | other services.   |
| 14    |   | A residence, with shared living areas, where clients receive          |
|       | Group Home *                                    | supervision and other services such as social and/or behavioral       |
|       | J. C. L. C. | services, custodial service, and minimal services (e.g., medication   |
|       |   | administration).  |
|       |   | A facility/unit that moves from place to place equipped to            |
| 15    | Mobile Unit                                     | provide preventive, screening, diagnostic, and/or treatment           |
|       |   | services.   |
|       |   | A short-term accommodation such as a hotel, camp ground,              |
| 16    | Temporary Lodging                               | hostel, cruise ship, or resort where the patient receives care, and   |
|       |   | that is not identified by any other POS code.                         |
|       |   | A walk-in health clinic — other than an office, urgent care facility, |
|       |   | pharmacy or independent clinic and not described by any other         |
| 17    | Walk-in Retail Health Clinic                    | Place of Service code — that is located within a retail operation     |
|       |   | and provides, on an ambulatory basis, preventive and primary          |
|       |   | care services. (This code is available for use immediately with a     |
|       |   | final effective date of May 1, 2010.)                                 |
|       |   | A location, not described by any other POS code, owned or             |
|       |   | operated by a public or private entity where the patient is           |
| 18    | Place of Employment – Worksite                  | employed, and where a health professional provides ongoing or         |
|       | race or Employment Tromsite                     | episodic occupational medical, therapeutic or rehabilitative          |
|       |   | services to the individual. (This code is available for use effective |
|       |   | January 1, 2013, but no later than May 1, 2013).                      |
|       |   | A portion of an off-campus hospital provider based department         |
|       |   | which provides diagnostic, therapeutic (both surgical and             |
| 19    | Off Campus – Outpatient Hospital                | nonsurgical), and rehabilitation services to sick or injured persons  |
|       |   | who do not require hospitalization or institutionalization (effective |
|       |   | January 1, 2016).   |
|       |   | Location, distinct from a hospital emergency room, an office, or a    |
| 20    | Urgent Care Facility                            | clinic, whose purpose is to diagnose and treat illness or injury for  |
|       | ,   | unscheduled, ambulatory patients seeking immediate medical            |
|       |   | attention.  |
|       |   | A facility, other than psychiatric, that primarily provides           |
| 21    | Inpatient Hospital                              | diagnostic, therapeutic (both surgical and nonsurgical), and          |
|       |   | rehabilitation services by, or under the supervision of, physicians   |
|       |   | to patients admitted for a variety of medical conditions.             |
|       |   | A portion of a hospital's main campus which provides diagnostic,      |
| 22    |   | therapeutic (both surgical and nonsurgical), and rehabilitation       |
| 22    | On Campus – Outpatient Hospital                 | services to sick or injured persons who do not require                |
|       |   | hospitalization or institutionalization (description change           |
|       |   | effective January 1, 2016).   |
| 23    | Emergency Room – Hospital                       | A portion of a hospital where emergency diagnosis and treatment       |
|       |   | of illness or injury is provided.                                     |
| 24    | Ambulatory Surgical Center                      | A freestanding facility, other than a physician's office, where       |
|       |   | surgical and diagnostic services are provided on an ambulatory        |
|       |   | basis.  |
|       |   | A facility, other than a hospital's maternity facilities or a         |
| 25    | Birthing Center                                 | physician's office, which provides a setting for labor, delivery, and |
|       |   | immediate post-partum care as well as immediate care of               |
|       |   | newborn infants.  |

| Value | Name                              | Description  |
|-------|-----------------------------------|--|
| value | Name                              | A medical facility operated by one or more of the Uniformed  |
|       |                                   | Services. Military Treatment Facility (MTF) also refers to certain   |
| 26    | Military Treatment Facility       | former U.S. Public Health Service (USPHS) facilities now   |
|       |                                   | designated as Uniformed Service Treatment Facilities (USTF).   |
| 27-30 | Unassigned                        | N/A  |
| 27-30 | Onassigned                        | A facility that primarily provides inpatient skilled nursing care and  |
|       |                                   | related services to patients who require medical, nursing, or  |
| 31    | Skilled Nursing Facility          | rehabilitative services, but that does not provide the level of care   |
|       |                                   | or treatment available in a hospital.  |
|       |                                   | A facility that primarily provides to residents skilled nursing care   |
|       |                                   | and related services for the rehabilitation of injured, disabled, or   |
| 32    | Nursing Facility                  | sick persons, or, on a regular basis, health-related care services   |
| -     | runsing rusine,                   | above the level of custodial care to other than mentally retarded  |

|       |                                   | A location, not part of a hospital and not described by any other  |
| 49    | Independent Clinic                | Place of Service code, that is organized and operated to provide   |
| 49    | Independent Clinic                | preventive, diagnostic, therapeutic, rehabilitative, or palliative   |
|       |                                   | services to outpatients only.  |
|       | Federally Qualified Health Center | A facility located in a medically underserved area that provides   |
| 50    |                                   | Medicare beneficiaries preventive primary medical care under   |
|       |                                   | the general direction of a physician.  |
|       | Inpatient Psychiatric Facility    | A facility that provides inpatient psychiatric services for the  |
| 51    |                                   | diagnosis and treatment of mental illness on a 24-hour basis by,   |
|       |                                   | or under the supervision of, a physician.  |
|       |                                   | A facility for the diagnosis and treatment of mental illness that  |
|       | Psychiatric Facility-Partial      | provides a planned therapeutic program for patients who do not   |
| 52    | Hospitalization                   | require full-time hospitalization, but who need broader programs   |
|       |                                   | than are possible from outpatient visits to a hospital-based or  |
|       |                                   | hospital-affiliated facility.  |
|       |                                   | A facility that provides the following services: outpatient services,  |
|       | Community Mental Health Center    | including specialized outpatient services for children, the elderly,   |
|       |                                   | individuals who are chronically ill, and residents of the CMHC's   |
|       |                                   | mental health services area who have been discharged from  |
| 53    |                                   | inpatient treatment at a mental health facility; 24-hour-a-day   |
|       |                                   | emergency care services; day treatment, other partial  |
|       |                                   | hospitalization services, or psychosocial rehabilitation services;   |
|       |                                   |  |
|       |                                   | screening for patients being considered for admission to state   |
|       |                                   | screening for patients being considered for admission to state<br>mental health facilities to determine the appropriateness of such<br>admission; and consultation and education services. |

| Value | Name   | Description   |
|-------|--|---|
| 54    | Intermediate Care Facility/<br>Individuals with Intellectual<br>Disabilities | A facility that primarily provides health-related care and services above the level of custodial care to individuals but does not provide the level of care or treatment available in a hospital or SNF.  |
| 55    | Residential Substance Abuse<br>Treatment Facility                            | A facility that provides treatment for substance (alcohol and drug) abuse to live-in residents who do not require acute medical care. Services include individual and group therapy and counseling, family counseling, laboratory tests, drugs and supplies, psychological testing, and room and board.   |
| 56    | Psychiatric Residential Treatment<br>Center                                  | A facility or distinct part of a facility for psychiatric care which provides a total 24-hour therapeutically planned and professionally staffed group living and learning environment.   |
| 57    | Non-Residential Substance Abuse<br>Treatment Facility                        | A location that provides treatment for substance (alcohol and drug) abuse on an ambulatory basis. Services include individual and group therapy and counseling, family counseling, laboratory tests, drugs and supplies, and psychological testing.   |
| 58-59 | Unassigned   | N/A   |
| 60    | Mass Immunization Center   | A location where providers administer pneumococcal pneumonia and influenza virus vaccinations and submit these services as electronic media claims, paper claims, or using the roster billing method. This generally takes place in a mass immunization setting, such as, a public health center, pharmacy, or mall but may include a physician office setting. |
| 61    | Comprehensive Inpatient<br>Rehabilitation Facility                           | A facility that provides comprehensive rehabilitation services under the supervision of a physician to inpatients with physical disabilities. Services include physical therapy, occupational therapy, speech pathology, social or psychological services, and orthotics and prosthetics services.  |
| 62    | Comprehensive Outpatient<br>Rehabilitation Facility                          | A facility that provides comprehensive rehabilitation services under the supervision of a physician to outpatients with physical disabilities. Services include physical therapy, occupational therapy, and speech pathology services.  |
| 63-64 | Unassigned   | N/A   |
| 65    | End-Stage Renal Disease Treatment<br>Facility                                | A facility other than a hospital, that provides dialysis treatment, maintenance, and/or training to patients or caregivers on an ambulatory or home-care basis.   |
| 66-70 | Unassigned   | N/A   |
| 71    | Public Health Clinic   | A facility maintained by either state or local health departments that provides ambulatory primary medical care under the general direction of a physician.   |
| 72    | Rural Health Clinic  | A certified facility that is located in a rural medically underserved area that provides ambulatory primary medical care under the general direction of a physician.  |
| 73-80 | Unassigned   | N/A   |
| 81    | Independent Laboratory   | A laboratory certified to perform diagnostic and/or clinical tests independent of an institution or a physician's office.   |
| 82-98 | Unassigned   | N/A   |
| 99    | Other Place of Service Unknown   | Other place of service not identified above.  Facility type is not known.   |
|       | CHAROWII   | racincy cype is not known.  |

## Appendix F: Procedure Modifier Codes

Utilize the latest Alphanumeric HCPCS Procedure Modifier Code set.

HCPCS Procedure Modifier Code set can be downloaded online at:

https://www.cms.gov/Medicare/Coding/HCPCSReleaseCodeSets/Alpha-Numeric-HCPCS.html

The following table lists ambulance origin and destination modifiers that are used with transportation service codes. Use the first digit to indicate the place of origin, and the second digit to indicate the destination.

| Value | Ambulance Origin and Destination Modifier   |
|-------|---|
| D     | Diagnostic or therapeutic site other than "P" or "H"' when these codes are used as origin codes   |
| E     | Residential, domiciliary, custodial facility (other than a 1819 facility)   |
| G     | Hospital-based dialysis facility (hospital or hospital-related)   |
| Н     | Hospital  |
| I     | Site of transfer (e.g., airport or helicopter pad) between types of ambulance   |
| J     | Non-hospital-based dialysis facility  |
| N     | Skilled nursing facility (SNF) (1819 facility)  |
| Р     | Physician's office (includes HMO non-hospital facility, clinic, etc.)   |
| R     | Residence   |
| S     | Scene of accident or acute event  |
| Х     | (Destination code only) intermediate stop at physician's office on the way to the hospital (included HMO non-hospital facility, clinic, etc.) |

### Appendix G: Language

#### Language Groups

U.S. Census Bureau Language groups represent categories into which 382 U.S. Census language codes are grouped for analytics simplification. Language groups can also be found at this link: http://www.census.gov/hhes/socdemo/language/about/index.html.

| Value                                | Group Description               |
|--------------------------------------|---------------------------------|
| 625,627,628                          | Spanish                         |
| 620-622,624                          | French                          |
| 623                                  | French Creole                   |
| 619                                  | Italian                         |
| 629-630                              | Portuguese                      |
| 607,613                              | German                          |
| 609                                  | Yiddish                         |
| 608,610-612                          | Other West Germanic languages   |
| 614-618                              | Scandinavian                    |
| 637                                  | Greek                           |
| 639                                  | Russian                         |
| 645                                  | Polish                          |
| 649-651                              | Serbo-Croatian                  |
| 640-644,646-648,652                  | Other Slavic languages          |
| 655                                  | Armenian                        |
| 656                                  | Persian                         |
| 667                                  | Gujarati                        |
| 663                                  | Hindi                           |
| 671                                  | Urdu                            |
| 662,664-666,668-670,672-678          | Other Indic languages           |
| 601-606,626,631-636,638,653-654,657- | Other Indo-European languages   |
| 661                                  |                                 |
| 708-715                              | Chinese                         |
| 723                                  | Japanese                        |
| 724                                  | Korean                          |
| 726                                  | Mon-Khmer, Cambodian            |
| 722                                  | Hmong                           |
| 720                                  | Thai                            |
| 725                                  | Laotian                         |
| 728                                  | Vietnamese                      |
| 684-707,716-719,721,727,729          | Other Asian languages           |
| 742                                  | Tagalog                         |
| 730-741,743-776                      | Other Pacific Island languages  |
| 864                                  | Navajo                          |
| 800-863,865-955,959-966,977-982      | Other Native American languages |
| 682                                  | Hungarian                       |
| 777                                  | Arabic                          |
| 778                                  | Hebrew                          |
| 780-799                              | African languages               |
| 679-681,683,696-697,779,956-958,967- | All other languages             |
| 976,983-999                          |                                 |

#### Language Codes

The coding operations used by the Census Bureau put the reported answers from the U.S. Census question "What is this language?" into 382 language categories of single languages or language families. These 382 language categories represent the most commonly spoken language other than English in the United States.

Language codes can also be found at this link:

http://www.census.gov/hhes/socdemo/language/about/02 Primary list.pdf

### Appendix H: Race

| Value  | Description                      |
|--------|----------------------------------|
| 1006-6 | Abenaki                          |
| 1579-2 | Absentee Shawnee                 |
| 1490-2 | Acoma                            |
| 2126-1 | Afghanistani                     |
| 2060-2 | African                          |
| 2058-6 | African American                 |
| 1994-3 | Agdaagux                         |
| 1212-0 | Agua Caliente                    |
| 1045-4 | Agua Caliente Cahuilla           |
| 1740-0 | Ahtna                            |
| 1654-3 | Ak-Chin                          |
| 1993-5 | Akhiok                           |
| 1897-8 | Akiachak                         |
| 1898-6 | Akiak                            |
| 2007-3 | Akutan                           |
| 1187-4 | Alabama Coushatta                |
| 1194-0 | Alabama Creek                    |
| 1195-7 | Alabama Quassarte                |
| 1899-4 | Alakanuk                         |
| 1383-9 | Alamo Navajo                     |
| 1744-2 | Alanvik                          |
| 1737-6 | Alaska Indian                    |
| 1735-0 | Alaska Native                    |
| 1739-2 | Alaskan Athabascan               |
| 1741-8 | Alatna                           |
| 1900-0 | Aleknagik                        |
| 1966-1 | Aleut                            |
| 2008-1 | Aleut Corporation                |
| 2009-9 | Aleutian                         |
| 2010-7 | Aleutian Islander                |
| 1742-6 | Alexander                        |
| 1008-2 | Algonquian                       |
| 1743-4 | Allakaket                        |
| 1671-7 | Allen Canyon                     |
| 1688-1 | Alpine                           |
| 1392-0 | Alsea                            |
| 1968-7 | Alutiiq Aleut                    |
| 1845-7 | Ambler                           |
| 1004-1 | American Indian                  |
| 1002-5 | American Indian or Alaska Native |
| 1846-5 | Anaktuvuk                        |
| 1847-3 | Anaktuvuk Pass                   |
| 1901-8 | Andreafsky                       |
| 1814-3 | Angoon                           |
| 1902-6 | Aniak                            |
|        |                                  |

| Value  | Description               |
|--------|---------------------------|
| 1745-9 | Anvik                     |
| 1010-8 | Apache                    |
| 2129-5 | Arab                      |
| 1021-5 | Arapaho                   |
| 1746-7 | Arctic                    |
| 1849-9 | Arctic Slope Corporation  |
| 1848-1 | Arctic Slope Inupiat      |
| 1026-4 | Arikara                   |
| 1491-0 | Arizona Tewa              |
| 2109-7 | Armenian                  |
| 1366-4 | Aroostook                 |
| 2028-9 | Asian                     |
| 2029-7 | Asian Indian              |
| 1028-0 | Assiniboine               |
| 1030-6 | Assiniboine Sioux         |
| 2119-6 | Assyrian                  |
| 2011-5 | Atka                      |
| 1903-4 | Atmautluak                |
| 1850-7 | Atgasuk                   |
| 1265-8 | Atsina                    |
| 1234-4 | Attacapa                  |
| 1046-2 | Augustine                 |
| 1124-7 | Bad River                 |
| 2067-7 | Bahamian                  |
| 2030-5 | Bangladeshi               |
| 1033-0 | Bannock                   |
| 2068-5 | Barbadian                 |
| 1712-9 | Barrio Libre              |
| 1851-5 | Barrow                    |
| 1587-5 | Battle Mountain           |
| 1125-4 | Bay Mills Chippewa        |
| 1747-5 | Beaver                    |
| 2012-3 | Belkofski                 |
| 1852-3 | Bering Straits Inupiat    |
| 1904-2 | Bethel                    |
| 2031-3 | Bhutanese                 |
| 1567-7 | Big Cypress               |
| 1905-9 | Bill Moore's Slough       |
| 1235-1 | Biloxi                    |
| 1748-3 | Birch Creek               |
| 1417-5 | Bishop                    |
| 2056-0 | Black                     |
| 2054-5 | Black or African American |
| 1035-5 | Blackfeet                 |
| 1610-5 | Blackfoot Sioux           |
| 1126-2 | Bois Forte                |
| 2061-0 | Botswanan                 |
|        |                           |

| Value  | Description                                 |
|--------|---|
| 1853-1 | Brevig Mission                              |
| 1418-3 | Bridgeport                                  |
| 1568-5 | Brighton                                    |

# Appendix I: Ethnicity

Ethnicity codes are based on Arkansas Medicaid Management Information System required ethnicity codes.

| State | Description   | Federal |
|-------|---|---------|
| Codes | Destription   | Codes   |
| 03    | Not Hispanic or Latino – American Indian or Alaska Native                               | 3       |
| 04    | Not Hispanic or Latino – Asian  | 4       |
| 05    | Not Hispanic or Latino – Black or African American                                      | 2       |
| 06    | Not Hispanic or Latino – Native Hawaiian or Other Pacific Islander                      | 6       |
| 07    | Not Hispanic or Latino – White  | 1       |
| 08    | Not Hispanic or Latino – American Indian or Alaska Native and White                     | 8       |
| 09    | Not Hispanic or Latino – Asian and White  | 8       |
| 10    | Not Hispanic or Latino – Black or African American and White                            | 8       |
| 11    | Not Hispanic or Latino – American Indian or Alaska Native and Black or African American | 8       |
| 12    | Not Hispanic or Latino – More than one race but not race codes 8-11                     | 8       |
| 13    | Hispanic or Latino – American Indian or Alaska Native                                   | 7       |
| 14    | Hispanic or Latino – Asian  | 7       |
| 15    | Hispanic or Latino – Black or African American  | 7       |
| 16    | Hispanic or Latino – Native Hawaiian or Other Pacific Islander                          | 7       |
| 17    | Hispanic or Latino – White  | 7       |
| 18    | Hispanic or Latino – American Indian or Alaska Native and White                         | 7       |
| 19    | Hispanic or Latino – Asian and White  | 7       |
| 20    | Hispanic or Latino – Black or African American and White                                | 7       |
| 21    | Hispanic or Latino – American Indian or Alaska Native and Black or African American     | 7       |
| 22    | Hispanic or Latino – More than one race but not race codes 18-21                        | 7       |
| 23    | Unknown – American Indian or Alaska Native  | 3       |
| 24    | Unknown – Asian   | 4       |
| 25    | Unknown – Black or African American   | 2       |
| 26    | Unknown – Native Hawaiian or Other Pacific Islander                                     | 6       |
| 27    | Unknown – White   | 1       |
| 28    | Unknown – American Indian or Alaska Native and White                                    | 8       |
| 29    | Unknown – Asian and White   | 8       |
| 30    | Unknown – Black or African American and White   | 8       |
| 31    | Unknown – American Indian or Alaska Native and Black or African American                | 8       |
| 32    | Unknown – More than one race but not race codes 28-31                                   | 8       |
| 33    | Not Hispanic or Latino – Other or Blank (no race selected)                              | 9       |
| 34    | Hispanic or Latino – Other or Blank (no race selected)                                  | 5       |
| 35    | Unknown – Other or Blank (no race selected)   | 9       |

## Appendix L: Plan and Group Definitions

| Plan/Group                               | Definition   | Source              |
|--|--|---------------------|
| Federal Government<br>Plan (FGP)         | A governmental plan established or maintained for its employees by the United States Government or by any agency or instrumentality of the government.   | A.C.A. 23-86-303.13 |
| Governmental Plan<br>(GPL)               | A plan established or maintained for its employees by the Government of the United States, by the government of any State or political subdivision thereof, or by any agency or instrumentality of any of the foregoing.   | A.C.A. 23-86-303.14 |
| Health Maintenance<br>Organization (HMO) | (A) A federally qualified health maintenance organization as defined in section 1301(a) of the Public Health Service Act, 42 U.S.C. § 300e(a);  (B) An organization recognized under state law as a health maintenance organization; or  (C) A similar organization regulated under state law for solvency in the same manner and to the same extent as a health maintenance organization. | A.C.A. 23-86-303.20 |
| Individual Market<br>(IND)               | The market for health insurance coverage offered to individuals other than in connection with a group health plan.   | A.C.A. 23-86-303.22 |
| Large Employer (LRG)                     | In connection with a group health plan with respect to a calendar year and a plan year, an employer who employed an average of at least fifty-one (51) employees on business days during the preceding calendar year and who employs at least two (2) employees on the first day of the plan year.   | A.C.A. 23-86-303.24 |
| Small Employer (SMG)                     | In connection with a group health plan with respect to a calendar year and a plan year, an employer who employed an average of at least two (2) but not more than fifty (50) employees on business days during the preceding calendar year and who employs at least two (2) employees on the first day of the plan year.   | A.C.A. 23-86-303.34 |
| Small-Group Market<br>(SMM)              | The health insurance market under which individuals obtain health insurance coverage directly or through any arrangement on behalf of themselves and their dependents through a group health plan maintained by a small employer.  | A.C.A. 23-86-303.35 |
| Third-Party<br>Administrator (TPA)       | Any person, firm, or partnership that collects or charges premiums from or adjusts or settles claims on residents of this state in connection with life or accident and health coverage provided by a self-funded plan or a multiple employer trust or multiple employer welfare arrangement. "Third-party administrator" includes administrative-services-only contracts                  | A.C.A. 23-92-201    |

| Definition  offered by insurers and health maintenance organizations but does not include the following persons:   | Source   |
|--|--|
|  |  |
|  |  |
| (1) An employer, for its employees or for the employees of a subsidiary or affiliated corporation of the employer;   |  |
| (2) A union, for its members;  |  |
| (3) An insurer or health maintenance organization licensed to do business in this state;   |  |
| (4) A creditor, for its debtors, regarding insurance covering a debt between them;   |  |
| (5) A credit card-issuing company that advances for or collects premiums or charges from its credit card holders as long as that company does not adjust or settle claims;   |  |
| (6) An individual who adjusts or settles claims in the normal course of his or her practice or employment and who does not collect charges or premiums in connection with life or accident and health coverage; or |  |
| (7) An agency licensed by the Insurance Commissioner and   |  |
| performing duties pursuant to an agency contract with an insurer authorized to do business in this state.  |  |
| A self-insurance arrangement whereby an employer provides  | Administrative   |
| health or disability benefits to employees with its own funds.   | Services Only (ASO)  |
| The Arkansas Insurance Department has no regulatory authority over a self-funded plan because it is not an insurance policy. Complaints and grievances over a self-funded health plan would be handled by ERISA.   |  |
| s () () d () pc () cca () pii Ah Tap   | ubsidiary or affiliated corporation of the employer;  2) A union, for its members;  3) An insurer or health maintenance organization licensed to lo business in this state;  4) A creditor, for its debtors, regarding insurance covering a lebt between them;  5) A credit card-issuing company that advances for or collects remiums or charges from its credit card holders as long as that ompany does not adjust or settle claims;  6) An individual who adjusts or settles claims in the normal ourse of his or her practice or employment and who does not ollect charges or premiums in connection with life or accident and health coverage; or  7) An agency licensed by the Insurance Commissioner and performing duties pursuant to an agency contract with an ansurer authorized to do business in this state.  A self-insurance arrangement whereby an employer provides health or disability benefits to employees with its own funds. The Arkansas Insurance Department has no regulatory authority over a self-funded plan because it is not an insurance policy. Complaints and grievances over a self-funded health |

### Appendix M: Tooth Identification

The following tables provide valid value requirements for Tooth Number, Dental Quadrant, and Tooth Surface fields. This information was sourced from <a href="Appendix K - External Code Sources">Appendix K - External Code Sources</a>, Dental Provider Specialty Codes, Tooth Surface, Tooth Number, and Dental Quadrant Definitions.

### Tooth Number or Letter Identification

The Tooth Numbering System tables support DC047 – Tooth Number or Letter Identification.

| Permanent                                      | Tooth Numbering System                         |
|--|--|
| 01 = 3rd Molar (wisdom tooth) – Upper Right    | 17 = 3rd Molar (wisdom tooth) – Lower Left     |
| 02 = 2nd Molar (12-year molar) – Upper Right   | 18 = 2nd Molar (12-year molar) – Lower Left    |
| 03 = 1st Molar (6-year molar) – Upper Right    | 19 = 1st Molar (6-year molar) – Lower Left     |

| L     | Lingual            |
| М     | Mesial             |
| 0     | Occlusal           |

### Appendix N: HIOS ID Value Component Definitions

The following bullets provide valid value component requirements requirements for ME992 and MC992. The 16-byte value (CMS field name INSRNC\_PLAN\_ID) is comprised of several components, each with a specific meaning. All components should be provided in the field.

This information was sourced from: http://edgy.guru/docs/cms/DDC Slides 090815 v4 5CR 090815.pdf

#### HIOS ID or INSRNC PLAN ID

- A 16-digit field that serves as a unique plan identifier for a plan and a given variant
- Structured as follows: [HIOS ID][State][Product Iteration][Plan Iteration][Variant]
  - o [HIOS ID] = 5-digit HIOS ID
  - o [STATE] = 2-digit state code, such as CA, TX, AL, etc. (does include District of Columbia as DC)
  - o [Product Iteration] = 3-digit number to indicate a unique product designation
  - o [Plan Iteration] = 4-digit number to indicate a unique plan designation
  - o [Variant] = 2-digit number to indicate cost-sharing variant and on/off Exchange
    - 00 = Plan sold off the Exchange [Maximum Out of Pocket (MOOP) values not required for these plans]
    - 01-06 = Plan sold on the Exchange in a given CSR variant
    - 31-36 = On-Exchange Medicaid expansion plans (Arkansas and Iowa only)
- The 14-digit version of this ID is often referred to as the "Standard Component ID" or SCID
